# Subject Index to Volume 270

## A

### Acetate

metabolism, effects of propionate on, H2197

### Acetyl carnitine

levels, during ischemic contraction of canine skeletal muscle, E400

### Acetylcholine

cerebrovasodilation elicited by, and neuronal nitric oxide production, R914

in cholecystokinin-evoked gastric hyperemia, G253

effects on chloride and potassium conductances in bronchial smooth muscle, L772

electrophysiological effects in *Necturus* antral mucosa, G449

inhibition of nitric oxide, and atrial natriuretic factor secretion in isolated rat heart, H306

in isolated airways, species differences in, L722

local release, and nitric oxide-dependent flow-induced vasodilation in vitro, H442

and myocardial contractility, in *in situ* canine hearts, H1568

negative inotropic effect of, in frog heart, H1178

### release

in diabetic gastroparesis, G411

from tracheal parasympathetic nerves, potentiation by cAMP, L541

vascular reactivity to, exercise training and, H2008

### Acetyl-CoA carboxylase

activity in hepatocytes, effects of extracellular ATP on, G701

inactivation in muscle during exercise, E299

### Acid-base balance

regulation in medullary thick ascending limb, F691, F711

in surgically stressed rats treated with GH and IGF-I, E968

### Acid/base transport

in model of proximal tubule brush border, F344

### Acidemia

fetal ACTH response to, thromboxane and, R594

### Acidification

intracellular NMDA-induced, recovery from, C593

### Acidosis

*see also pH, intracellular*

effects on phosphorylation of phospholamban and troponin I in rat cardiac muscle, C107

### metabolic

effects on apical hydrogen ATPase-related studs in A-type intercalated cells, F649

effects on apical hydrogen-potassium ATPase in intercalated cells of cortical collecting duct, F539

response of LLC-PK<sub>1</sub>-F<sup>+</sup> cells to, C920

in surgically stressed rats treated with GH and IGF-I, E968

### Acid secretion

in cultured gas gland cells from European eel, R578

### renal

in rat inner medullary collecting ducts, ammonium and, F432

in rat medullary thick ascending limb, F691

### Acinar cells

labial, ion transport systems, G213

### lacrimal

epidermal growth factor receptor in, C1164

stimulus-secretion coupling by, novel basement membrane protein in, C1743

### pancreatic

cholecystokinin-stimulated zymogen conversion in, effects of ethanol on, G171

oxygen transfer to, H1704

### Acipimox

inhibition of lipolysis, E822

### Actin

in airway epithelial cells, regulation by PKC- $\alpha$  and calpain II, L526

### F-actin

in airway epithelium, L224

in apoptosis of renal proximal tubular cells, F593

$\gamma$ -actin, and amino acid transport, C1647

gene expression, regulation in skeletal muscle during slow-muscle hypertrophy, C1624

### $\alpha$ -smooth muscle

expression in rat lipocytes, inhibition by rat liver ferritin, G370

in phenotypic shift of glomerular mesangial cells in nodular culture, F614

and tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869

turnover, in cardiomyocytes, C1075

### Actin cytoskeleton, *see* Cytoskeleton

### Actin-myosin reaction

CGP-48506 and, H24

### Action potentials

monophasic, recording *in vivo*, novel guinea pig heart model for, H1850

in sinoatrial node pacemaker cells, sodium currents and, H2108

### Activator proteins, AP-1

and matrix metalloproteinase-3 expression in mesangial cells, F806

and matrix metalloproteinase-9 expression in mesangial cells, F123

### Acute respiratory distress syndrome

inflammation in, L159

pathophysiology, L695, L921

platelet-activating factor release in, and stimulation of lung pericyte growth, L298

salt and water transport across alveolar and distal airway epithelia in, L487

### Acyl-CoA synthetase

gene transcription, stimulation by physiological insulin and triiodothyronine, E873

mRNA abundance, in VMH rats, E995

### Adaptor protein

*src* homology domain-containing (Nck), association with cytoplasmic tyrosine kinase pp125<sup>PAK</sup>, thrombin and, F295

### Adenine nucleotides

postexercise recovery of, in skeletal muscle, C1067

### Adenosine

agonist, and cardiac output in *Xenopus laevis* tadpoles, R997

analogues, effects on tension and cytosolic calcium in porcine coronary artery, H134

anti-inflammatory actions of, in endothelial cells, C522

in atrioventricular nodal conduction, studied *in vivo*, novel guinea pig heart model for, H1850

effects on myocardial hypoxia tolerance, R895

formation in ischemic heart, 5'-nucleotidase activity and, H1493

and glucose transport, F263

interstitial concentration, estimation, for canine heart, H1469

kinetics, in canine coronary circulation, H1469

myocardial, aging and, H897

and myocardial contractility, in *in situ* canine hearts, H1568

in regulation of coronary blood flow, in nitric oxide-inhibited dogs, H423

role in renal function, in hypothyroidism, F254

### Adenosine 3',5'-cyclic diphosphate ribose

cytosolic calcium response to, in osteoclasts, F469

### Adenosine 3',5'-cyclic monophosphate

accumulation in airway smooth muscle, muscarinic inhibition of, L199

agonists, effects on anion transport in inner medullary collecting duct cells, F131

analogue, and sodium channel development, H194

aquaporin 2 gene transcription and, C1695

and cell volume regulation in vascular smooth muscle, C1388

and cholecystokinin secretion, G291

and endothelial adhesion molecules, H807

and IL-1 $\beta$ -induced cerebrovascular vasodilation, in newborn pig, R1044

inhibition of intestinal sodium absorption in *cfr* knockout mice, CFTR and, G259

potentiation of acetylcholine release from tracheal parasympathetic nerves, L541

### production

in cerebral microvascular cells, effects of hypercapnia on, C1503

CGRP receptor-coupled, for dilation of pial arterioles, H317

## SUBJECT INDEX TO VOLUME 270

**Adenosine 3',5'-cyclic monophosphate (continued)**  
in regulation of endometrial ion transport, C663  
and sodium channel development, H194  
stimulation of bile acid uptake, G339  
vascular smooth muscle, and angiotensin II-induced vasoconstriction, H194

**Adenosine diphosphate**  
secretion from platelet dense granules, and platelet aggregation, H131

**Adenosine nucleotides**  
in bile, G246

**Adenosine receptors**  
*A<sub>1</sub>* and *A<sub>2a</sub>*  
mediation of tone-dependent responses in feline pulmonary vascular bed, H200  
pharmacological probes for, in feline pulmonary vascular bed *in vivo*, H610  
sensitivity, age-related changes in, in rat heart, H897  
*A<sub>2a</sub>*, characterization in adult rat ventricular myocyte, H1655  
luminal, sodium channel regulation by, in A6 distal nephron cells, F798  
renal *A<sub>1</sub>*, upregulation, renal effects of, F263

**Adenosine 5'-triphosphate**  
*see also Potassium channels, ATP-sensitive*  
biliary, G246  
cellular, release by CFTR, C538  
cerebrovascular effects, mechanisms, H1423  
and chloride secretion in cultured human tracheal glands, L979  
depletion  
effects on permeability of Caco-2BB cells, G1010  
in proximal tubule cell injury, F39  
renal epithelial cell survival after, effects of prior heat stress, F1057  
effects on apamin-sensitive calcium-dependent potassium conductance, in adult rat hepatocytes, G307  
extracellular  
and calcium signaling in myenteric neurons, G587  
effects on hepatic fatty acid metabolism, G701  
inhibition of sodium and calcium reabsorption, via protein kinase C activation, F53  
leukocyte adherence induced by, in pulmonary artery endothelial cells, L695  
negative chronotropic action in canine heart, H1785  
in sequential ischemia/reperfusion, and contralateral skeletal muscle salvage, H1407  
synthesis by alveolar type II cells, inhibition by nitric oxide, L898  
utilization and supply  
in embryonic cardiac myocytes, during hypoxia, L44  
during graded hypoxia, developmental changes in, in heart *in vivo*, H216

**Adenosine 5'-triphosphate receptors**  
on hepatocytes from little skate, R561

**Adenovirus**  
E1A 13S gene product, upregulation of tumor necrosis factor gene, L535

**Adenyl cyclase**  
activity  
in renal cortex, amylin and, F289  
in skeletal muscle, and aging, in rats, R462  
in airway smooth muscle cells, muscarinic inhibition of, regulation of intracellular calcium by, L208  
cardiac, activity in European hamster, R304  
in rat liver, age-related alterations in, E126  
subtypes, perinatal expression of, in rat brown adipose tissue, R755

**Adhesion molecules**  
in platelet-activating factor-induced bowel injury, G184

**Adipocytes**  
acyl-CoA synthetase gene transcription, stimulation by physiological insulin and triiodothyronine, E873  
brown, trophic effects of norepinephrine, insulin, and IGF-1 in, R1287  
calcium uptake, regulation by growth hormone, in rat, C1485  
cytosolic calcium, regulation by growth hormone, in rat, C1478  
dedifferentiated, paracrine stimulation of, by mature adipocytes, E895  
lactate production by, and insulin sensitivity, C1061  
lipolysis, *see Lipolysis*  
lipoprotein lipase in, effects of insulin and isoproterenol on, C1461  
metabolism, upregulation by agouti protein, E192  
paracrine stimulation of preadipocyte-enriched cell cultures by, E895  
precursor cells, replication and differentiation, C1011  
protein kinase A activation and lipolysis in, C562

**Adipose tissue**  
*see also Fat, body*  
accumulation  
in genetically obese rats, weight cycling and, R864  
photoperiod-dependent, in Siberian hamsters, R383  
brown  
activity, inhibition during hypothalamic stimulation in rat, R605  
cold-induced metallothionein-1 expression in, R971  
heat shock protein regulation and function in, R525  
interscapular, sympathetic control of heat production in, R1215  
perinatal expression of adenyl cyclase subtypes in, in rat, R755  
uncoupling protein, E677, R111  
distribution  
in aP2-Ucp transgenic mice, E768  
in dietary obesity, transgenic mouse model of, E768  
metabolism, nicotine and, E215  
mitochondrial uncoupling protein, in aP2-Ucp transgenic mice, E768, E776

morphology, in aP2-Ucp transgenic mice, E776  
preadipocyte proliferation in, E895  
waist-to-thigh ratio of, and muscle sympathetic nerve activity, E363

**Adiposity**  
*see also Fat, body; Obesity*  
insulin action and, relationships to muscle morphology, R1332  
modification by paracrine actions of agouti protein, in yellow mouse obesity, E192  
visceral, and adipocyte lipolysis and metabolic complications in postmenopausal women, E72

**Adrenalectomy**  
effects on renal potassium conservation, E1003

**Adrenal glands**  
*see also Hypothalamic-pituitary-adrenal axis*  
adrenocortical Y-1 cells, AT<sub>1a</sub> and AT<sub>1b</sub> receptors in, properties of, E831  
and fetal lung maturation, R33  
function in cat, somatostatin and, R636  
and salt intake of calcium-deprived rat, R11

**Adrenal steroids, *see Corticosteroids***

**β-Adrenergic agonists**  
attenuation of fibroblast-mediated collagen gel contraction, L829

**β-Adrenergic blockers**  
effects on skeletal muscle fiber types in dogs with moderate heart failure, H115

**α-Adrenergic receptors**  
*α<sub>1</sub>-*  
density in cerebral arteries, inositol phosphate response to, H915  
effects of fatty acids on, and neurovascular reflex responses, R1340  
in neural control of chloride absorption in rat proximal tubule, F1049  
stimulation in cat papillary muscles, negative lusitropic effect of, H701  
in uterine artery, effects of long-term high-altitude hypoxemia on, H1001  
*α<sub>2B</sub>*, immunolocalization and regulation by potassium depletion, in rat kidney, F1015  
activation during exercise, reversal of pulmonary vasoconstriction induced by, H875  
subtypes, mediation of constriction in microvessels, H710

**β-Adrenergic receptors**  
*β<sub>1</sub>*, and ATP-sensitive potassium channels, in canine coronary circulation, H2210  
in asthmatic lung, L947  
cardiac  
subtypes in European hamster, R304  
trafficking in sepsis, R254  
and cholecystokinin secretion, G291  
in effects of epinephrine on muscle proteolysis, E961  
function in skeletal muscle, and aging, in rats, R462  
pulmonary *β<sub>2</sub>*, in modulation of airway cilia, L745  
stimulation  
in lymphatic smooth muscle of guinea pig mesentery, H1687  
potassium balance during, R1347

## SUBJECT INDEX TO VOLUME 270

**Adrenocorticotrophic hormone (corticotropin)**

plasma levels, in fetal response to acidemia, R594

**Adrenomedullin**

effects on area postrema neurons, R920  
intra-arterial administration of, renal responses to, F200  
pulmonary vasodilator response to, effects of nitric oxide synthase inhibitors, L782

**Adult respiratory distress syndrome, see Acute respiratory distress syndrome**

**Aerobic capacity, maximal**

and blood flow response to insulin, E905

**Afterdepolarizations**

delayed, recording in vivo, novel guinea pig heart model for, H1850  
early, recording in vivo, novel guinea pig heart model for, H1850

**Aging**

alteration of adenylyl cyclase-linked G proteins in rat liver during, E126  
body composition changes in, and hepatic insulin resistance, in rats, E930

and cardiovascular control by chemoreflex and baroreflex, in rats, R310  
and diurnal rhythm of corticotropin-releasing hormone gene expression, E238

and fluid and electrolyte balance during exercise, R71

and gluconeogenic capacity of liver, R365

glucose tolerance and insulin action and, E890

mouse model, noninvasive indexes of cardiac systolic and diastolic function in, H2204

and muscle  $\beta$ -adrenergic-receptor function, in rats, R462

and myocardial adenosine, in rat heart, H897

and phosphorus and  $1,25(\text{OH})_2\text{D}$  in men, E483

and relationships between lung volume and heart rate, H1825

skeletal muscle mRNA in, E224

**Agouti protein**

regulation of fatty acid synthesis and desaturation, in yellow mouse obesity, E192

**Airway**

see also Muscle, smooth

hyperresponsiveness in asthma, and autonomic receptors, L947

inflammation

see also Asthma

adenovirus-mediated, L535

in adult respiratory distress syndrome, L159

chronic infection-induced, effects of sensory denervation on, L393

grain dust-induced, in mice, endotoxin in, L1052

IL-5 and eosinophilic airway infiltration in, L368

neurogenic, L393, L404

isolated, acetylcholine in, species differences in, L722

submucosal gland secretion, bradykinin and, L907

**L-Alanine**

sodium-coupled cotransport of, in LLC-PK<sub>1</sub> cells, C49

**Albumin**

proximal tubular delivery and absorption, in nephrotic rats, F986

**Aldehyde adducts**

in rats with iron overload, vitamin E and, G376

**Aldose reductase**

osmoregulatory role in JS1 Schwann cells, F90

**Aldosterone**

binding to mineralocorticoid receptors, E601

effects on renal potassium conservation, E1003

ouabain and

and release from bovine adrenal glomerulosa cells, E27

in sheep, E386

plasma levels, and systemic nitric oxide inhibition, F845

**Alkali therapy**

and contractile function of ischemic myocardium, R955

**Alkalosis**

hypocapnic, and myocardial energetics, H1905

**Allopurinol**

effects on cyclic flow variations, in canine coronary arterial thrombosis, H1993

effects on platelet aggregation, H1993

**Altitude, high**

hypoxemia at, effects on  $\alpha_1$ -adrenergic receptors in uterine artery, in sheep, H1001

**Alveolar cells**

see also Epithelial cells, alveolar; Macrophages, alveolar

basement membrane, L3

contractile interstitial, hypoxic contraction, L962

expansion and distribution of surfactant proteins and lysozyme in, effects of hyperpnea on, L320

surface, L3

type II

ATP and surfactant synthesis, inhibition by nitric oxide, L898

chemotaxis in vitro, regulation, L311

differentiation in culture, L483

epidermal growth factor receptor network, in hyperoxia, L242

exocytosis of lamellar bodies from, annexin II in, L668

fetal, surfactant lipid secretion from, stimulation by gastrin-releasing peptide, L331

fibronectin and laminin synthesis, L215

growth on pulmonary endothelial extracellular matrix, L1017

ion transport across, L1008

lipid uptake, modulation by surfactant proteins, L69

response to coal dust, L123

structure and function, extracellular matrix and, L3

surfactant-mediated uptake of antioxidant enzymes, L659

whole cell potassium currents in, in fetal rat, L577

**Alveolar macrophages, see Macrophages, alveolar**

**Alveoli**

see also Alveolar cells; Epithelial cells, alveolar; Epithelium, alveolar

development in fetal rat lung, L619

formation

effects of postnatal retinoic acid treatment on, L305

in females, estrogen and, L110

regulation by retinoic acid, L171

**American eel**

macrovascular dopamine release in, R1244

**American Journal of Physiology: Regulatory, Integrative and Comparative Physiology (editorial), R1**

**Amino acids**

absorption, E413

compartmentation in rat kidney, F154

and effects of IGF-I on muscle protein synthesis, E60

excitatory

neuronal transport of, C67

uptake, effects of MK-801 on, C1398

gut protein-derived, utilization during exercise, E85

metabolism

in gut, E85, E413

regional, in IDDM, effects of low-protein diet on, E148

and regulation of leucine metabolism, in obesity, E273

renal response to, in fetal sheep, R1226

splanchnic metabolism, during starvation, G298

transport

$\gamma$ -actin and, C1647

sodium-coupled, in LLC-PK<sub>1</sub> cells, C49

system A for, osmoregulation in MDCK cells, F419

and volume regulation in rat brain glial cells, C1319

**$\gamma$ -Aminobutyric acid**

in sympathetic circuits in spinal cord, and baroreceptor reflex, H1885

**$\gamma$ -Aminobutyric acid GABA<sub>A</sub> receptors**

allosteric modulation in neurons of rat

suprachiasmatic nucleus, C1726

long-term effect on intracellular calcium in lactotrophs, E793

**Aminoguanidine**

effects on bone formation in rats, E840

**p-Aminohippurate**

transport by brush-border membranes, F61

**$\alpha$ -Amino-3-hydroxy-5-methylisoxazole-4-propionic acid**

and c-fos expression after lower urinary tract irritation, in rat, R990

**3-Aminotriazole**

effect on hyperthermia-mediated cardioprotection in rabbits, H1165

**Ammonia**

plasma levels, with portacaval shunting, E1037

production in metabolic acidosis, C920

uptake in inactive muscles, during exercise, E101

SUBJECT INDEX TO VOLUME 270

- Ammonium**  
secretion, regulation of, F432  
transport, F691
- AMPA, see  $\alpha$ -Amino-3-hydroxy-5-methylisoxazole-4-propionic acid**
- AMP-activated protein kinase**  
activation in muscle during exercise, E299
- Amphotericin B**  
effects on Na-K ATPase expression in porcine lens epithelium, C465
- Amylin**  
in renal physiology, F289
- Anabolism**  
in surgically stressed rats treated with GH and IGF-I, E968
- Anal sphincter**  
internal, nitric oxide release from myenteric neurons in, G492
- Anaphylaxis**  
intestinal, in response to cow's milk proteins, during experimental malnutrition, G442
- Anapyrexis**  
hypoxia-induced, R169
- Androgens**  
regulation of renal oatp expression, F332  
skeletal effects in female rats, E407
- Anemia**  
cerebral blood flow in, H466  
erythropoietin therapy for, in uremia, effects on insulin, F839
- Anesthesia**  
pentobarbital, cardiovascular fluctuations during, H575
- Anesthetics**  
vapor, and rapid cooling contracture in skinned myocardium, H1662
- Angiogenesis**  
cardiac  
fetal, H33  
vascular endothelial growth factor in, H1791, H1803  
in embryonic kidney, F890  
pulmonary, endothelial nitric oxide synthase immunoreactivity during, L88  
shear stress and, H364  
vascular endothelial growth factor in, nitric oxide and, H411
- Angiotensin**  
ANG-(1-7), renal actions of, F141
- Angiotensin-converting enzyme**  
monoclonal antibody to, internalization by endothelial cells, L704  
substrate conformation, effects on fractional hydrolysis in lung, L251
- Angiotensin-converting enzyme inhibitors**  
and albuminuria, in nephrotic rats, F986  
antihypertensive actions, mechanism of, R728  
effect on skeletal muscle fiber types in dogs with moderate heart failure, H115  
effect on sodium-potassium ATPase distribution along rat nephron, after subtotal nephrectomy, F997  
hemodynamic effects in heart failure, bradykinin pathway in, H1985
- structural and functional effects in injured arteries, nitric oxide synthesis and, H299
- Angiotensin I**  
ANG I-(3-10), responses to, in hind limb vascular bed of cat, H1172
- Angiotensin II**  
activation of phospholipase C- $\gamma$  and chloride channels, in mesangial cells, C1834  
in blood pressure response to stress, in spontaneously hypertensive rats, R1265  
calcium oscillations induced by, in myocytes from rat pulmonary artery, L637  
and cardiomyocyte contraction, H2060  
central pressor action of, centrally released vasopressin and, H167  
cerebral, effects on sympathetic excitatory and pressor responses to sodium and ouabain, in brain, H275  
circulating, effects on neurons of nucleus of solitary tract, R675  
effects on cardiac fibroblasts, comparison with effects of other growth factors, H2100  
effects on prostacyclin and nitric oxide production in pregnancy, H1914  
endogenous, inhibition of natriuresis after acute volume expansion in neonatal rat, R393  
and gastric sodium monitor, F406  
infusion, effects on renin-angiotensin system, E810  
inhibition of nitric oxide, and atrial natriuretic factor secretion in isolated rat heart, H306  
intracerebroventricular, effects on 5-HT-induced vasopressin secretion, E513  
modulation of calcium transients in cardiomyocytes, H857  
and neural control of chloride absorption in rat proximal tubule, F1049  
ouabain and  
in aldosterone release from bovine adrenal glomerulosa cells, E27  
in sheep, E386  
plasma levels, and systemic nitric oxide inhibition, F845  
renal arteriolar response to, effects of DIDS on, F718  
renal effects  
calcium signaling pathways in, F398  
in spontaneously hypertensive rats, F229, F749  
and structural and functional adaptation to uninephrectomy, F776  
renal vasoconstriction due to, attenuation by nitric oxide, R630  
and salt appetite in rats  
with intracerebroventricular infusion, R162  
with intravenous infusion, R1092  
stimulation of sodium-dependent proton extrusion in heart, C1687  
vascular reactivity to, exercise training and, H2008
- Angiotensin II receptors**  
 $AT_1$   
activation in pulmonary vasculature, L637  
in cardiac fibroblasts, H2100
- and exaggerated tubuloglomerular feedback activity, in spontaneously hypertensive rats, F749  
paraventricular, in salt-sensitive hypertension in mRen-2 transgenic rats, R1178
- $AT_{1a}$  and  $AT_{1b}$ , in adrenocortical Y-1 cells, properties of, E831  
in rat rostral ventrolateral medulla, blockade, effects on excitatory vasomotor tone, R1317  
renal, regulation of, E810
- Angiotensinogen**  
expression, regulation by dietary salt, F1027
- Anguilla anguilla, see European eel**
- Anguilla rostrata, see American eel**
- 2,5-Anhydro-D-mannitol**  
effects on metabolism and ingestion, comparison with effects of food deprivation, R1250
- Anion channels**  
in corneal endothelium, C975  
glycine-sensitive, and hepatic reperfusion, G332  
volume-sensitive, C1029, C1300  
cellular and molecular physiology of, C711  
in skate hepatocytes, C57
- Anion transport**  
in inner medullary collecting duct cells, effects of cAMP on, F131
- Annexins**  
I, IV, and VI, cellular and subcellular localizations, in lung epithelia, L863
- II  
in exocytosis of lamellar bodies from alveolar epithelial type II cells, L668  
inhibition of G protein-regulated phospholipase C, F682
- VI, overexpression in heart, and cardiomyocyte function, in transgenic mice, H1091
- Anorexia**  
cytokine-induced, R1394
- Anoxia**  
calpain activity in hepatocytes during, G238  
effects on glutamate transport and metabolism in cardiomyocytes, H1825  
hepatocyte injury during, effects of pyruvate on, G535  
and membrane-metabolic coupling in hepatocytes, R614
- Ansae subclaviae**  
stimulation, and heart rate, H2081
- Antiarrhythmic drugs**  
mechanism of action, H2157
- Antibody**  
*see also Monoclonal antibodies*  
effects on renal hemodynamics, F179
- Antidiuretic hormone**  
stimulation of water and sodium transport, role of nitric oxide in, F206
- Antioxidants**  
effects on hepatic peroxidation products, G376  
effects on vascular injury caused by oxygen-derived free radicals, H2184  
enzymes as, L790  
expression in rat lung during hyperoxia, L810  
surfactant-mediated uptake of, L659

## SUBJECT INDEX TO VOLUME 270

- glutathione peroxidase as, in lung, L173  
nordihydroguaiaretic acid as, in lung, L266
- Antithrombin III**  
attenuation of endotoxin-induced pulmonary vascular injury, L921
- Aorta**  
baroreceptor reflex, central arc, transfer function analysis of, H1054  
development, opioids and, R22  
distensibility and compliance, assessment technique, in rats, H780  
endothelial injury *in vivo*, H1841  
glyceraldehyde-3-phosphate dehydrogenase expression in, oxidative stress and, in rabbit, H81  
neonatal rat, opioid growth factor-dependent DNA synthesis in, R22  
sodium pump activity, differential stimulation by insulin and nitric oxide, in rabbit, H1278  
systolic and diastolic pressure, determinants of, H2050  
transverse residual strains in, direct measurement of, H750
- Apolipoprotein**  
A-I, gene expression, enterocytic, in intestinal adaptation, G143  
A-IV  
and gastric emptying, G49  
gene expression, enterocytic, in intestinal adaptation, G143  
synthesis in proximal jejunum, G277
- B**  
secretion by Caco-2 cells, regulation by cytokines, G94  
turnover study, using stable isotope-labeled amino acids, E1022  
synthesis and transport, by developing human fetal colon, G813
- Apoptosis**  
cell volume loss in, C1190  
cisplatin-induced, in renal tubular cells, F700  
hepatoma cell, c-myc-induced, G60  
in mesangial cells, mannose receptors and, C1595  
in removal of intercalated cells during renal development, F575  
of renal proximal tubular cells, F-actin and, F593  
TNF-induced, in renal epithelial cells, tissue remodeling during, F869
- Approximate entropy**  
applications for biomedical studies, E107
- Aquaporin**  
in alveolar and distal airway epithelia, L487  
amphibian, C372  
aquaporin-1, in lung endothelium, and water transport, H416  
aquaporin-2  
downregulation with bilateral ureteral obstruction, F657  
gene promoter, C1695  
recycling of, F548  
mammalian, C12  
toad urinary bladder, cloning of, C372
- Arachidonic acid**  
effects on ATP-sensitive potassium channels of coronary smooth muscle cells, H1957  
endothelium-derived metabolite of, vasorelaxant effect, H1021
- metabolism, and acute lung injury, H1355  
metabolites, formation in rat kidney, stereospecific effects of epoxyeicosatrienoic acids on, F822  
release  
from bovine tracheal epithelial cells, tannin-stimulated, L613  
in vascular smooth muscle cells, C1642
- Arginine**  
renal handling of, F154

muscarinic potassium channels, regulation by cytosolic protein, H526
- Atrial natriuretic factor/Atrial natriuretic peptide**  
bioactivity in sheep, comparison with brain and C-type natriuretic peptides, R1324  
cerebral, after myocardial infarction, in rat, H312  
effects on cGMP release by collecting duct cells and SV40, C1051  
effects on renal tubular sodium reabsorption, F283  
endogenous, inhibition of endothelin-1, H1819  
in forearm vasodilation during mental stress, E393  
plasma levels, and systemic nitric oxide inhibition, F845  
and postprandial natriuresis, F301  
regulation of mesangial contraction, mechanisms of, C1773  
release, neuropeptide-induced, in neonatal rat ventricular cardiomyocytes, H395  
renal actions of, in pregnancy, R1132  
response to acute and chronic ventricular pacing in sheep, H594  
secretion in isolated rat heart, nitric oxide inhibition and, H306  
signaling, inhibition by mesangial cell thromboxane A<sub>2</sub> receptors, F31

## SUBJECT INDEX TO VOLUME 270

**Atrial natriuretic peptide receptors**  
in astroglial cultures, modulation by protein kinase C, C740  
B-type, F440  
C-type, expression in mesangial cells, effects of dexamethasone on, F440

**Atrioventricular node**  
conduction and triggered activity, studied in vivo, novel guinea pig heart model for, H1850  
transient responses, effects of heart rate history on, H2070

**Autonomic nervous system**  
cardiac activity, psychosocial influences upon, H1381  
control of spleen, in red-blooded Antarctic fish, R599  
function  
in cat, somatostatin and, R636  
in obesity-induced hypertension, R541  
in mediation of heart rate variability, H1825, H2081  
regulation of blood pressure variability, in rats, H2143  
ultradian rhythmicity, in humans, R873

**Autoregressive moving average analysis**  
for characterizing baroreflex gain, H1240

**Autoregulation**  
in vertebrobasilar system, H1350

**Autoregulation, renal**  
*see also* Tubuloglomerular feedback  
endothelial calcium in afferent arterioles and, F170  
mechanisms of, F82  
medullary, F833

**B**

**Bacteremia**  
gram-negative, effects on TNF- $\alpha$  gene expression, R289

**Band 3**  
and plasticity in epithelial polarity of renal intercalated cells, C1571

**Baroreceptor reflexes**  
alterations, in aging rat, R310  
aortic, central arc, transfer function analysis of, H1054  
arterial, afferent signals in hemodynamic response to hypovolemia, H1538  
cardiopulmonary, in regulation of blood pressure and heart rate during exercise, H2132  
carotid  
arterial compliance and, H988  
in hemodynamic responses to acute central hypovolemia, H1538  
in regulation of blood pressure and heart rate during exercise, H2132  
central pathways, role of commissural nucleus of solitary tract in, R1220  
control of arterial pressure, mathematical model of, H651  
control of heart rate and renal nerve activity, nitric oxide and, in conscious rabbits, R1361  
gain, characterization using autoregressive moving average analysis, H1240  
heart rate gain, after exercise, R420

inhibition of lumbar sympathetic nerve activity, vasopressin and, H1963  
modification of sympathetic vasomotor activity by, GABA and, H1885  
regulation of blood pressure and heart rate during exercise, H2132  
resetting, converting enzyme inhibitors and, R728

**vagal bradycardia, inhibition via central mechanism, in rat, R373**

**Barrier function, *see* Permeability**

**Basement membrane proteins**  
BM180, role in stimulus-secretion coupling by lacrimal acinar cells, C1743

**BAY K 8644**  
effects on cardiac excitation-contraction coupling, C878

**Bed rest**  
effects on protein synthesis, E627

**Benzoyl-phenylalanyl-glycyl-proline**  
hydrolysis kinetics, in lung, L251

**Betaine**  
effects on glycerophosphocholine degradation, C200

**Betaine transporter**  
cDNA cloning and effect of osmolytes on mRNA induction, C650

**Betamethasone**  
antenatal therapy with, and preterm coronary arterial vasoreactivity, H538

**Bicarbonate ion**  
*see also* Sodium-bicarbonate co-transport  
absorption, F691  
inhibition by AVP, reversal by PGE<sub>2</sub>, by activation of PKC, F978  
regulation by PGE<sub>2</sub> and G proteins, F711  
biliary excretion, stimulation by cGMP, G418  
extracellular, effects on recovery from intracellular NMDA-induced acidification, C593  
mitochondrial, effects on pyruvate decarboxylation, C98  
secretion  
in distal airway, L289  
duodenogastric motility and, G113  
pancreatic, inhibition by insulin, G163  
transport, in inner medullary collecting duct cells, F131

**Bile**  
adenosine nucleotides in, G246  
formation, bile acid-independent, stimulation by cGMP, G418  
secretion, in rats with indomethacin-induced intestinal inflammation, G804

**Bile acids**  
choleretic, and directional transport of bilirubin into bile, G1028  
effects on cholesterol 7 $\alpha$ -hydroxylase expression, G401, G646  
effects on sterol 27-hydroxylase expression, G646  
in rat model of intestinal inflammation induced by indomethacin, G804  
secretion, by skate hepatocytes, G887  
uptake into hepatocytes, cAMP stimulation of, G339

**Bile duct**  
epithelium, physiological studies, G1

**Biliary tract**  
postprandial secretory response in humans, G844

**Bilirubin**  
excretion into bile, taurocholate and, G1028

**Bioenergetics**  
of mitochondria isolated from type I and type IIb skeletal muscle, C673

**Bladder, urinary**  
of Atlantic cod, nitric oxide in, R1380  
immortalized cell lines from, sodium absorption in, F148  
progesterone-regulated water channels, in *Bufo arenarum*, F880

**Blood-brain barrier**  
endothelial cells in, receptor-mediated transcytosis of transferrin through, H1149  
in rats, after myocardial infarction, H312

**Blood flow**  
*see also* Hemodynamics; Shear stress  
brain stem, during hemorrhagic hypotension, H1350  
cerebellar, and neuronal nitric oxide production, R914  
cerebral, *see* Cerebral blood flow  
chronic increases in, upregulation of endothelin receptors in arterial smooth muscle by, H65  
collateral, and coronary hemodynamics during brief coronary occlusions, in horses, H1893  
coronary  
in nitric oxide-inhibited dogs, adenosine in regulation of, H423  
in sleep, in swine, H723  
effects on brown fat temperature, during hypothalamic stimulation in rat, R605  
microvascular, in rat skeletal muscle, H1696  
myocardial  
after coronary artery occlusion, species differences in, H1312  
changes at birth, in lambs, H741  
and infarct size, in conscious baboons, pigs, and dogs, H1812  
microheterogeneity of, in normoxic and hypoxic states, H435  
regional, and nitric oxide inhibition, during ovine bacteremia, R207  
skeletal muscle, insulin and, H2120  
skin, during exercise, effects of cooling on, H208  
uterine, prolonged reduction, effect on fetal growth in sheep, R246

**Blood pressure**  
*see also* Hemodynamics; Hypertension; Hypotension; Shock  
autonomic control of, in obese hypertensive dogs, R541  
challenges, in goats, imaging ventral medullary surface activity in, R182  
circadian rhythm, in persistent vegetative state, R1109  
effects of systemic nitric oxide inhibition on, F845  
insulin and, in rats, R450

## SUBJECT INDEX TO VOLUME 270

locally altered, arterial remodeling in response to, indicial functions of, H1323  
 ouabain and, in sheep, E386  
 pulse wave, and derived respiration, H1672  
 regulation  
     after exercise, R420  
     during exercise, baroreceptor reflexes in, H2132  
     in hypovolemia, R356  
     neural, in rats, R713  
     rostral ventrolateral medulla in, in rats, R1317  
 response to gravitational changes during exercise, H2132  
 response to stress, angiotensin and adrenergic interactions during, in spontaneously hypertensive rat, R1265  
 spontaneous fluctuations, and renal blood flow dynamics, F82  
 variability, autonomic control of, in rats, H2143

**Blood volume**  
 changes, effects on arterial impedance in chick embryo, H1597  
 exercise and, R3  
 in older subjects, R71  
 expansion, during maturation in lambs, H1718  
 restitution after hemorrhage, model of, R1163

**Body composition**  
 after lateral hypothalamic lesions in rats, R738  
 age-related changes in, and hepatic insulin resistance, in rats, E930  
 assessment of, R496  
 sex differences in, catecholamines and, E259

**Body fat, see Adipose tissue; Fat, body**

**Body mass**  
 of molting gray seals, R1051  
 photoperiod-dependent changes, in Siberian hamsters, R383  
 regulation in voles, R1013

**Body temperature, see Temperature, body**

**Body weight**  
 after lateral hypothalamic lesions in rats, R738  
 changes, body energy and body water changes and, in rats, R1099  
 control, lateral hypothalamic NMDA receptors and glutamate as mediators of, R443  
 cycling, in obese spontaneously hypertensive rats, R864  
 regulation, nonabsorbable fat and, R1386

**Bone**  
*see also Osteoblasts; Osteoclasts*  
 cortical, growth, effects of growth hormone on, E51  
 fetal development, IGF-I and, R1148  
 formation  
     immediate early gene response in, E937  
     mechanical stimulation of, E419, E937, E955  
     nitric oxide and, E634, E840, E955  
     in rat tibiae, after dynamic loading in vivo, E419

stimulated by ovarian hormones in female rats, androgens and, E407

**Bone density**  
 associations with lean mass and muscle strength, genetic factors and, E320

**Bradycardia**  
 in aging rat heart, H897  
 vagal, periaqueductal gray inhibition of, in rats, R373

**Bradykinin**  
 activation of c-sra and FAK, C1430  
 effects on lymphatic pumping in rat mesentery, G752  
 in hemodynamic effects of ACE inhibition in heart failure, H1985  
 and nitric oxide release in rat skeletal muscle capillaries, H1696  
 plasma levels, changes evoked by food intake or insulin administration, H1071  
 regulation of airway submucosal gland secretion, L907

**Bradykinin receptors**  
 $B_1$ , and lymphatic pumping in rat mesentery, G752  
 $B_2$ , renal  
     cellular localization of, F919  
     developmental expression of, salt loading and, F425  
     subtypes, in regulation of airway submucosal gland secretion, L907

**Brain**  
*see also Cerebral blood flow; Nucleus of solitary tract*  
 anteroventral third ventricle, modulation of vasopressin release into hypothalamic nuclei, E787  
 astroglia, atrial natriuretic peptide receptors, modulation by protein kinase C, C740  
 atrial natriuretic peptide, changes after myocardial infarction, in rat, H312  
 $c-fos$  expression in, after abdominal surgery, R888  
 endotoxin-induced activation of nitric oxide synthase in, cytokines and, R326  
 glucose metabolism, regulation of, E746  
 injury, and vasopressin-induced vasodilation in pial artery, H1272  
 iron transport to, H1149  
 ketone body metabolism, E746  
 natriuretic peptide, *see Natriuretic peptide, brain*  
 physiological activation, regional cerebral blood flow response to, in hypoglycemia, H554  
 pial arterioles  
     dilation, calcitonin gene-related peptide receptors and, H317  
     shear and flow rates in, during somatosensory stimulation, H1712  
 pial artery vasodilation  
     ATP-sensitive potassium channels in, H423  
     nitric oxide and opioids in, relationship between, H869  
     vasopressin-induced, effect of brain injury on, H1272  
 rat  
     area postrema neurons, paraventricular nucleus inputs to, R342  
     capillary perfusion heterogeneity, during hypocapnia, H1441

IL-6 secretion from, intracerebroventricular injection of IL-1 $\beta$  and, R518  
 lateral hypothalamic lesions, body protein levels and, R738  
 medullary sympathoexcitatory neurons, inhibition by activation of medial prefrontal cortex, R713  
 medullary vasomotor activity, in pentobarbital anesthesia, R348  
 microvascular endothelial cells, ATP-activated cation channels in, physiological properties of, H1423  
 parabrachial nucleus, glutamatergic input to, H1557  
 periaqueductal gray, inhibition of vagal bradycardia, R373  
 suprachiasmatic nucleus as circadian pacemaker, R283  
 $GABA_A$  receptors, allosteric modulation, C1726  
 supraoptic nucleus, vasopressin release into, neural input and, E787  
 sympathoexcitatory and pressor responses to sodium and ouabain, cerebral angiotensin II and, H275  
 ventral medullary surface area, pressor elicited activity changes, in goat, R182  
 vertebrobasilar system, autoregulation in, H1350

**Brain stem**  
 blood flow, during hemorrhagic hypotension, H1350

**Breathing**  
*see also Respiration*  
 episodic, in bullfrogs, control of, R134

**Brefeldin A**  
 inhibition of epithelial sodium channels, C138

**BRL-52656**  
 effects on osmotically induced vasopressin release, E367

**Bromosulfophthalein**  
 transport, oapt-mediated, in mammalian cells, F319

**Bronchodilation**  
 with magnesium sulfate, mechanisms of, L469

**Brown fat, see Adipose tissue, brown**

**Brush-border membranes, see Membranes, brush-border**

**Bufo, see Toad**

**Bullfrog**  
 episodic breathing in, control of, R134

**Bumetanide**  
 effects on myocardial Na and Ca during myocardial ischemia-reperfusion, C608

**Byssinosis**  
 pathophysiology, L613

**C**

**Cadherin**  
 in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869

**Caffeine**  
 cytosolic calcium response to, in osteoclasts, F469  
 effects on chloride and potassium conductances in bronchial smooth muscle, L772  
 renal effects of, F263

## SUBJECT INDEX TO VOLUME 270

- Caffeine (continued)**  
 response to, in rat hepatocytes, C508
- Calbindin D<sub>28k</sub>**  
 mRNA, and vitamin D receptor mRNA, RT-PCR microlocalization in murine nephron, F677
- Calcitonin gene-related peptide**  
 in cholecystokinin-evoked gastric hyperemia, G253  
 in postoperative gastric ileus, R556  
 in rat cirrhosis model, G71  
 in rat colitis model, G79  
 sensory neurons containing, in intestinal peristalsis, G778
- Calcitonin gene-related peptide receptors**  
 in dilation of rat pial arterioles, H317
- Calcium, dietary**  
 deficiency, and salt intake in rat, R11
- Calcium ATPase**  
 in regulation of intracellular calcium, in vascular endothelial cells, H2038  
 sarcoplasmic reticulum  
 expression, effect of thyroid hormone on, H638  
 in hypertrophied hearts, H2021  
 inhibition, and skeletal muscle relaxation, C401, C411  
 in rapid cooling contracture in skinned myocardium, H1662  
 zinc uptake and, in gills of rainbow trout, R1141
- Calcium balance**  
 and salt intake, in rats, R505
- Calcium channels**  
 activity in vascular smooth muscle, effects of plasma from ischemic hind limb of rat, H1485  
 in cardiomyocytes, effects of sphingosine on, C645  
 in colonic smooth muscle, tyrosine kinase-dependent modulation of, C1780
- L-type  
 blockade by calphostin C, C1293  
 calcium transients in embryonic chick heart and, H518  
 cardiac, inhibition by 1,2-dioctanoyl-sn-glycerol, C655  
 cardiac, phorbol ester effects on, H620  
 in cardiomyocytes, H1178  
 and cholecystokinin secretion, G287  
 in gastric fundus, G897  
 in hypotonic swelling-induced intracellular calcium increase, C1790  
 in pancreatic  $\beta$ -cells, in NIDDM, E133  
 in rat adipocytes, regulation by growth hormone, C1478  
 $\alpha_2\delta$ -subunit, effect on ionic and gating current in HEK 293 cells, H1521  
 role in protein tyrosine kinase activation by endothelin-1, F790  
 sarcolemma, in rat ventricular myocytes, effects of magnesium on, H907  
 sarcoplasmic reticulum, effects of BAY K 8644 on, C878  
 skeletal muscle, weight-bearing condition and, C1588  
 in smooth muscle of rat vas deferens, C1461, C1468
- T-type  
 calcium transients in embryonic chick heart and, H518  
 and cholecystokinin secretion, G287  
 voltage-dependent, effects of magnesium sulfate on, L469
- Calcium currents, see Calcium channels**
- Calcium intake**  
 and endothelial function, H1250
- Calcium ions**

 uptake, in rat adipocytes, regulation by growth hormone, C1485  
 waves, in cardiomyocytes  
     effects of ATP-sensitive potassium channel opener on, H1384

## SUBJECT INDEX TO VOLUME 270

effects of magnesium on, in rat ventricle, H907

### **Calcium oxalate monohydrate crystals**

adhesion to anionic sites on renal epithelial cell surface, F192

urine concentrations of, F604

### **Calcium phosphate**

supersaturation of loop of Henle, F604

### **Calcium receptor**

osteoclast, F469

regulation by vitamin D, F454

### **Calcium transients**

in embryonic chick heart, H518

in neonatal and adult cardiomyocytes, modulation by angiotensin II and endothelin-1, H857

in rat ventricular myocytes, effects of magnesium on, H907

### **Calpain**

calpain II, in regulation of cytoskeletal architecture in airway epithelial cells, L526

regulation during anoxia, G238

### **Calphostin C**

blockade of L-type calcium channels, C1293

### **Calponin**

effects on force generation by single smooth muscle cells, H1858

effects on smooth muscle contractility, C481

### **Calyculin A**

permeability characteristics of erythrocyte membrane to, C449

stimulation of acid secretion in isolated gastric glands, G103

### **Capillaries**

*see also Microvasculature*

lymphatic

flow velocity in, H358

microscopic flow velocity in, H330

transport in, macroscopic measurement of, H324

rat skeletal muscle, nitric oxide release in, H1696

### **Capillary filtration**

enhancement, induced by platelet-activating factor, mechanisms, H127

### **Capsaicin**

neural circuits sensitive to, in guinea pig ileal arterioles, G948

and postigestive reinforcing actions of intestinal nutrients, R1059

rats treated with

for colitis model, G79

pancreatic secretion stimulated by cholecystokinin in, G881

sensory denervation by, exacerbation of *Mycoplasma pulmonis* infection by, L393

### **Capsaicin receptors**

in rat trigeminal ganglion neurons, C1807

### **Carassius auratus, see Goldfish**

### **Carbohydrates, dietary**

intake in restricted and nonrestricted rats, naloxone and, R1183

overeating of, in rats, taste and, R1197

### **Carbon dioxide**

permeability, in brush border model, F344

### **Carbonic anhydrase II**

in immortalized pancreatic ductal cells, G676

### **Cardiac cycle**

analysis, thermodynamic, H730

in elasmobranchs, H1766

### **Cardiac hypertrophy**

comparative cardioprotective effects of cromakalim and diltiazem in, H174

contractile function and regulatory cardiac proteins in, relation between, H2021

fibroblast changes associated with, angiotensin II and, H2100

renin-angiotensin system in, H2177

### **Cardiac output**

*see also Hemodynamics*

in early pregnancy, in rats, H1779

in sleep, in swine, H723

in *Xenopus laevis* tadpoles, R997

### **Cardiomyocytes**

atrial, transmembrane chloride currents in, C500

calcium-loaded depolarized, response to critically timed premature stimulations, H447

calcium sparks and waves in, C148

calcium waves in, H907, H1384

chick embryo, SERCA 2 expression in, effect of thyroid hormone on, H638

contracting, spatial characterization of, H769

cultured human atrial, ion channels in, H1676

death during energy depletion, effect of external pH on, H2149

desmin gene expression in, C1228

embryonic, energy utilization and supply during hypoxia, L44

excitation-contraction coupling, depression by BAY K 8644, C878

function in transgenic mice with annexin VI overexpression in heart, H1091

glucose transport in

effects of catecholamines on, C1204

intracellular signals and, C1211

glutamate transport and metabolism, during oxygenation, anoxia, and reoxygenation, H1825

isolated

anisosmotic stress in, H1414

contraction, angiotensin II and, H2060

mechanical measurements from, using pipette attachment system, C697

neonatal and adult, calcium transients in, modulation by angiotensin II

and endothelin-1, H857

nitric oxide production, regulation, H1864

protein turnover and myofibrillar structure, C1075

relaxation, effects of temperature and calcium transport mechanisms on, H1772

reperfusion injury in, after simulated ischemia, H1334

response to vasoactive peptides, and

cardiac development, H857

single, monocarboxylate transport into, H476

sodium and calcium currents, effects of sphingosine on, C645

steady-state calcium fluxes and buffering in, C192

stretch hypertrophy in vitro, C1284

subcellular distribution of sodium pump isoform subunits in, C1221

thin filament activation in, myosin-induced, pH and, H1008

TNF- $\alpha$ -induced expression of HSP 72 in, in cats, H1231

ventricular

calcium waves and calcium transients, effects of magnesium on, in rat heart, H907

characterization of stimulatory adenosine A<sub>2a</sub> receptor in, H1655

contractility, CGP-48506 and, H24

delayed rectifier potassium currents, in fetal mouse, H2088

negative inotropic effect of cocaine on, H678

neurokinin-induced atrial natriuretic peptide release, in neonatal rat, H935

protein phosphatase inhibitor-1 in, H1159

from streptozocin diabetic rats, altered calcium handling in, H1529

### **Cardiomyopathy**

desmin gene expression and, C1228

### **Cardioprotection**

*see also Ischemic preconditioning*

by anti-CD18 antibodies, factors affecting in, dogs, H53

by cromakalim, in ischemic hypertrophied rat hearts, H174

by diltiazem, in ischemic hypertrophied rat hearts, H174

ecto-5'-nucleotidase activity in, H238,

H1493, H1744

by endogenous adenosine, H1493

hyperthermia-mediated, in rabbits, H1165

mediated by ATP-sensitive potassium channels, activation of 5'-nucleotidase in, H1744

in myocardial ischemia/reperfusion

acidic reperfusion in, H957

in baboons, pigs, and dogs, H1812

glutamate in, H1825

metabolic interventions for, H1607

nonanticoagulant heparin in, after hemorrhagic shock, H1294

by recombinant serpin LEX-032, H881

by sodium/hydrogen exchanger inhibitors, extracellular buffer composition and, H692

### **Cardiovascular reflexes**

afferent input summation in, H849

### **Cardiovascular system**

development in chick embryo, H1597

function

after hemorrhagic shock, beneficial effects of nonanticoagulant heparin on, H1294

short-term control of, H651

neonatal, response to blood volume expansion, during maturation in lambs, H1718

neural control, in aging rats, R310

regulation, in genetically obese rats, weight cycling and, R864

response to hypohydration and heat stress, in rats, R652

sympathetic outflow, IL-1 $\beta$  and, R479

ultradian rhythmicity, in humans, R873

### **Carotid artery**

baroreceptor reflexes

arterial compliance and, H988

## SUBJECT INDEX TO VOLUME 270

- Carotid artery (continued)**
- in hemodynamic responses to acute central hypovolemia, H1538
  - in regulation of blood pressure and heart rate during exercise, H2132
  - chemoreflexes, and nucleus of solitary tract neurons projecting through rostral ventrolateral medulla, R1273
- Catalase**
- intracellular activity, and hyperthermia-mediated cardioprotection, H1165
  - in intramural nerves of opossum esophagus, G136
  - mRNA-binding domain, and dinucleotide-binding site of bovine liver catalase, homology, L790
  - surfactant-mediated uptake of, by type II cells and lung tissue, L659
- Catecholaminergic neurons**
- in 10-Hz rhythm in sympathetic nervous system discharge, R333
- Catecholamines**
- in blood pressure response to stress, in spontaneously hypertensive rat, R1265
  - cardiovascular, R1244
  - effects on glucose transport in cardiomyocytes, C1204
  - and ischemic preconditioning in rabbit heart, H1078
  - plasma levels
    - effects of cocaine and exercise on, E438
  - increase at birth, in lambs, H668
  - regional lipolytic responses to, E259
  - response during insulin-induced hypoglycemia, IGF-I and, E545
  - secretion, regional hepatic hypoglycemia and, R1307
- Catenin**
- in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869
- Cation channels**
- ATP-activated, physiological properties in rat brain microvascular endothelial cells, H1423
  - in corneal endothelium, C975
  - nonselective
    - GHRH-activated, in human GH-secreting adenoma cells, E1050
    - toxin-induced opening of, in mouse L cells, C1145
- Cations**
- organic, renal basolateral transport, in snake, R1025
- Celiac disease**
- measurement of jejunal unstirred layer in, G487
- Cell adhesion molecules**
- smoking-induced, and transendothelial migration of monocytes, H1624
- Cell-cell interactions**
- in intravascular inflammation, L28
- Cell cycle**
- arrest in G<sub>0</sub>/G<sub>1</sub> phase, in mink Mv1Lu lung epithelial cells, by contact inhibition and TGF- $\beta$ 1, L879
  - arrest in G<sub>2</sub> phase, by phorbol ester and diacylglycerol, C170
- Cell death, see Apoptosis**
- cisplatin-induced, in renal tubular cells, F700
- nonapoptotic, in removal of intercalated cells during renal development, F575
- Cell differentiation**
- airway epithelial cell, L1017
  - alveolar type II, in culture, L483
  - during lung development, LAR-PTP2 and, L566
  - retinoid-induced, eicosanoid production during, L854
  - airway mucous cell, mucin gene expression during, L846
  - of human adipocyte precursor cells, C1011
  - ovarian granulosa cell, C812
  - in renal proximal tubule, regulation by phorbol ester, C332
- Cell growth**
- abnormalities, CFTR overexpression and, C341
  - mechanical stimulation of, in vitro, C1284
  - NH<sub>4</sub>Cl-induced, in renal epithelial cells, C932
- Cell migration**
- see also Chemotaxis
  - alveolar epithelial cell, in vitro, L311
  - mitogenic effect of nitric oxide in, C794
  - polymorphonuclear cell, after intraperitoneal and intratracheal endotoxin administration, L836
- Cell organelles**
- biogenesis of, C1263
- Cell polarity**
- see also Epithelial polarity
  - of dissociated renal proximal tubule cells, maintenance of, in suspension, C1843
  - structural and functional, preservation of, in isolated epithelial cells, C1864
- Cell proliferation**
- of human adipocyte precursor cells, C1011
  - in human astrocytoma, ion channels and, C1511
  - in vascular smooth muscle, lipids and, C1642
- Cell volume**
- abnormalities, chloride channel activity level and, C341
  - loss, in apoptosis, C1190
  - regulation
    - see also Osmoregulation; Regulatory volume decrease
    - of atrial myocytes, C500
    - in BXD-31 mouse erythrocytes, C866
    - in cultured neurons, chloride efflux and taurine in, C1703
    - doxorubicin selection for MDR1/P-glycoprotein and, C1029
    - of erythrocytes, C898
    - in hypotonicity, MDR1 expression and, C1453
    - mechanism of swelling activation of potassium-chloride cotransport and, C1122
    - P-glycoprotein expression and, C1370
    - potassium transport pathways in articular chondrocytes and, C1300
    - in rat brain glial cells, C1319
    - in skate hepatocytes, C57
    - stretch-activated ion channels and, C1790
- cisplatin-induced, in vascular smooth muscle, C1388
- volume-sensitive anion channels and, C711
- Central nervous system**
- and gastric emptying, G49
- Ceramide**
- effects on sphingolipid-regulated proliferation of renal cells, F476
- Cerebellum**
- parallel fiber stimulation, vasodilation elicited by, and neuronal nitric oxide production, R914
- Cerebral arteries, contraction**
- cold-stimulated, mechanism of, in newborn lamb, H645
  - norepinephrine-induced,  $\alpha_1$ -adrenoceptor-inositol phosphate coupling in, H915
- Cerebral blood flow**
- see also Cerebral arteries; Cerebral circulation
  - in anemia, H466
  - during hemorrhagic hypotension, H1350
  - in hyperketonemia, E746
  - during hypocapnia, in rats, H1441
  - hypoxic, regulation in rat, potassium in, H45
  - regional
    - response to brain activation, in hypoglycemia, H54
    - response to vibrissal stimulation in type I nitric oxide synthase knockout mice, H1085
    - during sleep/wake state transitions in rats, continuous recordings of, R855
  - regulation, H915
  - during somatosensory stimulation, H1712
- Cerebral circulation, vasodilation in**
- cGMP-mediated, ATP-sensitive potassium channels in, H423
  - vasopressin-induced, effect of brain injury on, H1272
- Cerebral ischemia**
- and N-methyl-D-aspartate responses, H1225
- Cerebral microcirculation**
- disturbance during hypocapnia, in rats, H1441
  - endothelium-dependent dilation, laser-dye impairment of, singlet oxygen and, H1258
  - responses to N-methyl-D-aspartate, in piglets, effects of ischemia on, H1225
- c-fos gene**
- activation in adult rat hearts, renin-angiotensin system in, H2177
- CGP-48506**
- cardiotoxic mechanism of, H24
- Channel catfish**
- thermal modulation of intestinal dimensions, brush-border membrane fluidity, and glucose transport, R1037
- Chemoreceptor reflexes**
- alterations in, in aging rat, R310
  - carotid artery, and nucleus of solitary tract neurons projecting through rostral ventrolateral medulla, R1273
- Chemoreceptors**
- central pathways, role of commissural nucleus of solitary tract in, R1220

## SUBJECT INDEX TO VOLUME 270

### **Chemotaxis**

*see also Cell migration*

neutrophil, to *Pseudomonas* airspace infections, alveolar macrophage depletion and, L819 type II epithelial cell, regulation in vitro, L311

### **Chloride/bicarbonate exchanger**

in inner medullary collecting duct cells, F131

### **Chloride cells**

lamprey, apical surface changes after acclimation to seawater, R125

### **Chloride channels**

*see also Cystic fibrosis transmembrane conductance regulator* and activation of ΔF508-CFTR channels, C1544

activity, and CFTR overexpression, C341

in afferent arterioles, effects of blockade by DIDS, F718 airway, purinergic receptor regulation of, C1611

in autosomal dominant polycystic kidney disease, C389 in basolateral renal medullary vesicles, F1066

caffeine-induced, in rat hepatocytes, C508 calcium-activated  
in pulmonary arterial myocytes, H1577

in sarcoplasmic reticulum vesicles from rabbit skeletal muscle, C1675 in fetal distal lung epithelium, L1060

in human astrocytoma cells, biophysical and pharmacological characterization of, C1511 MDR1/P-glycoprotein function and, C1447

in mesangial cells, angiotensin II-induced activation of, C1834 outwardly rectifying, in kidney, F1038 P-glycoprotein-associated, antibody block of, C1370

in rat gastric enterochromaffin-like cells, G739

in stretch-induced increase of sinoatrial node pacemaker activity, H1726 swelling-activated, in MES-SA cells, reduction by doxorubicin selection for MDR1/P-glycoprotein, C1029

transmembrane, in human atrial myocytes, C500 voltage-gated, CIC family of, cellular and molecular physiology of, C711 volume-activated, in cultured neurons, C1703

### **Chloride ions**

absorption in medullary thick ascending limb, basolateral chloride channel mediating, F1066

colonic secretion, effects of gastrin-releasing peptide on, C859 conductance

in bronchial smooth muscle, effects of acetylcholine and caffeine on, L772 in *Necturus* antral mucosa, G449 cytoplasmic, regulation of Na-K-Cl co-transporter by, C437

efflux, in hypotonicity, MDR1 expression and, C1453 metalloporphyrin ionophores, induction of anion permeability by, L386

mobility in human cervical epithelium, regulation of tight junctional permeability and, C1715 renal/urinary excretion, regulation of, F301

secretion  
colon, effects of gastrin-releasing peptide on, C859 in cultured human tracheal glands, regulation by P<sub>2u</sub>-purinoreceptors, L979 in distal airway, L289 in human labial acini, G213 regulation by genistein, C265 transport  
in bovine retinal pigment epithelium, NSAIDs and, C1175 in *cfr*(-/-) mice, G259 in inner medullary collecting duct cells, F131 in rat S1 proximal tubule, α<sub>1</sub>-adrenergic control of, F1049

### **Cholecystokinin**

CCK-8, celiac, superior mesenteric, and intravenous infusions, and sucrose intake, R319

CCK-58, bioactivity, and structure, G860

gastric hyperemia caused by, G253 and nicotinic neurotransmission, in cat pancreatic ganglion, G526

pancreatic exocrine and endocrine response to, in genetically diabetic OLETF rats, G730

pancreatic secretion stimulated by, in capsaicin-treated rats, G881 secretion

β-adrenergic regulation of, G291 depolarization-stimulated, L-type calcium channels and, G287

in response to intraduodenal fat, dietary adaptation and, G128 in STC-1 cells, G287, G291

stimulation of intracellular calcium in gastric D cells, G897

and zymogen conversion in pancreatic acinar cells, effects of ethanol on, G171

### **Cholecystokinin-A receptor**

gene expression in pancreas of diabetic rats, E373

and stimulation of pancreatic exocrine secretion by soybean lectin, G653

### **Cholestasis**

neutrophil recruitment in, endogenous glucocorticoids and, G821

α-adrenal interactions in, G987

### **Cholesterol**

absorption, effects of *trans* fatty acids on, G268

plasma levels, exercise training and, H2008

transport, during absorption of glycerol trioleate vs. glycerol trielaidate, G268

### **Cholesterol 7α-hydroxylase**

hepatocyte, regulation by bile acids, G646 human, regulation at molecular level, G401

### **Choline acetyltransferase**

activity in airway mucosa, L722

### **Chondrocytes**

articular, potassium transport in, C1300

### **Choroid**

oxygen levels in, in guinea pig, H965

### **Chylomicron remnants**

uptake by enterocytes, G203

### **Cibacron blue**

effect on outward current in isolated bladder smooth muscle cells, C969

### **Ciliary neurotrophic factor**

and postsynaptic accumulation of succinate dehydrogenase, R80

### **Circadian pacemaker**

intrinsic period, assessment of, R271 suprachiasmatic nucleus as, R283

### **Circadian rhythms**

of blood pressure, in persistent vegetative state, R1109

of body temperature, in persistent vegetative state, R1109

of corticosterone, acute effects of antisense antagonism of VIP and, R283 of cortisol, night work and, E608 feeding-associated, effects on neuropeptide Y release in rat, E589

human, simulations of light effects on, R271

light-induced phase advances of blockade by cGMP-dependent protein kinase inhibitors, R1031 melatonin and, R1073

of melatonin

light exposure and, R1073 magnetic field and, E816

of regional cerebral blood flow, during sleep/wake transition states, in rats, R855

of salt intake, in calcium-deprived rats, R505

and sleep-promoting effects of IL-1β, in rats, R830

of solute and water excretion after nephrectomy in rats, R434

of Syrian hamster activity, entrainment by neonatal melatonin injections, R533

### **Circannual rhythms**

and gonadectomy, in golden-mantled ground squirrels, R1240

### **Cirrhosis**

gastric defense in, G71

### **Cisplatin**

induction of apoptosis in renal tubular cells, F700

### **Citric acid cycle**

hepatic intermediates, noninvasive probing with phenylacetylethylene, E882

### **Cocaine**

and exercise, amplification of catecholamine responses, E438

negative inotropic effect on ventricular myocardium, in ferret, H678

### **Cold stimulus**

*see also Hypothermia*

cerebral arterial contraction in response to, mechanism of, in newborn lamb, H645

and metallothionein-1 expression in brown adipose tissue of rats, R971

and rewarming, protein turnover during, in rats, R1231

### **Colitis, rat model**

colonic dilatation in, and inducible nitric oxide synthase, G425

sensory neurons in, G79

## SUBJECT INDEX TO VOLUME 270

- Collagen**  
 accretion during rapid growth, regulation of, E51  
 exercise- and hypertension-induced changes in, and cardiac function, in rats, H151  
 synthesis by mesangial cells  
     effects of IL-4 on, F447  
     and phenotypic shift in nodular culture, F614  
 type I, and mesangial cells, F960
- Collateral blood flow**  
 and coronary hemodynamics during brief coronary occlusions, in horses, H1893
- Colon**  
 corticosteroid receptor mRNA regulation in, C1343  
 electrolyte transport, effects of gastrin-releasing peptide on, C848, C859  
 human, lipid processing and lipoprotein synthesis, during development, G813  
 ion transport, nitroprusside-stimulated, mechanisms of, C832  
 motor activity in, regulation by nitric oxide, G717  
 mucosa, uroguanylin and guanylin peptides in, G708  
 muscularis mucosae, tyrosine kinase in, C1780  
 muscular tone, and nitric oxide synthase activity, G425  
 potassium absorption in, regulation of, C679  
 sodium absorption, intracellular pH and, C1799
- Colon carcinoma cells, see Intestinal cells, Caco-2**
- Complement**  
 activation, and endothelial dysfunction in rabbits, H1924  
 effects on renal hemodynamics, F179
- Complementary DNA**  
*rbCIC-Ka*, chloride channels encoded by, in basolateral medullary thick ascending limb, F1066
- Conductance**  
 in renal pelvis, variations in, F567
- Congestive heart failure, see Heart failure**
- Connexins**  
 of cardiac gap junctions, and cardiac development, C276
- Contact inhibition**  
 and negative regulation of Mv1Lu cell cycle in G<sub>0</sub>/G<sub>1</sub>, L879
- Contractile proteins**  
 activation, and length-dependent modulation of tracheal smooth muscle force, C243
- Copper ion**  
 efflux in placental cells, coincidental Menkes gene expression with, C1880
- Coronary arteries**  
 cytosolic calcium, effects of adenosine analogues on, H134  
 effects of lung allograft rejection on, H2191  
 epicardial, of pressure-overloaded heart, protein synthesis in, H685  
 nitric oxide-mediated relaxation, and antenatal betamethasone therapy, H538
- occlusion, myocardial stunning after, species differences in, H1312  
 oxygen-elicited responses in, in calf, H1044  
 relaxation by cyclopiazonic acid, in pigs, H2038  
 resistance, and myocardial stretch, H924  
 smooth muscle, sarcoplasmic reticulum calcium release, cyclic ADP-ribose and, H801  
 tension, effects of adenosine analogues on, H134  
 thrombosis, canine model, xanthine oxidase-mediated cyclic flow variations in, H1993
- Coronary blood flow**  
*see also Coronary circulation*  
 in nitric oxide-inhibited dogs, adenosine in regulation of, H423  
 in sleep, in swine, H723
- Coronary circulation**  
*see also Coronary arteries; Coronary blood flow*  
 adenosine kinetics in, in dog, H1469  
 factors affecting, in situ canine hearts, H1568  
 regulation, adenosine in, in nitric oxide-inhibited dogs, H423  
 vasodilation  
      $\beta_1$ -adrenoceptor-induced, pinacidil and, in dogs, H2210  
     metabolic, in dogs, H2210
- Coronary microcirculation, vasodilation in**  
 endothelium-dependent, platelet-activating factor and, H2094  
 flow-induced, H1878
- Coronary vascular resistance**  
 in sleep, in swine, H723
- Cortical granule exocytosis**  
 dynamics of, C1354
- Corticosteroid receptors**  
 mRNA regulation, C1343  
 type I, and energy balance after ovariectomy, R199
- Corticosteroids**  
 differential regulation of potassium ATPase gene expression, in rat colon and kidney, C679  
 differential regulation of sodium-potassium ATPase gene expression, in vascular smooth muscle, C731  
 effects on body energy and body water, R1099  
 effects on thiazide-sensitive NaCl transport by rat renal distal tubules, F211
- Corticosterone**  
 circadian rhythm, acute effects of antisense antagonism of VIP and, R283  
 modulation of behavioral and metabolic effects of lipopolysaccharide, R192
- Corticotropin-releasing factor**  
 in postoperative gastric ileus, R888  
 and vasopressin response to hypertonicity, R94
- Corticotropin-releasing hormone**  
 gene expression, diurnal rhythm of, age-related changes in, E238  
 interaction of lipocortin-1 with, in vivo, R54
- Cortisol**  
 circadian rhythm
- effects on human glucose regulation, E36  
 night work and, E608  
 in clearance of lung liquid at birth, R33  
 ouabain and, in sheep, E386  
 plasma levels, in fetal response to acidemia, R594  
 response during insulin-induced hypoglycemia, IGF-I and, E545
- Countercurrent gas exchange**  
 and CO<sub>2</sub> back-diffusion, effects on tissue oxygenation, H1453
- Countercurrent multiplier**  
 passive, F9
- Counterregulatory hormones**  
 response during insulin-induced hypoglycemia, IGF-I and, E545
- C-peptide**  
 plasma levels, oral sensory stimulation and, R1371
- Crabtree effect, H1869**
- Creatine kinase**  
 increased activity, effects on mouse skeletal muscle, C1236
- Cromakalim**  
 cardioprotection by, in ischemic hypertrophied rat hearts, H174  
 and functional hyperemia in striated muscle, H1649  
 and infarct size-limiting effect of ischemic preconditioning, H1744
- Crypt cells**  
 ileal, sodium-bicarbonate cotransport in, C786  
 mouse intestinal, immortalized, C1666
- Crystallins**  
 $\alpha$ B-crystallin, protective effect on glial cells in hypertonic stress, C903
- Cyanide**  
 thermoregulatory effects in toad, R169
- Cyclic ADP-ribose**  
 calcium release induced by, potentiation by palmitoyl-CoA, C530  
 stimulation of sarcoplasmic reticulum calcium release in porcine coronary artery smooth muscle, H801
- Cyclic nucleotides**  
 cross-talk between, in human NB-OK-1 cells, role of phosphodiesterase II in, C286  
 functional antagonism between, and endothelial barrier function, H1264  
 and IL-1 $\beta$ -induced cerebrovascular vasodilation, in newborn pig, R1044  
 role in regulation of osteoblastic metabolism by natriuretic peptide, C1311
- Cyclin**  
 and negative regulation of Mv1Lu cell cycle in G<sub>0</sub>/G<sub>1</sub>, L879
- Cyclin-dependent kinase**  
 cdk2, in vascular endothelial cell proliferation, C170
- Cyclocreatine**  
 transport and toxicity in rat glioma and human ovarian carcinoma cells, C160
- Cyclooxygenase**  
 COX-2, upregulation by acute hypoxia in rat lung, L872  
 inducible, expression by human islets, C1581  
 isoforms, G393  
 products, and nitric oxide, in pregnant rat uterus, E471

## SUBJECT INDEX TO VOLUME 270

### Cyclopentyltheophylline

renal effects of, F263

### Cyclopiazonic acid

effects on intracellular calcium in vascular endothelial cells, H837, H2038

### Cyclosporin A

P-glycoprotein overexpression induced by, F756

### Cystathioneine

and hepatic glutathione transport, G969

### Cysteine

kinetics, in response to intravenous glutathione infusion in adults, E209

### Cysteine-rich intestinal protein

differential expression in liver and intestine, and inflammation, G613

### Cystic fibrosis

fluid transport defects in airway epithelium in, C1326

mouse model, sodium and chloride transport in, G259

renal pathology in, F1038

treatment, L386

### Cystic fibrosis transmembrane conductance regulator

apical, alternate stimulation by genistein in epithelia, C265

cellular ATP release by, C538

chloride conductance, deactivation by phosphatases in sweat duct, C474

$\Delta F 508\text{-CFTR}$ , trafficking, activation, and kinetics of, C1544

in human autosomal dominant polycystic kidney disease, C389

in immortalized pancreatic ductal cells, G676

and intestinal sodium absorption in *cfr* knockout mice, G259

overexpression, biosynthetic and growth abnormalities associated with, C341

renal

expression in cortical collecting duct cells, F237

wild type and functional isoform, F1038

shrinkage-activated conductance and, C179

### Cytochrome oxidase

subunit VIa isoforms, developmental regulation of, H567

### Cytochrome P-450

4501A1 enzyme, in Caco-2 cells, G976

4A<sub>2</sub> enzyme, production in vascular smooth muscle, R217

inhibition, attenuation of hypoxemia of acute lung injury, in dogs, H1355

### Cytokines

anorexia induced by, R1394

cerebrovascular effects in newborn pig, R1044

effects on inducible nitric oxide synthase and cyclooxygenase expression by human islets, C1581

effects on type II alveolar cell chemotaxis in vitro, L311

in endotoxin-induced activation of nitric oxide synthase, in cultured rat brain cells, R326

expression

in central nervous system, and sleep alterations in HIV infection, R963

in rat lung, and endotoxin-induced group II PLA<sub>2</sub> activation, L752

heat shock protein 72 expression induced by, in feline cardiomyocytes, H1231

in hepatocellular dysfunction during hyperdynamic sepsis, R927

induction of mannose receptors and apoptosis in glomerular mesangial cells, C1595

and liver regeneration after partial hepatectomy, G909

production

by activated T cells, 11 $\beta$ -hydroxysteroid dehydrogenase and, R1296

in lung fibroblasts, effects of surfactant on, L159

regulation of apolipoprotein B secretion by Caco-2 cells, G94

release

in hypertensive rats, H2125

pulmonary, after hemorrhage, L729

response to endotoxin, in isolated lungs, L62

stimulation of gastrin release from canine antral cells, G783

### Cytoskeleton

actin

and proximal tubule injury, F39

regulation of nuclear ion channels, C1532

ultrastructure, and apoptosis of renal proximal tubular cells, F593

architecture in airway epithelial cells, regulation by PKC- $\alpha$  and calpain II, L526

during cold preservation of pulmonary arterial smooth muscle cells, L435

## D

### Deglutition, see Swallowing

### 2-Deoxyglucose

uptake in human intestinal cells, G153

### Desmin

gene expression, in cardiomyocytes, C1228

### Development

*see also* Maturation

cardiac, see Heart, development

cardiac output during, in *Xenopus laevis* tadpoles, R997

pulmonary, see Lung, development

renal, removal of intercalated cells during, F575

### Dexamethasone

effects on ANP C-receptor protein in mesangial cells, F440

effects on pulmonary gas exchange area, postnatal retinoic acid treatment and, L305

regulation of pancreatic lipases, G746

### Diabetes insipidus

nephrogenic, F657

### Diabetes mellitus

cold-exposed mice with

heat shock protein response deficits in, R525

thermoregulation in, R525

cytokines and inducible nitric oxide synthase expression in, C1581

eIF-4E and PHAS-I association in muscle in, C705

gastrointestinal hyperemia in, mediators of, in rats, G684

insulin-dependent (IDDM), low-protein diet in, E148

microangiopathy in, pathogenesis, H2014

myopathy, in gastric smooth muscle, G411

nephropathy in, pathophysiology of, F812

non-insulin-dependent (NIDDM) assessment of insulin sensitivity in, modeling for, E532

$\beta$ -cell dysfunction and, E572

$\beta$ -cell L-type calcium channel activity in, F133

fuel selection in human skeletal muscle in, E463

gluconeogenesis in, E709

insulin secretion in, purinoreceptor pathway and, E504

pathogenesis, E251, E946

pathophysiology, glucose-dependent insulinotropic polypeptide in, E661

OLETF rat model, loss of cholecystokinin sensitivity in, G730

pathogenesis

fetal malnourishment and, E552

transgenic mouse studies, E565

rat model

altered calcium handling in ventricular myocytes from, H1529

effects of molybdate in, E344

mechanisms of postabsorptive hyperglycemia in, E752

### Dialysis

peritoneal, fluid movement in, F377

### Diarrhea

pathogenesis, in enteropathogenic *Escherichia coli* infection, G634

### Diet

high-calcium, reversal of hypertension and endothelial dysfunction, in dexamethasone-NaCl-treated rats, H1250

liquid, rats ingesting, deterministic and probabilistic control of behavior of, R793

low-protein, and salt appetite, R1189

palatability

and carbohydrate overeating, in rats, R1197

and duration of satiety, R1122

and food intake, opioids and, R1183

### 1,25-Dihydroxyvitamin D

calcium receptor regulation by, F454

metabolism, age-related changes in, in men, E483

and smooth muscle contraction in resistance arteries, H230

### 1,25-Dihydroxyvitamin D<sub>3</sub>

effects on bone metabolism in X-linked hypophosphatemic male mice, E141

regulation of parathyroid hormone/parathyroid hormone-related peptide receptor, E654

### 1,25-Dihydroxyvitamin D receptor

expression, and calbindin D<sub>28k</sub> expression, in murine nephron, F677

### Diltiazem

cardioprotection by, in ischemic hypertrophied rat hearts, H174

### Dimethylamiloride

cardioprotective efficacy, extracellular buffer composition and, H692

adhesion to pulmonary endothelium, endotoxin-induced, L28  
aggregability, enhanced, in  $\beta$ -thalassemia major, H1951  
BXD-31 mouse, potassium-chloride co-transport in, C866  
cell volume regulation, C898  
inside-out vesicles, mechanism of swelling activation of potassium-chloride cotransport in, C1122  
mass, in humans, and prolonged exercise training, H121  
mudpuppy, potassium conductance activated during regulatory volume decrease in, R801  
swelling-activated potassium transport, in eel, R61
- Erythropoietin**  
correction of anemia by, effects on insulin resistance and hyperinsulinemia in uremia, F839  
effect on blood pressure, endothelin-mediated, R744  
effect on renal hemodynamics, in hypertensive rats, R744
- Escherichia coli**  
enteropathogenic, effects on T84 cell function, G634
- Esophagus**  
lower sphincter, relaxation induced by esophageal balloon distension, G1022  
neuromuscular function, superoxide and, G136  
secondary peristalsis, in opossum and hydrochloric acid, G927  
slow fluid infusion-induced, G927
- Estradiol 17 $\beta$ -D-glucuronide**  
transport, by oatp, F326
- Estrogen  
effects on lung gas-exchange surface area and alveoli, in female rats, L110  
effects on parathyroid hormone mRNA levels in rats, E158  
and gastric slow-wave dysrhythmias, in nausea of pregnancy, G506  
renal oatp expression and, F332
- Estrogen receptors**  
and nutritional effects on sexual behavior, E1
- Estrous cycle**  
effects on long-term feeding patterns in female rats, R413  
nutritional effects on, E1
- Ethanol**  
effects on cholecystokinin-stimulated zymogen conversion in pancreatic acinar cells, G171  
hepatic injury due to, G574  
Ito cell activation in, G581
- Etorphine**  
central trigeminal effects on adrenal and autonomic function, in cat, R636
- Eukaryotic initiation factor**  
eIF-2B, expression in skeletal muscle during sepsis, E43  
eIF-4E, association with PHAS-I in muscle, regulation by insulin and diabetes, C705
- European eel**  
cultured gill gland cells from, acid secretion in, R578  
erythrocytes, swelling-activated potassium transport, R61
- European hamster**  
sympathetic signal transduction in cardiac ventricles, rhythmicity in, R304
- Excitation-contraction coupling, in cardiac tissue**  
effects of cellular inhomogeneities on, H101  
intracellular mechanisms and, H338 studied in intact ferret heart, H1940
- Exercise**  
acetyl-CoA carboxylase in muscle during, E299  
 $\alpha$ -adrenoceptor activation during, reversal of pulmonary vasoconstriction induced by, H875  
ammonia uptake in inactive muscles during, E101  
cocaine and, amplification of catecholamine responses, E438  
collagen changes induced by, and cardiac function, in rats, H151  
control of glycolysis during, in vertebrate skeletal muscle, R821  
effects on fat oxidation at rest, E1009  
effects on plasma volume, R3  
effects on sarcolemmal glucose transport in human muscle, E197  
endurance training  
effects on GLUT-1 and GLUT-4 expression in human skeletal muscle, E457  
and gluconeogenic capacity of liver in rats, R365  
phosphorylase regulation after, E328  
progressive effect on metabolic adaptations in muscle, E265
- fat-carbohydrate interaction during, regulation of, E116  
fluid and electrolyte balance during, and aging, R71
- gluconeogenesis during, R1005  
GLUT-1 and GLUT-4 expression in skeletal muscle and, E457  
glycogen depletion after, insulin resistance and, E336  
gravitational changes during, blood pressure and heart rate responses to, H2132  
gut proteolysis in, E85  
heart rate regulation after, R420  
metabolic adaptation of muscle with, E265  
and neutrophil microbial activity, R838
- phosphoenolpyruvate carboxykinase gene expression during, R1005  
potassium balance during,  $\beta$ -adrenergic stimulation and, R1347
- prolonged, human skeletal muscle malonyl-CoA during, E541  
and recovery, effects on muscle metabolism in frog, R811, R821  
resistance, insulin action after, in rats, E313  
skin blood flow during, effects of cooling on, H208
- Exercise training**  
prolonged, hematological response to, in humans, H121  
vascular reactivity and, H2008
- Exocrine cells**  
stimulus-secretion coupling, novel basement membrane protein in, C1743
- Exocytosis**  
phospholipase activities and, C1153
- Exotoxin A**  
stimulation of fluid reabsorption in lung, L232
- Extracellular matrix**  
alveolar, and epithelial cell response to coal dust, L123  
biology, in lung, L3  
cell interactions with, in rat lung fetal, L459, L577  
neonatal, L376  
effects on type II alveolar cell chemotaxis in vitro, L311  
type II pulmonary epithelial cell, regulation of, L215
- Eye, retina**  
avascular mammalian, intraretinal oxygen distribution in, H965  
chloride and fluid transport in, NSAIDs and, C1175
- F**
- Fasting**  
effects on ischemia tolerance in rat heart, H1607  
effects on neuropeptide Y release in rat, E589  
ascending noradrenergic neurons and, E596  
effects on pancreatic B cell sensitivity, E988  
gluconeogenesis during, fat-derived substrates and, E822  
IGF-I system response to, developmental differences in, E646  
splanchnic amino acid metabolism during, G298

## SUBJECT INDEX TO VOLUME 270

### Fat, body

*see also Adipose tissue; Obesity*  
 after lateral hypothalamic lesions in rats, R738  
 deposition, in ovariectomized rats, R199  
 distribution  
 abdominal-visceral, and muscle sympathetic nerve activity, E363  
 and adipocyte lipolysis and metabolic complications in postmenopausal women, E72  
 sex differences in, E259, E363  
 metabolic characteristics, in obesity, E995  
 nicotine and, E215  
 subcutaneous, metabolic characteristics, in obesity, E995  
 visceral, metabolic characteristics, in obesity, E995

### Fat, dietary

and alcoholic liver fibrosis, G581  
 increased consumption, in aP2-Ucp transgenic mice, E768, E776  
 ingested  
 gastric emptying of, in rats, R688  
 satiety and, R761  
 metabolism, in human skeletal muscle, effects of obesity and NIDDM, E463 and rat pancreatic secretion, G128 substitutes, and food intake, R1386

### Fat, intestinal

differential suppression of sham feeding of gustatory stimuli, R1122

### Fat-storing cells, *see* Adipocytes

### Fatty acid-binding proteins

gene expression, enterocytic, in intestinal adaptation, G143

### Fatty acids

availability, and muscle glycogenolysis, R766  
 free

effects on gluconeogenesis during fasting, E822  
 flux, effects of tumor necrosis factor on, E864

oxidative disposal of, effects of exercise on, E1009

hepatic metabolism, effects of extracellular ATP on, G701

long-chain, hepatic uptake, kinetics of, G385  
 metabolism

after weight loss, in obesity, E739  
 effects of epinephrine on, E259

n-3, effects on glucose and fructose metabolism, E353

and neurovascular reflex responses, R1340

oxidation  
 effects of propionate on, H2197  
 exercise and, E541, E1009

glucose and insulin-induced inhibition, E733

in vascular smooth muscle, H1869

plasma levels  
 effects on insulin action, E424

elevation during intense aerobic cycling, and regulation of muscle glycogen phosphorylase, E116  
 regional metabolism, effects of epinephrine on, E259

and regulation of pyruvate dehydrogenase during fasting, E988

*trans*, effects on cholesterol transport, G268

### Feeding

activation of muscle protein synthesis  
 after, insulin and IGF-I in, E614  
 effects on neuropeptide Y release in rat, E589  
 ascending noradrenergic neurons and, E596  
 leucine kinetics during, in healthy adults, E282

### Feeding behavior

*see also Food intake*  
 lateral hypothalamic NMDA receptors and glutamate as mediators of, R443

long-term patterns, gender differences in, in rats, R413

### Females, *see* Gender differences

### Fenamate

effects on chloride and fluid transport, in bovine retinal pigment epithelium, C1175

### Ferritin

heavy and light subunits, expression during development and after dietary iron feeding, G498  
 rat liver, inhibition of lipocyte  $\alpha$ -smooth muscle actin, G370

### Fertility

regulation by metabolic cues, E1

### Fertilization

dynamics of cortical granule exocytosis at, C1354

### Fetoplacental microcirculation

effect of endothelin-1 on, in sheep, H16

### Fetus

*see also Newborn*

alveolar type II cells

surfactant lipid secretion from, stimulation by gastrin-releasing peptide, L331

whole cell potassium currents, in rat, L577

bone development, IGF-I and, R1148  
 growth

*see also Intrauterine growth retardation*

retardation, in sheep, R246

selective promotion by IGF-I, in sheep, R1148

heart

*see also Heart, development*

sympathetic innervation and vascularity of, H33

vasculogenesis/angiogenesis in, H33

leucine metabolism, in heat-stress model of fetal growth retardation, E491

lung

alveolar development, in rat, L619  
 development in rat, expression of nitric oxide synthase isoforms during, L88

epithelium, electrophysiology of, L1008, L1060

fibronectin and laminin receptors in, L459

maturity in adrenalectomized sheep, R33

surfactant secretion, stimulation by gastrin-releasing peptide, L331

mouse, ventricular myocytes, delayed rectifier potassium currents, H2088

oxygen consumption, effect of endothelin-1 on, in sheep, H16

prostanoid-hormonal interactions in, R594

pulmonary arterial endothelial cells, nitric oxide synthase gene expression, L643

renal reserve in, in sheep, R1226  
 renal sympathetic nerve activity at birth, R86

sodium supply to, effects on transplacental fluid circulation, R984  
 ventricular function, myocardial blood flow, and oxygen consumption in, H741

### Fever

endotoxin-induced, in guinea pigs, TNF- $\alpha$  infusions and, R749  
 lipopolysaccharide-induced, inhibition by interleukin-1 receptor antagonist, E91

### Fibroblast growth factor

basic, mitogenic response to, in vascular smooth muscle, H1141

### Fibroblast growth factor receptors

FGFR-1, in vascular smooth muscle, modulation by IGF-I, H1141

### Fibroblasts

cardiac, effects of angiotensin II on, comparison with effects of other growth factors, H2100  
 mouse L cells, maitotoxin-activated currents in, C1145

pulmonary

effects of surfactant on, L159  
 stability of tropoelastin mRNA in, in neonatal rat, effects of serine protease inhibitors on, L373

### Fibronectin

effects on type II alveolar cell chemotaxis *in vitro*, L311

eosinophil VLA-4 binding to, effects on bronchial narrowing, L587  
 mesangial synthesis, TGF- $\beta$ 1 and, F812 synthesis, in type II pulmonary epithelial cells, L215

### Fibronectin receptors

on fetal rat lung cells, L459

### Fish

elasmobranch

hepatocytes from, ATP receptors on, characterization and function of, R561

vascular system, vasoactive function of fish tachykinin in, R585

venous return and ventricular filling in, H1766

gastrointestinal peptide transport in, R939, R948

red-blooded Antarctic, nervous control of spleen in, R599

vascular system, tachykinin vasoactivity and immunoreactivity in, R585

### Fish oil

effects on metabolic responses to oral fructose and glucose loads, E353

### Flounder, *see* Pseudopleuronectes americanus

### Fluid loss

peritoneal, F377

### Fluids

*see also Water*

balance

effects of adrenomedullin on, mechanism of, R920  
 pathophysiology of, R486

## SUBJECT INDEX TO VOLUME 270

- reabsorption, in cortical collecting ducts, F206  
transplacental circulation of, R984  
transport  
in bovine retinal pigment epithelium, NSAIDs and, C1175  
defects, in airway epithelium in cystic fibrosis, C1326
- Fluid therapy**  
for hypovolemic shock, in rats, F1
- Fluorescence microlymphography**  
transport and flow measurements with, H324, H330, H358
- Fluorescence microscopy**  
of bile salt secretion in hepatocytes, G887  
of energy-depleted cardiomyocytes, H2149  
intravital, G798  
of oxygen diffusivity in microvascular beds, H1390  
of vascular endothelium, H2216
- Fluorescence ratio imaging**  
in outer medullary collecting duct cells, F116
- Focal adhesion kinase**  
activity in thrombin-induced signal transduction pathway, F295
- Folate**  
plasma levels, in gestating sows and newborn piglets, R99
- Folate-binding protein**  
high-affinity, and plasma distribution of tetrahydrofolate in pigs, R105
- Food**  
thermic effect, in protein-restricted Zucker rats, E677
- Food deprivation**  
acute, opioid peptide mRNA levels in arcuate nucleus and, R1019  
and carbohydrate intake in rats, effects of naloxone on, R1183  
effects on metabolism and ingestion, comparison with effects of 2,5-anhydro-D-mannitol, R1250  
effects on neural progestin receptors, in hamster, R978
- Food intake**  
*see also Anorexia; Feeding behavior*  
and dopamine concentration in lateral hypothalamic area, R315  
effects of 2,5-anhydro-D-mannitol on, comparison with effects of food deprivation, R1250  
effects on kininogen in human plasma, H1071  
ingested fat and, R761  
long-term, in rats, gender differences in, R413  
regulation, nonabsorbable fat and, R1386  
in restricted and nonrestricted rats, naloxone and, R1183  
suppression by intestinal fat, R1122
- Food restriction**  
and carbohydrate intake in rats, effects of naloxone on, R1183  
chronic, opioid peptide mRNA levels in arcuate nucleus and, R1019
- Fractal imaging**  
of proximal nephron cell, C953
- Free radicals, *see Reactive oxygen species***
- Frog**  
muscle metabolism in exercise and recovery in, R811, R821  
skeletal muscle, control of glycolysis in, during exercise, R821
- Fructose**  
feeding, in islet-transplanted rat with suboptimal  $\beta$ -cell mass, E292  
metabolism, effects of fish oil on, E353
- G**
- GABA, *see*  $\gamma$ -Aminobutyric acid**
- Gadus morhua, *see* Atlantic cod**
- Galactose**  
intravenous administration, glycogenolysis and glycogenesis after, G14
- Gamma-glutamyltransferase**  
activity, LLC-PK<sub>1</sub>-F<sup>+</sup> cell response to metabolic acidosis and, C920
- Gamma-glutamyl transpeptidase**  
expression in hyperoxic rat lung, L115
- Gap junction channels**  
embryonic cardiac, asymmetric currents in, C276
- Garter snake**  
renal basolateral organic cation transport in, R1025
- Gastric, *see* Stomach**
- Gastric acid secretion, *see* Stomach, acid secretion**
- Gastric ileus, postoperative**  
calcitonin gene-related peptide in, R556  
IL-1 $\beta$  in, R556  
neuronal pathways in, in rats, R888
- Gastrin**  
gene expression, in pancreatic cancer cells, R1078  
glycine-extended, potentiation of gastric acid secretion, in rats, G220  
and pancreatic cancer growth, R1078  
regulation of histidine decarboxylase expression, in rat, G619  
release from canine antral cells, stimulation by immunocells and cytokines, G783  
stimulation of histamine synthesis, in gastric mucosa, G463
- Gastrin-releasing peptide**  
effects on colonic electrolyte transport, C848  
stimulation of surfactant lipid secretion from fetal type II pneumocytes, L331
- Gastroesophageal reflux**  
small-volume low-pressure model, in opossum, G927
- Gastrointestinal motility**  
*see also Peristalsis*  
5-hydroxytryptamine-induced, G992  
interdigestive cycle, gastric acid and bicarbonate outputs during, G113  
and nausea of pregnancy, G506  
regulation, G470  
by nitric oxide, G717  
superoxide and, G136
- Gastroparesis**  
diabetic, G411
- Gender differences**  
in antidiuretic responsiveness to vasopressin, in rats, R550  
in complement-induced endothelial dysfunction, H1924
- in long-term feeding patterns, in rats, R413
- Gene expression**  
angiotensinogen, regulation by dietary salt, F1027  
antioxidant enzyme, in hyperoxic rat lung, L810  
assessment, in bone formation, E937  
baine transporter, effects of osmolytes on, C650  
bradykinin B<sub>2</sub> receptor in human kidney, F919  
renal, developmental expression of, salt loading and, F425  
cholecystokinin-A receptor, in pancreas of diabetic rats, E373  
in chronically stimulated skeletal muscle, C1413  
corticotropin-releasing hormone, diurnal rhythm of, age-related changes in, E238  
cyclooxygenase-2, in hypoxic rat lung, L872  
cysteine-rich intestinal protein, in liver and intestine, and inflammation, G613  
cystic fibrosis transmembrane conductance regulator, in kidney, F1038  
in cortical collecting duct cells, F237  
desmin, in cardiomyocytes, C1228  
Egr-1 (early growth response), in cardiac fibroblasts, H2100  
enterocytic, in intestinal adaptation, G143  
epidermal growth factor, in acute renal failure, F21  
epidermal growth factor receptor, in rat exorbital lacrimal gland, C1164  
eukaryotic initiation factor 2B, in skeletal muscle, during sepsis, E43  
ferritin heavy and light subunits, duodenal and liver, during development and after dietary iron feeding, in rat, G498  
 $\gamma$ -glutamyl transpeptidase, in hyperoxic rat lung, L115  
gastrin, in pancreatic cancer cells, R1078
- GLUT-1 and GLUT-4, in skeletal muscle, exercise and, E457
- GLUT-2, in  $\beta$ TC3 and  $\beta$ HC9 cells, E846
- GLUT-4, in transgenic mice, and lipoprotein lipase activity, R785
- glutaminase, glucocorticoid receptor and, C825
- glutamine synthetase  
in lung epithelial cells, regulation by glucocorticoids, L141  
in skeletal muscle, effects of glutamine on, E912
- glyceraldehyde-3-phosphate dehydrogenase, oxidative stress and, in rabbit aorta, H81
- group II PLA<sub>2</sub>, endotoxin-induced, in rat lung, L752
- in hepatic cells, during endotoxemia, G660
- hexose transporter, deregulation in Caco-2 cells transfected with *ras* and polyoma middle T oncogenes, G314
- histidine decarboxylase, regulation in rat, G619

## SUBJECT INDEX TO VOLUME 270

### **Gene expression (continued)**

human *HSP70*, in rat myogenic cell line, protective effect against endotoxin, C1017  
 hydrogen-potassium ATPase  $\alpha$ -subunit, in kidney, effects of hypokalemia on, F557  
 insulin-like growth factor-I, in bone formation, E937  
 insulin-like growth factor-I binding protein, in transgenic mice, E565  
 interleukin 6 receptor, in bronchial epithelial cells, regulation by IL-1 and IL-6, L346  
 kallikrein, renal, developmental expression of, salt loading and, F425  
 lipoprotein lipase, in botulinum toxin-treated muscle, R238  
 low-molecular-weight kininogen, in human kidney, F919  
 lysozyme, after prolonged hyperpnea, L320  
 matrix metalloproteinase-9, regulation in renal mesangial cells, F123  
 MEK-1, long-term regulation in glomerular mesangial cells, C40  
 Menkes gene, in placental cells, C1880  
 meprin, in experimental hydronephrosis, F669  
 metallothionein-1, cold-induced, in brown adipose tissue of rats, R971  
 MUC5 and MUC1, regulation, L846  
 mucin, during airway mucous differentiation, L846  
 muscle isozyme of glycogen phosphorylase, in botulinum toxin-treated muscle, R238  
 neuropeptide Y, hypothalamic, in gold thioglucose-treated mouse, R1208  
 neurophysin, in dispersed hypothalamic cell cultures, stimulation by dopamine D<sub>1</sub> agonist, R404  
 nitric oxide synthase  
     in chronically hypoxic rat lung, L164  
     regulation by dietary salt, F1027  
     upregulation by oxygen, in ovine fetal pulmonary artery endothelial cells, L643  
 opioid, and food restriction or deprivation, R1019  
 organic anion transporter oapt, renal, regulation by testosterone, F332  
 pancreatic lipase and related proteins, regulation by dexamethasone, G746  
 PGHS-1, regulation of, C259  
 P-glycoprotein, induced by cyclosporin A, F756  
 phosphoenolpyruvate carboxykinase, during exercise, R1005  
 6-phosphofructo-2-kinase/fructose-2,6-bisphosphatase, in perinatal liver, E244  
 regulation  
     during liver regeneration, in rats, G763  
     in skeletal muscle during slow-muscle hypertrophy, C1624  
 renin, regulation by dietary salt, F1027  
 $\alpha$ -smooth muscle actin, in rat lipocytes, inhibition by rat liver ferritin, G370  
 sodium/hydrogen exchanger NHE-3, in OKP cells, effects of glucocorticoids on, F164  
 sodium-potassium ATPase

differential regulation by corticosteroids in vascular smooth muscle, C731  
 in inner medullary collecting duct cells, effects of hyperosmolality on, F728  
 stromelysin, induction by pyrrolidine dithiocarbamate, in mesangial cells, F806  
 sucrase-isomaltase, premature, polyamine metabolism and, G54  
 surfactant protein  
     after prolonged hyperpnea, L320  
     SP-A, in vitro analysis of, L504  
     SP-B, regulation, L601  
 telokin, mediation by smooth muscle-specific promoter, C1656  
 transforming growth factor  
     TGF- $\alpha$ , eosinophil-derived, regulation in hamster, G191  
     TGF- $\beta$ 1, in regenerating renal tubule after ischemic injury, F500  
     tropoelastin, glucocorticoid-induced, regulation by TGF- $\beta$ 3, L992  
 tumor necrosis factor  
     TNF- $\alpha$ , *E. coli*-induced, hepatic ischemia/reperfusion and, R289  
     upregulation by adenovirus E1A 13S gene product, L535  
 type I receptor serine-threonine kinase, in pulmonary blood vessels, L547  
 vasopressin, regulation, R404  
 vitamin D receptor, and calbindin D<sub>28k</sub> expression, in murine nephron, F677  
**General anesthetics**  
 phospholipase A<sub>2</sub> and, C636  
**Gene regulation**  
 cytokine, after hemorrhage, L729  
 surfactant protein B, in murine lung, L714  
**Gene therapy**  
 for cystic fibrosis, L386  
 pulmonary physiology and, L1  
**Gene transcription**  
 aquaporin 2 gene, cAMP and, C1695  
**Gene transfer**  
 for immortalization of epithelial cells, C1  
 plasmid-mediated, to rat diaphragm, L1023  
**Genistein**  
 regulation of chloride secretion by, in epithelia, C265  
**Gentamicin**  
 inhibition of carrier-mediated dipeptide transport in kidney, F531  
 nephrotoxicity  
     expression of basolateral transporters in, F245  
     pathophysiology of, F531  
**Geotria australis**, *see* Lamprey  
**Gestation**, *see* Pregnancy  
**Ginglymostoma cirratum**, *see* Nurse shark  
**Glial cells**  
 hypertonic stress, protective effect of  $\alpha$ B-crystallin in, C903  
 rat brain, volume regulation in, C1319  
**Glibenclamide**  
 and functional hyperemia in striated muscle, H1649  
 and hypoxic cerebral blood flow, H45  
 and infarct size-limiting effect of ischemic preconditioning, H1744

and rate of coronary flow regulation, H492  
**Glomerular filtration rate**, *see* Kidney, glomerular filtration rate  
**Glomeruli**, *see* Kidney, glomerulus  
**Glomerulonephritis**  
 pathophysiology of, F447  
**Glomerulosclerosis**  
 rat model of, F356  
**Glomerulotubular balance**  
 in euvolemia, F461  
**Glucagon**  
 elevation, in infection, E580  
 during insulin-induced hypoglycemia, IGF-I and, E545  
 plasma levels, oral sensory stimulation and, R1371  
 response to, in male offspring of protein-malnourished rats, E552  
 secretion, in hypoglycemia, pancreatic sympathetic nerves and, E20  
**Glucagon-like peptides**  
 GLP-1, and glucose turnover in rats, E1015  
**Glucocorticoid receptors**  
 gene, modulation of glutaminase gene expression and glutamine utilization, C825  
**Glucocorticoids**  
 activities in lymphoid organs, 11 $\beta$ -hydroxysteroid dehydrogenase and, R1296  
 antenatal therapy with, and preterm coronary arterial reactivity, H538  
 effects on ANP C-receptor protein in mesangial cells, F440  
 effects on NHE-3 transcription in OKP cells, F164  
 endogenous, and neutrophil recruitment in cholestasis, G821  
 exogenous, and premature expression of sucrase-isomaltase, G54  
 modulation of behavioral and metabolic effects of lipopolysaccharide, R192  
 regulation of glutamine synthetase expression in lung epithelial cells, L141  
 secretion, in cholestatic rats, TNF- $\alpha$  stimulation of, G987  
**Glucokinase**  
 regulation of glucose kinetics, in  $\beta$ HC9 cells, E846  
**Gluconeogenesis**  
*see also Glucose, hepatic output*  
 contribution to hepatic glucose production, E186  
 in diabetes mellitus, E709  
 during exercise, R1005  
 during fasting, fat-derived substrates and, E822  
 hepatic, hormonal regulation of, R365  
 in infection, E580  
**Glucosamine**  
 synthesis, role in TGF- $\alpha$  gene transcription, C803  
**Glucose**  
 absorption, intracellular phase of, G153  
 airspace, in air- and fluid-filled lungs, L183  
 availability, and daily torpor in Siberian hamsters, R398  
 deprivation, cell sensitivity to, variation by cell type, E640

## SUBJECT INDEX TO VOLUME 270

flux into and out of organs, regulation of, G541  
 hepatic output  
     in adult rats, after early growth retardation, E946  
     age-related changes in, in rats, E930  
     altered regulation in male offspring of protein-malnourished rats, E552  
     during early postprandial period, E186  
     in infection, E580  
     in streptozotocin diabetic rats, E752  
 homeostasis  
     in centenarians, E890  
     effects of IGFBD-1 overexpression in transgenic mice, E565  
     glucose transporters in, G541  
 intestinal transport, thermal modulation in channel catfish, R1037  
 kinetics  
     effects of IGF-I and growth hormone on, E552  
     during growth hormone treatment in intrauterine growth-retarded preterm infants, E451  
 metabolism  
     in diabetic rats, effects of molybdate on, E344  
     effects of fish oil on, E353

     transport and metabolism in cardiomyocytes, during oxygenation, anoxia, and reoxygenation, H1825  
     uptake, reduction by MK-801 via depolarization, C1398  
**Glutamate receptors**  
     hypothalamic metabotropic, and heart rate, in rats, R1115  
     subtypes, input to parabrachial nucleus, H1557  
**Glutamatergic transmission**  
     and spinal *c-fos* expression after lower urinary tract irritation, in rat, R990  
**Glutamate transporter**  
     EAAC1, characterization and distribution, in rat brain, C67  
**Glutamic acid, see Glutamate**  
**Glutaminase**  
     gene expression, glucocorticoid receptor and, C825  
**Glutamine**  
     effects on glucocorticoid-induced expression of glutamine synthetase, E912  
**L-Glutamine:D-fructose-6-phosphate amidotransferase**  
     in glucose-stimulated TGF- $\alpha$  gene transcription, C803  
**Glutamine synthetase, expression**  
     in lung epithelial cells, regulation by glucocorticoids, L141  
     in skeletal muscle, effects of glutamine on, E912  
**Glutathione**  
     depletion, and TPN-induced liver abnormalities, in weanling rats, G691  
     hepatic transport, inhibition by thioethers, G969  
     intravenous infusion, plasma methionine and cysteine kinetics in response to, E209  
     protective effect against oxidative lung injury, in preterm rabbits, L446  
     S-conjugates, endogenous ATP-sensitive efflux mechanism in *Xenopus laevis* oocytes, R1156  
     and small intestine detoxification capacity, in chronic hypoxia, G725  
**Glutathione peroxidase**  
     extracellular, in human lung epithelial lining fluid and lung cells, L173  
**Glyceraldehyde-3-phosphate dehydrogenase**  
     expression in rabbit aorta, oxidative stress and, H81  
**Glycerophosphocholine**  
     degradation, effects of betaine and inositol on, C200  
**Glycine**  
     effects on hepatic reperfusion injury, G332  
**Glycogen**  
     depletion, after marathon run, and insulin resistance, E336  
     in GLUT-1 glycosylation, E640  
     hepatic, contribution to blood glucose in postabsorptive state, E709

## SUBJECT INDEX TO VOLUME 270

- Glycogenesis**  
hepatic, after intravenous administration of galactose, G14
- Glycogenolysis**  
hepatic  
after intravenous administration of galactose, G14  
net,  $^{13}\text{C}$  NMR measurements of, E186  
in infection, E580  
muscle  
free fatty acid availability and, R766  
during intense aerobic cycling, E116
- Glycogen phosphorylase**  
muscle isozyme, of gene expression in botulinum toxin-treated muscle, R238  
regulation  
after endurance training, E328  
during intense aerobic cycling, E116
- Glycogen synthase**  
activity, after marathon run, E336
- Glycolysis**  
control of, during exercise, in vertebrate skeletal muscle, R821  
in ischemia/reperfusion of rat heart, H72  
during low-flow ischemia, in isolated working rat heart, H817  
in vascular smooth muscle, H1869
- Glycoproteins**  
GP2, polarized secretion of, G176  
GPIIb-IIIa complex, platelet surface, effects of nitric oxide on, H1640
- Glycosphingolipid**  
synthesis, and renal cell proliferation, F476
- Golden hamster**  
circadian activity rhythms, entrainment by neonatal melatonin injections, R533  
cremaster muscle stimulation, vasodilatory response to, ATP-sensitive potassium channels in, H1649  
hemorrhagic shock in, systemic and microvascular  $\text{PO}_2$  dissociation during, H827
- Golden-mantled ground squirrel, hibernation**  
gonadal steroidogenesis and, R1240  
temperature sensitivity of sleep homeostasis during, R777
- Goldfish**  
hepatocytes, membrane function and energy metabolism in, R614  
ovarian function, epidermal growth factor and, R1065
- Golgi apparatus**  
role of myristylation in membrane attachment and function of  $\text{G}\alpha_{1-3}$  in, C1362
- Golgi complex**  
structure, in rat exocrine pancreas, G939
- Gonadotropin-releasing hormone**  
and nutritional effects on reproductive physiology, E1
- G protein-linked receptor kinase**  
 $\text{GRK}_2$ , cDNA from S49 murine lymphoma cells, cloning of, C885
- G proteins**  
in activation of phospholipase D in vascular smooth muscle, H1031  
age-related alterations in, and regulation of rat liver adenylyl cyclase during aging, E126  
 $\text{AT}_{1a}$  and  $\text{AT}_{1b}$  receptors in adrenocortical Y-1 cells and, E831  
and ATP-induced outward current in adult rat hepatocytes, G307  
concentrations, after weight loss, in obesity, E739  
 $\text{G}\alpha_{1-3}$ , on Golgi membranes, myristylation of, C1362  
phospholipase C regulated by, annexin II inhibition of, F682  
regulation of  $\text{HCO}_3^-$  absorption in medillary thick ascending limb, F711  
small, in epithelial tissues, G515
- Granulocyte macrophage-colony stimulating factor**  
and surfactant metabolism, L650
- Granulosa cells**  
ovarian, differentiation, C812
- Gray seals**  
metabolic and hormonal changes during molt, R1051
- Gregg effect**  
dynamic, H492  
steady-state, H492
- Growth**  
fetal  
*see also* Intrauterine growth retardation  
retardation, in sheep, R246  
selective promotion by IGF-I, in sheep, R1148  
postnatal, in mammals, E802
- Growth factor, see Epidermal growth factor; Fibroblast growth factor; Insulin-like growth factor-I; Vascular endothelial growth factor**
- Growth hormone**  
effects on cortical bone growth and maturation, in dwarf rats, E51  
effects on metabolic acidosis in surgically stressed rats, E968  
and exercise-induced neutrophil activation, R838  
IGF-I and  
effects on glucocorticoid-induced protein catabolism, E552  
during insulin-induced hypoglycemia, E545  
pituitary, and non-rapid-eye-movement sleep, E230  
regulation of cytosolic calcium in rat adipocytes, C1478  
secretion  
effects of somatostatin on, E975  
regulation of, E1050  
sex differences in, E107  
therapy, for preterm infants with intrauterine growth retardation, E451
- Growth hormone binding protein**  
response to undernutrition, developmental differences in, E646
- Growth hormone-releasing hormone**  
effects on sleep, in intact and hypophysectomized rats, E230  
nonselective cation current activated by, in human GH-secreting adenoma cells, E1050  
and voltage-gated sodium current in cultured rat pituitary cells, C125
- GTP-binding proteins, see G proteins**
- $\beta$ -Guadinopropionic acid**  
effects on skeletal muscle AMP deaminase activity, C67
- Guanine nucleotide-binding proteins, see G proteins**
- Guanosine 3',5'-cyclic monophosphate**  
and effect of nitrates in renal proximal tubule, F106  
and effects of nitric oxide on platelet surface glycoproteins, H1640  
extracellular, effects on sodium transport in LLC-PK<sub>1</sub> cells, F283  
and IL-1 $\beta$ -induced cerebrovascular vasodilation, in newborn pig, R1044  
and inhibition of endothelin-1 by endogenous atrial natriuretic peptide, H1819  
in modulation of airway cilia, L745  
and nitroprusside-stimulated colonic secretion, C832  
regulation of calcium-activated potassium channels in mesangial cells, C1773  
release, by collecting duct cells and SV40, C1051  
role in regulation of osteoblastic metabolism by natriuretic peptide, C1311  
stimulation of bile formation, G418  
vascular smooth muscle, and angiotensin II-induced vasoconstriction, H1914
- Guanosine 5'-O-(3-thiophosphate)**  
differential effects on acid and pepsinogen secretion by gastric glands, G962
- Guanosine 5'-triphosphate-binding proteins, see G proteins**
- Guanosine triphosphate cyclohydrolase**  
and cytokine-induced nitric oxide production by cardiomyocytes, H1864
- Guanylate cyclase**  
prostaglandins and, in inhibition of ET-1 secretion from endothelial cells, H1342  
stimulation by nitric oxide, in renal proximal tubule, F106  
in vascular smooth muscle cells, and nitric oxide-mediated relaxation in coronary arteries, H538
- Guanylin peptides**  
in opossum colonic mucosa, G708
- Guanylyl cyclase**  
signaling, and mesangial cell thromboxane A<sub>2</sub> receptors, F31  
type B, distribution and regulation in rat nephron, F311
- Gustatory function**  
*see also* Taste sense  
saline-induced recovery of, in sodium-restricted rats, R704

## H

**Halichoerus grrypus, see Gray seals**

**Halothane**  
and rapid cooling contracture in skinned myocardium, H1662

**Hamster**  
European, *see* European hamster  
Siberian, *see* Siberian hamster  
Syrian (golden), *see* Golden hamster

## SUBJECT INDEX TO VOLUME 270

- Head-down tilt**  
restoration of plasma volume after, exercise-induced, R3
- Heart**  
*see also Cardiac hypertrophy; Cardiomyocytes; Ischemia; Ischemia/reperfusion; Myocardium*  
autonomic tone, assessment of, H2081  
contractile efficiency, constancy and variability, mechanisms, H1501  
contractility, suppression by mechanical vibration, H583  
corticosteroid receptor mRNA regulation in, C1343  
development  
asymmetric currents in gap junction channels during, C276  
and cardiomyocyte response to vasoactive peptides, H857  
changes in ATP use during graded hypoxia in, *in vivo*, H216  
cytochrome oxidase subunit VIIa isoforms in, H567  
Doppler studies, in aging and hyperthyroid mice, H2204  
embryonic chick  
blood volume changes and arterial impedance in, H1597  
calcium transients in, H518  
SERCA 2 expression in, effect of thyroid hormone on, H638  
ferret, length-dependent activation in, H1940  
fetal  
*see also Heart, development*  
sympathetic innervation and vascularity of, H33  
vasculogenesis/angiogenesis in, H33  
function  
in elasmobranchs, H1766  
exercise- and hypertension-induced changes in cardiac collagen and, H151  
perinatal, in lambs, H741  
guinea pig, as model for studying atrioventricular nodal conduction and triggered activity in *vivo*, H1850  
L-type calcium channels, inhibition by 1,2-diacyanoyl-sn-glycerol, C655  
mammalian, sodium-dependent proton extrusion in, stimulation by angiotensin II, C1687  
mechanics, H1015, H1279, H2169  
mathematical modeling of, H281  
studied in intact ferret heart, H1940  
mitochondrial metabolism  
substrate specificity of, H1398  
tricarboxylic acid cycle activity, after myocardial ischemia, H72  
mNa<sub>2,3</sub> in, immunolocalization in mouse, C688  
myocardial Na and Ca during ischemia-reperfusion, effects of bumetanide on, C608  
myofibrillar Mg<sup>2+</sup>-ATPase activity, heart rate-related variation in, C1271  
neonatal, ATP use during graded hypoxia and reoxygenation, *in vivo*, H216  
5'-nucleotidase in, soluble forms of, H1493  
rat  
β-adrenergic receptor trafficking in sepsis, R254
- reduced contractile reserve, energetic basis for, H1207  
soluble forms of 5'-nucleotidase in, H1493
- sodium and calcium currents in, effects of sphingosine on, C645  
sodium channels, expression in peripheral neurotumor-derived cell line, C1522
- sodium-potassium ATPase α-isozyme expression in, C361
- vibration, mechanoenergetics of, H583  
whole, length-dependent activation in, H1940
- Heart failure**  
canine model of  
effects of ACE inhibition and β-blockade on skeletal muscle fiber types in, H115  
inhibition of endothelin-1 by endogenous atrial natriuretic peptide in, H1819  
experimental models of, natriuretic peptide responses to, H594  
hemodynamic effects of ACE inhibitors in, bradykinin pathway in, H1985  
moderate, canine model, effects of ACE inhibition and β-blockade on skeletal muscle fiber types in, H115  
pathophysiology, H1819
- Heart rate**  
*see also Arrhythmias*  
age-related changes in, in rat heart, H897  
autonomic control of, in obese hypertensive dogs, R541  
baroreflex control of, nitric oxide and, in conscious rabbits, R1361  
effects on cardiac myofibrillar Mg<sup>2+</sup>-ATPase activity, C1271  
history, effects on transient atrioventricular nodal responses, H2070  
and hypothalamic metabotropic receptor stimulation, in rats, R1115  
lung volume and, age and autonomic effects on relationships between, H1825  
regulation  
after exercise, R420  
in aging rats, R310  
response to gravitational changes during exercise, H2132  
variability  
autonomic stimulation and, H1825, H2081  
power spectral analysis in investigation of, H1672  
vagally mediated, H2081, H2143
- Heart ventricles**  
*see also Arrhythmias; Cardiomyocytes; Heart rate*  
contractility  
decreased, in sepsis, H1446  
during endotoxemia, effects of nitric oxide synthase inhibition on, H1979  
intracellular feedback control loops, H338  
diastolic suction, H1015  
with zero left atrial pressure in open-chest dogs, H1217  
fetal mouse, delayed rectifier potassium current in, H2088  
function, changes at birth, in lambs, H741
- left  
contractility during endotoxemia, effects of nitric oxide synthase inhibition on, H1979  
diastolic suction, with zero left atrial pressure in open-chest dogs, H1217  
endotoxin-induced systolic depression, H485  
intracellular feedback control loops and contractility in, H338  
ischemic, regional wall mechanics in, H398  
mass, arterial elasticity and, H981  
mechanics, H1279, H1940  
regionally stunned, myocardial relaxation in, H509  
residual strain in, myocardial swelling and, H1736  
restoring forces, assessed with left atrial pressure clamps, H1015  
volumetric conductance catheter, for rats, H1509  
work efficiency of, H1279  
mechanics, H1015, H1279  
studied in intact ferret heart, H1940  
wall vibration, negative inotropism of, mechanoenergetics of, H583
- Heat shock proteins**  
expression during sequential ischemia/reperfusion, and contralateral skeletal muscle salvage, H1407  
HSP27, functional properties of, C903  
HSP70, protective effect of against endotoxin, C1017  
in intestinal epithelial cells, C429  
HSP72, TNF-α-induced expression, in feline cardiomyocytes, H1231  
and hyperthermia-mediated cardioprotection, H1165  
response deficits in cold-exposed diabetic mice, R525
- Heat stress**  
after water deprivation, in rats, cardiovascular and sympathoadrenal responses to, R652  
effects on survival of renal epithelial cells after ATP depletion, F1057
- Helicobacter pylori**  
hypergastrinemia associated with, pathogenesis, G783
- Hematocrit**  
in isolated rat lung, effects on pulmonary vascular responsiveness to nitric oxide synthase inhibitors, H1757
- Heme oxygenase**  
nitric oxide-mediated activation, H107
- Hemochromatosis**  
effects of vitamin E in, G376
- Hemodynamics**  
coronary, during brief coronary occlusions at three levels of collateral function, in horses, H1893  
disordered, in β-thalassemia major, enhanced red blood cell aggregability and, H1951  
in early pregnancy, in rats, H1779  
embryonic vascular, effects of blood volume on, H1597  
hemorrhage-induced alterations, role of nitric oxide in, H1616  
of heterogeneous microvascular networks, H545  
pulmonary, at varied pH, endothelial modulation of, H252

SUBJECT INDEX TO VOLUME 270

- Hemodynamics (continued)**  
 regional, hyperglycemia-induced changes in, H2014  
 response to acute central hypovolemia, H1538  
 in sleep, in swine, H723
- Hemoglobin**  
 cross-linked, and cerebral oxygen transport, H466  
 inhibition of effects of nitric oxide on platelet surface glycoproteins, H1640  
 oxygen saturation, and pH, in rat cremaster vessels, H1453
- Hemorrhage**  
 activation of NF- $\kappa$ B in murine lung mononuclear cells vivo, L729  
 blood volume restitution after, model of, R1163
- Heparan sulfate proteoglycan**  
 mesangial synthesis, TGF- $\beta$ 1 and, F812
- Heparin**  
 commercial preparations, differential effects on sodium/hydrogen exchange and growth of pulmonary artery smooth muscle, L260  
 nonanticoagulant, beneficial effects after hemorrhagic shock, H1294
- Hepatic encephalopathy**  
 reversibility studies, E1037
- Hepatic triglyceride lipase**  
 periprandial activity, E718
- Hepatoblastoma cells**  
 Hep G2, functional studies of human cholesterol 7 $\alpha$ -hydroxylase in, G401
- Hepatocellular system**  
 function after hemorrhagic shock, beneficial effects of nonanticoagulant heparin on, H1294
- Hepatocyte growth factor**  
 mitogenic action on lung epithelial cells in vivo, L1031  
 as pulmotropic factor, L1031
- Hepatocytes**  
 acetyl-CoA carboxylase activity, effects of extracellular ATP on, G701  
 anoxic injury and free radical formation in, effects of pyruvate on, G535  
 ATP-induced rise in apamin-sensitive calcium-dependent potassium conductance, G307  
 bile acid uptake into, stimulation by cAMP, G339  
 caffeine response in, C508  
 dysfunction during sepsis, mechanism of, R927  
 ion homeostasis in, and anoxia, R614  
 from little skate, ATP receptors on, R561  
 membrane-metabolic coupling in, and anoxia, R614  
 Na $^{+}$ /H $^{+}$  antiport in, epidermal growth factor and, C841  
 necrosis, during anoxia, G238  
 oleate uptake, competitive inhibition by palmitate, G385  
 secretion of bile salt derivatives, in skate, G887  
 volume-sensitive anion channels in, C57
- Hepatoma cells**  
 c-myc-induced apoptosis, G60
- Hexokinase**  
 distribution in live smooth muscle cells, metabolic modulation of, C488
- regulation of glucose kinetics,  $\beta$ TC3 cells, E846
- Hexose transporters, in Caco-2 cells**  
 after oncogene transfection, G314  
 regulation, G976
- Hibernation**  
 of European hamster, R304  
 of golden-mantled ground squirrels  
 effects of gonadectomy on, R1240  
 temperature sensitivity of sleep homeostasis during, R777
- His bundle electrogram**  
 recording in vivo, novel guinea pig heart model for, H1850
- Histamine**  
 derived from mast cells, in inosine-induced vasoconstriction, H560  
 modification of intrinsic cardiac and intrathoracic extracardiac neurons, and cardiodynamics, R906  
 synthesis in gastric mucosa, gastrin stimulation of, G463
- Histamine receptors**  
 $H_1$ , in intrinsic cardiac and intrathoracic extracardiac neurons, R906
- Histaminergic neurons**  
 in intrinsic cardiac and intrathoracic extracardiac ganglia, R906
- Histidine decarboxylase**  
 in gastric mucosa, G476  
 gene expression in rat, regulation, G619
- Histogrammetry**  
 in female rats, E407  
 in rat tibiae, after dynamic loading, E419
- HOE-694, see (3-Methylsulfonyl-4-piperidinobenzoyl)guanidine methanesulfonate**
- Hormone-sensitive lipase**  
 after weight loss, in obesity, E739
- Host defense**  
 phagocytosis by alveolar macrophages in, surfactant protein A-stimulated, L677
- Human immunodeficiency virus**  
 envelope glycoprotein 120, effects on sleep and cytokine mRNA expression in rats, R963
- Hydrochloric acid**  
 and initiation of esophageal secondary peristalsis in opossum, G927
- Hydrogen ATPase**  
 and activation of apical membrane of type A intercalated cells, F649  
 and plasticity in epithelial polarity of renal intercalated cells, C1571  
 vacuolar, expression of B2 isoform of, in osteoclasts, C382
- Hydrogen peroxide**  
 and coronary artery oxygen-elicited responses, in calf, H1044  
 endothelial cell injury induced by, prevention by nitric oxide donor, L931
- Hydrogen-potassium ATPase**  
 apical, in intercalated cells of cortical collecting duct, F518, F539  
 colonic,  $\alpha$ -subunit, in renal inner medullary collecting duct cells in culture, F852  
 gastric,  $\alpha$ -subunit, in renal inner medullary collecting duct cells in culture, F852  
 in inner medullary collecting duct cells, role in intracellular pH regulation, F852
- in outer medullary collecting duct cells, F116  
 $\alpha$ -subunit, expression in kidney  
 effects of hypokalemia on, F557  
 in inner medullary collecting duct cells in culture, F852
- Hydrolases**  
 degradative, contribution to hepatocyte necrosis during anoxia, G238
- Hydronephrosis**  
 experimental, meprin expression in, F669
- 6-Hydroxydopamine**  
 effects on neuropeptide Y release in rat paraventricular nucleus, E596
- 20-Hydroxyeicosatetraenoic acid**  
 in rat renal arterioles and calcium-activated potassium channel, R217, R228  
 formation and actions, R217
- 11 $\beta$ -Hydroxysteroid dehydrogenase**  
 and glucocorticoid activities in lymphoid organs, R1296  
 type 2, substrate and inhibitor specificity of, E900
- 5-Hydroxytryptamine**  
 activation of sensory pathways, in intestinal peristalsis, G778  
 in cholera toxin-induced mucin secretion in rat small intestine, G1001  
 effects on gastrointestinal motility, G992  
 in regulation of gastric contractions by motilin, G20
- 5-Hydroxytryptamine receptors**  
 on sensory neurons containing calcitonin gene-related peptide, activation, in intestinal peristalsis, G778
- 25-Hydroxyvitamin D-1 $\alpha$ -hydroxylase**  
 activity, E483
- Hyperaminoacidemia**  
 in regulation of leucine metabolism, in obesity, E273
- Hyperammonemia**  
 with portacaval shunting, E1037
- Hypercapnia**  
 ventilatory response to, in endothelin-1-deficient mice, R1279
- Hypercholesterolemia**  
 trans fatty acid-induced, G268
- Hyperemia**  
 see also Ischemia/reperfusion; Oxygenation  
 functional, reduction after blockade of ATP-sensitive potassium channels, H1649  
 gastric, cholecystokinin-evoked, G253  
 gastrointestinal, in diabetes, mediators of, G684  
 reactive, endothelium-derived nitric oxide in, H1435
- Hypergastrinemia**  
 Helicobacter pylori-associated, pathogenesis, G783
- Hyperglycemia**  
 effects on insulin secretion, clearance, and action, E251  
 effects on mesangial cells, F812  
 local 24-h, and endothelial reactivity in humans, H2014  
 postabsorptive, mechanisms of, in streptozotocin diabetic rats, E752
- Hyperinsulinemia**  
 in uremia, effects of correction of anemia by erythropoietin, F839

## SUBJECT INDEX TO VOLUME 270

- Hyperketonemia**  
cerebral metabolism and blood flow in, E746
- Hyperosmolality**  
effects on sodium-potassium ATPase expression in inner medullary collecting duct cells, F728  
regulation of, F711
- Hyperosmolarity**  
inhibition of sodium/hydrogen exchangers NHE2 and NHE3, G431
- Hyperoxia**  
antioxidant enzyme expression in rat lung during, L810  
increased lung  $\gamma$ -glutamyl transpeptidase in, L115  
lung injury in and EGF receptor network, L242  
lung  $\gamma$ -glutamyl transpeptidase and, L115  
protection against, in preterm rabbits, L446  
protein S-glutathiolation in, L115  
in rat pulmonary microvascular endothelial cells, L517  
proteins responsive to, in rat pulmonary microvascular endothelial cells, L517  
type 2 cell epidermal growth factor receptor network in, L242
- Hyperparathyroidism**  
pathophysiology of, F454
- Hyperpnea**  
effects on expression and distribution of surfactant proteins and lysozyme, L320
- Hyperprolactinemia**  
calcium channel blockade-induced, E96
- Hypertension**  
*see also Liddle's disease*  
arterial remodeling in response to, rat models of, H1323  
chronic, and sympathovagal interplay in blood pressure regulation, in rats, H2143  
collagen changes induced by, and cardiac function, in rats, H151  
erythropoietin-induced, and endothelin, R744  
in genetically obese rats, effects of weight cycling in, R864  
insulin-induced, in rats, R450  
and insulin resistance, induced by L-NMMA, E1058  
muscle performance and vessel density in, in reduced renal mass rat model, H661  
myogenic tone of mesenteric arteries in, H1  
pathogenesis, E946  
amylin in, F289  
annexin II in, F682  
prevention in rat, pioglitazone and, R660  
rat model of  
endothelial alterations in, H2125  
monocyte adhesion in, H2125  
and regenerative muscle growth, in spontaneously hypertensive rat, R153  
and renal sodium transporters, F1004  
renovascular nitric oxide activity in, R118
- rat model, midwall left ventricular mechanics in, sodium intake and, H628  
reversal, by high-calcium diet, in deoxy-corticosterone-NaCl-treated rats, H1250
- salt-sensitive, in mRen-2 transgenic rats, paraventricular AT<sub>1</sub> receptors in, R1178  
in spontaneously hypertensive rats angiotensin-II induced renal vasoconstriction in, F945  
angiotensin-II induced structural and functional renal alterations in, F229  
exaggerated tubuloglomerular feedback activity in, F749  
renal DA<sub>1</sub>/DA<sub>2</sub> dopamine receptor interactions in, F90  
and systemic nitric oxide inhibition, F845  
in transgenic rat TGR(mREN2)27, E919
- Hyperthyroidism**  
mouse model, noninvasive indexes of cardiac systolic and diastolic function in, H2204
- Hypertonicity**  
*see also Osmoregulation*  
CD9 antigen mRNA induction by, in renal epithelial cells, C253
- Hypertrophic stress**  
on glial cells, protective effect of  $\alpha$ -B-crystallin in, C903
- Hypertriglyceridemia**  
effects on insulin action and insulin receptor autophosphorylation, E424
- Hypocapnia**  
brain capillary perfusion heterogeneity during, in rats, H1441
- Hypoglycemia**  
glucagon secretion in, pancreatic sympathetic nerves and, E20  
insulin-induced, recovery from, IGF-I and, E545  
regional cerebral blood flow response to physiological brain activation in, H554  
regional hepatic, catecholamine secretion and, R1307
- Hypokalemia**  
effects on renal expression of gastric H<sup>+</sup>-K<sup>+</sup>-ATPase  $\alpha$ -subunit gene, F557
- Hyposmolality**  
and volume regulation in rat brain glial cells, C1319
- Hypotension**  
hemorrhagic, cerebral blood flow during, H1350  
postexercise, R420  
vasopressin V<sub>1</sub>-receptor blockade during, R356
- Hypothalamic-pituitary-adrenal axis**  
in prevention of postinfection behavioral disturbance, R192
- Hypothalamic-pituitary axis**  
suppression by lipocortin-1, in rat, R54
- Hypothalamus**  
dorsomedial, metabotropic glutamate receptors, in rats, R1115  
lateral area dopamine concentration in, and food intake, R315  
lesions in rats, body composition and, R738
- NMDA receptors and glutamate in, and feeding behavior, R443  
monoaminergic activity in, diet-induced, in obese Zucker rats, E677  
neuropeptide Y dissociation from brown adipose tissue uncoupling protein, thermoneutrality and, R111  
mRNA levels, in gold thioglucose-treated mouse, R1208  
 $\kappa$ -opioid receptors, osmotically induced vasopressin release and, E367  
paraventricular nucleus, vasopressin release into, neural input and, E787  
stimulation in rat, thermoregulation during, R605  
supraoptic nucleus, vasopressin release into, neural input and, E787  
ventromedial, lesions in rats, and obesity, E995
- Hypothermia**  
cerebral arterial contraction in response to, mechanism of, in newborn lamb, H645  
endotoxin shock-associated, in rats, R693
- Hypothyroidism**  
renal hemodynamic abnormalities of, adenosine and, F254
- Hypotonicity**  
MDR1/P-glycoprotein function and, C1447, C1453  
swelling-induced intracellular calcium increase with, C1790
- Hypovolemia**  
acute central, hemodynamic response to, afferent signals in, H1538
- Hypoxemia**  
of acute lung injury, in dogs, attenuation by cytochrome P-450 inhibition, H1355  
high-altitude, effects on  $\alpha_1$ -adrenergic receptors in uterine artery, in sheep, H1001
- Hypoxia**  
anapnoea and, R169  
cerebral blood flow regulation during, potassium in, H45  
chemical reperfusion injury after, in cardiomyocytes, H1334  
sodium-potassium balance after, in rat heart, H1303  
chronic and glutathione-dependent detoxication in rat small intestine, G725  
hyperpermeability and ATP depletion induced by, in Caco-2BBe cells, G1010  
nitric oxide synthase expression in, in rat lung, L164  
pulmonary vasodilation after, H888  
contraction of isolated pulmonary contractile interstitial cells in, L962  
effects on cyclooxygenase-2 gene expression in rat lung, L872  
effects on glutamate transport and metabolism in cardiomyocytes, H1825  
effects on xanthine dehydrogenase and xanthine oxidase activity, L941  
embryonic cardiomyocyte energy utilization and supply during, L44  
graded, developmental changes in ATP use during, in heart *in vivo*, H216

## SUBJECT INDEX TO VOLUME 270

- Hypoxia (continued)**
- integration of vascular, contractile, and metabolic responses to, effects of maturation, R895
  - microheterogeneity of myocardial blood flow in, H435
  - pial artery vasodilation induced by, in newborn piglet, H869
  - pressor responses to, in pentobarbital-anesthetized rats, R348
  - pulmonary artery response to, ATP-sensitive potassium channel and, L803
  - and reoxygenation, effects on endothelium-dependent vasodilation, R1126
  - reoxygenation injury after, in vascular endothelial cells, H945
  - ventilatory response to, in endothelin-1-deficient mice, R1279
- I**
- Ictalurus punctatus*, see Channel catfish**
- IDDM**, *see* **Diabetes mellitus, insulin-dependent (IDDM)**
- Ileal artery**
- remodeling, in response to locally altered blood pressure, indicial functions of, H1323
- Ileum**
- arterioles, capsaicin-sensitive neural circuits, in guinea pig, G948
- Image analysis**
- computer-assisted video-based, for spatial characterization of contracting cardiomyocytes, H769
  - of red blood cell aggregability, in β-thalassemia major, H1951
- Immediate early genes**
- c-fos*
    - expression in brain, after abdominal surgery, R888
    - spinal expression of, after lower urinary tract irritation, in rat, R990
    - response during bone formation, E937
- Immune function**
- 11β-hydroxysteroid dehydrogenase and, R1296
- Impaired glucose tolerance**
- IGFBP-1 overexpression in transgenic mice and, E565
  - insulin secretion and, E572
- Indocyanine green**
- clearance, as indicator of hepatocellular function, R927
- Indomethacin**
- and microvascular leakage, G363
- Infarction-reperfusion, *see* Ischemia/reperfusion**
- Infection, *see* Sepsis**
- Infertility, nutritional, E1**
- in hamsters, R978
- Inflammation**
- in adult respiratory distress syndrome, L159
  - airway
    - see also* **Asthma**
    - adenovirus-mediated, L535
    - chronic infection-induced, effects of sensory denervation on, L393
    - grain dust-induced, in mice, endotoxin in, L1052
    - IL-5 and eosinophilic airway infiltration in, L368
  - neurogenic, L393, L404
  - CD18 in, and leukocyte infiltration, H183
  - effects of adenosine in, and endothelial cell activation, C522
  - E-selectin upregulation in vivo and, H183
  - hepatic, cysteine-rich intestinal protein expression in, G613
  - intestinal
    - see also* **Colitis**
    - cysteine-rich intestinal protein expression in, G613
    - indomethacin-induced, and bile secretion, in rats, G804
    - intravascular, cell-cell interactions in, L28
    - nitric oxide synthase in, G225
    - nitrogen dioxide and peroxynitrite in, H1038
    - pulmonary vascular, endotoxin in, L28
    - T cell-monocyte coculture model of, C418
  - Inflammatory bowel disease**
  - nitric oxide in, G225
  - Inflammatory mediators**
  - synthesis in lung fibroblasts, effects of surfactant on, L159
- Influenza**
- iscom vaccine, transport in Caco-2 cells, G554
- Inosine**
- vasoconstriction caused by, secondary mediators in, H560
- myo-Inositol**
- osmoregulatory role in JS1 Schwann cells, F90
- Inositol phosphates**
- and α<sub>1</sub>-adrenergic receptor density in cerebral arteries, H915
- Inositol 1,4,5-trisphosphate receptors**
- expression in *Xenopus* oocytes, and calcium signaling, C1255
- Insulin**
- action
    - and adiposity, relationships to muscle morphology, R1332
    - in adult rats, after early growth retardation, E946
    - after resistance exercise, in rats, E313
    - in centenarians, E890
    - effects of prolonged glucose infusion on, E251
    - hypertriglyceridemia and, E424
    - in inhibiting proteolysis, during puberty, E79
    - in activation of muscle protein synthesis after feeding, E614
    - administration, effects on kininogen in human plasma, H1071
    - anomalous response to, in male offspring of protein-malnourished rats, E552
    - cellular actions, diverse signaling pathways in, E375
    - clearance
      - effects of prolonged glucose infusion on, E251
      - somatostatin and, E1043
    - and diet-induced obesity, in rats, R456
    - dilation of isolated skeletal muscle arterioles, H2120
    - and effects of GLP-1 on glucose turnover in rats, E1015
  - and effects of IGF-I on muscle protein synthesis, E60, E802
  - effects on acyl-CoA synthetase gene transcription in adipocytes, E873
  - effects on β-agonist and forskolin-stimulated lipolysis in adipocytes, C562
  - effects on glucose transport and phosphorylation in muscle, three-tracer study of, E170
  - effects on ischemia tolerance in rat heart, H1607
  - effects on lipoprotein lipase in rat adipose cells, C1461
  - effects on regional vascular resistances, in rats, R450
  - effects on sodium-potassium pump, in oxidative vs. glycolytic muscles, C1421
  - hemodynamic effects, in rats, R450
  - hepatic clearance, lactate and, R682
  - inhibition of pancreatic bicarbonate secretion, G163
  - plasma levels
    - oral sensory stimulation and, R1371
    - in uremia, effects of correction of anemia by erythropoietin, F839
  - regulation of eIF-4E and PHAS-I association in muscle, C705
  - in regulation of fatty acid oxidation, E733
  - in regulation of leucine metabolism, in obesity, E273
  - release, and glucose metabolism, in βHC9 cells, E846
  - resistance, *see* **Insulin resistance**
  - secretion
    - effects of morning cortisol elevation on, E36
    - impaired glucose tolerance and, E572
    - in polyamine-depleted pancreatic β-cells, C1105
    - prehepatitic, E251
    - pulsatile, effects of somatostatin on, E1043
    - in response to P<sub>2</sub> purinoceptor agonists, in Zucker diabetic rats, E504
  - sensitivity, *see* **Insulin sensitivity**
  - signal transduction, hypertriglyceridemia and, E424
  - stimulation of sodium pump activity, in rabbit aorta, H1278
  - trophic actions in mouse brown adipocytes, R1287
- Insulin-dependent (type I) diabetes mellitus (IDDM), *see* Diabetes mellitus, insulin-dependent (IDDM)**
- Insulin-like growth factor binding proteins**
- IGFBP-1
    - overexpression in transgenic mice, hyperglycemia and impaired glucose tolerance with, E565
    - sepsis-induced changes in, IL-1 and, E430
    - IGFBP-3, response to undernutrition, developmental differences in, E646
    - IL-1 and, in rats, R621
  - Insulin-like growth factor-I**
    - in activation of muscle protein synthesis after feeding, E614
    - and brown adipocytes, R1287
    - counterregulatory hormones and, E545

## SUBJECT INDEX TO VOLUME 270

- effects on metabolic acidosis in surgically stressed rats, E968  
 effects on protein synthesis  
     after feeding, E614  
     in heart and muscle, E60  
     in skeletal muscle and jejunum, in mammals, E802  
 expression during osteogenic response, E937  
 growth hormone and  
     effects on glucocorticoid-induced protein catabolism, E552  
     during insulin-induced hypoglycemia, E545  
**IL-1** and, in rats, R621  
 modulation of FGFR-1 in rabbit vascular smooth muscle cells, H1141  
 oral administration, induction of neonatal intestinal growth, R1085  
 pubertal levels, and protein turnover, E79  
 response to severe and chronic under-nutrition, developmental differences in, E646  
 selective promotion of fetal growth, in sheep, R1148  
 sepsis-induced changes in, IL-1 and, E430  
 skeletal muscle substrate metabolism and, E545  
**Insulinoma cells**  
 HIT-T15, simultaneous measurement of intracellular pH and  $\text{Ca}^{2+}$  in, C1438  
**Insulin receptors**  
 autophosphorylation, hypertriglyceridemia and, E424  
 divergent signal transduction in insulin action and, E375  
**Insulin resistance**  
 diet-induced, E292  
 and glycogen depletion, after marathon run, E336  
 hepatic, age-related, in rats, E930  
 nitric oxide synthase inhibition and, E1058  
 in obesity, E273  
 pathogenesis, muscle oxidative capacity and fiber type and, R1332  
 of puberty, E79  
 of skeletal muscle, and hepatic nerves, E858  
 in uremia, effects of correction of anemia by erythropoietin, F839  
**Insulin sensitivity**  
 after marathon run, E336  
 assessment in NIDDM, modeling for, E532  
 and IGFBD-1 overexpression in transgenic mice, E565  
 lactate production by adipocytes and, C1061  
 muscle morphology and, E905  
 pioglitazone and, in rat, R660  
**Integrins**  
 $\beta_2$ , in stimulation of neutrophil adhesion to bronchial epithelial cells, L80  
 alveolar, L3  
 inhibition of endotoxin-induced DNA strand breakage in pulmonary endothelial cells, L689  
**Intercellular adhesion molecule-1**  
 expression in endothelial cells, H807  
     in hypertensive rats, H2125  
     gene regulation, TNF- $\alpha$  and, L714  
     in human vascular endothelial cell line, regulation by dexamethasone, C552  
     in stimulation of neutrophil adhesion to bronchial epithelial cells, L80  
**Interferon- $\gamma$**   
 internal calcium pool depletion induced by, in salivary gland cells, C514  
 and muramyl tripeptide, liposome aerosols of, activation of mouse alveolar macrophages by, L429  
 stimulation of gastrin release from canine antral cells, G783  
 in stimulation of neutrophil adhesion to bronchial epithelial cells, L80  
**Interleukin-1 receptor antagonist**  
 effects on endotoxin fever and systemic IL-6 induction in rat, E91  
 in sepsis  
     effects on changes in IGF system and protein synthesis, E430  
     effects on visceral protein metabolism, E621  
 and visceral protein metabolism in sepsis, E621  
**Interleukin receptors**  
 IL-6, expression in bronchial epithelial cells, regulation by IL-1 and IL-6, L346  
**Interleukins**  
**IL-1**  
     continuous infusion, metabolic effects in rats, E305  
     in endotoxin-induced activation of nitric oxide synthase, in cultured rat brain cells, R326  
     and IGF-I, in rats, R621  
     mediation of sepsis-induced changes in IGF-I and IGFBP-1, E430  
     and nitric oxide production by cardiomyocytes, H1864  
**IL-1 $\alpha$**   
     induction of mannose receptors and apoptosis in glomerular mesangial cells, C1595  
**IL-1 $\beta$**   
     and activation of mitogen-activated protein kinases in renal mesangial cells, F634  
     cerebrovascular effects in newborn pig, R1044  
     effect on sleep, in rats, R830  
     expression in central nervous system, and sleep alterations in HIV infection, R963  
     expression in rat lung, and endotoxin-induced group II PLA<sub>2</sub> activation, L752  
     intracerebroventricular injection of, and IL-6 secretion from brain, R518  
     and matrix metalloproteinase-9 expression in mesangial cells, F123  
     in postoperative gastric ileus, R556  
     regulation of apolipoprotein B secretion by Caco-2 cells, G94  
     release in hypertensive rats, H2125  
     and renal sympathetic outflow, in rats, R479  
**IL-2**, stimulation of gastrin release from canine antral cells, G783  
**IL-4**, effects on collagen synthesis by mesangial cells, F447  
**IL-5**  
     effects on airway, in guinea pig, L368  
     guinea pig, production and characterization in baculovirus-infested insect cells, L1002  
**IL-6**  
     autocrine and paracrine functions in airway epithelial cells, L346  
     in hepatocellular dysfunction during hyperdynamic sepsis, R927  
     regulation of apolipoprotein B secretion by Caco-2 cells, G94  
     secretion from brain, effect of intracerebroventricular injection of IL-1 $\beta$ , R518  
     synthesis in lung fibroblasts, effects of surfactant on, L159  
     systemic induction, inhibition by interleukin-1 receptor antagonist, E91  
**IL-10**, expression in central nervous system, and sleep alterations in HIV infection, R963  
 pathophysiological concentrations in cerebrospinal fluid, anorexia induced by, R1394  
**Intestinal cells**  
*see also Crypt cells; Epithelial cells*  
 ATP generation in, G852  
**Caco-2**  
     apolipoprotein B secretion by, regulation by cytokines, G94  
     cytochrome P-4501A1 in, G976  
     2-deoxyglucose transport and metabolism in, G153  
     regulation of sucrase-isomaltase and hexose transporters in, G976  
     restitution stimulated by growth factors, role of prostaglandins in, G757  
     succinate and glutamate ester metabolism in, G852  
     sugar transport heterogeneity in, G833  
     transfected with *ras* and polyoma middle T oncogenes, hexose transporters in, G314  
     transport of influenza iscom vaccine in, G554  
**Caco-2BBe**, hyperpermeability and ATP depletion in, G1010  
 transimmortalized mouse (m-IC<sub>02</sub>), crypt phenotype maintained by, C1666  
**Intestinal motility, see Gastrointestinal motility; Peristalsis**  
**Intestine**  
*see also Colitis; Colon*  
 amino acid metabolism, during starvation, G298  
 chylomicron remnant uptake by, G203  
 cysteine-rich intestinal protein expression in, and inflammation, G613  
 dimensions, thermal modulation in channel catfish, R1037  
 flounder, sodium-phosphate cotransporter, F937  
 glucose flux into and out of, regulation, G541  
 neonatal, growth induced by orally administered IGF-I, R1085  
 peptide transport in herbivorous and carnivorous teleosts, R939, R948  
**Intestine, small**  
 choleranic mucin secretion, in rat, role of 5-HT in, G1001  
 chronic hypoxia and glutathione-dependent detoxication in, G725

## SUBJECT INDEX TO VOLUME 270

**Intestine, small (continued)**  
 resection, compensatory enterocytic response to, G143  
**Intracellular signaling**  
 actin cytoskeleton and nuclear ion channels in, C1532  
**Intrauterine growth retardation**  
 heat-stress model, placental transport and fetal utilization of leucine in, E491  
 ovine model, R246  
**Ion channels**  
 in corneal endothelium, C975  
 in cultured human atrial myocytes, H1676  
 effect on ionic and gating current in HEK 293 cells, H1521  
 in fetal mouse heart, H2088  
 in human bronchial muscle cells, regulation, L772  
 in *Necturus* gastric mucosa antral, G449 fundic, G902  
 NMDA receptor-gated, and mechanism of action of MK-801, C1398  
 nuclear, regulation by actin cytoskeleton, C1532  
 in sinoatrial node pacemaker cells, H2108  
 in sperm, C1709  
 stretch-activated cell volume regulation and, C1790 in endothelial cells, H1462  
**Ion-coupled transport**  
 of amino acid, in LLC-PK<sub>1</sub> cells, C49  
**Ionophores**  
 metalloporphyrin, induction of anion permeability by, L386  
**Ion transport**  
 across fetal sheep alveolar epithelium, L1008  
 bumetanide-sensitive, and cell volume regulation in vascular smooth muscle, C1388  
 colonic effects of gastrin-releasing peptide on, C848, C859  
 nitroprusside-stimulated, mechanisms of, C832  
 distal airway in adult lung, L487  
 regulation, L289  
 endometrial, mechanisms of, C663  
 in fetal rat type II cells cultured on Matrigel, L577  
 in human labial acinar cells, G213  
**Iron**  
 absorption in Belgrade rats, G826  
 dietary, effects on duodenal and liver ferritin heavy and light subunit expression, G498  
 overload, hepatic peroxidation products in, and vitamin E, G376  
 transport to brain, H1149  
**I<sub>sc</sub>** *see* Short-circuit current  
**Ischemia**  
*see also* Ischemia-reperfusion cerebral, and N-methyl-D-aspartate responses, H1225  
 focal cerebral, generation of nitric oxide and superoxide during reperfusion after, C748  
 global, effects on cerebrovascular responses to N-methyl-D-aspartate, in piglets, H1225

myocardial, *see* Myocardial ischemia renal  
 altered EGF expression and thyroxine metabolism in, F9  
 recovery after, F9  
 TGF- $\beta$ 1 expression in regenerating renal tubule after, F500  
 simulated, in cardiomyocytes, reperfusion injury after, H1334  
 skeletal muscle, humoral mediation of CD18 activity after, H1515  
**Ischemia/reperfusion**  
*see also* Hyperemia; Myocardial ischemia; Oxygenation cardiac angiotensin II and, C1687  
 effects of bumetanide on myocardial Na and Ca during, C608  
 reactive oxygen species and, C1735 cardioprotective efficacy of sodium/hydrogen exchanger inhibitors in, extracellular buffer composition and, H692  
 effects on endothelium-dependent vasodilation, R1126  
 endothelial dysfunction in, H2094 hepatic bidirectional effects on *E. coli*-induced TNF- $\alpha$  gene expression, R289 glycine and, G332 leukocyte stasis in sinusoids and, G798  
 injury in cardiomyocytes, after simulated ischemia, H1334 hyperthermia-mediated protection against, in rabbit myocardium, H1165 limitation in myocardium, in baboons, pigs, and dogs, H1812 mechanisms of, H1515 in isolated working rat heart, glucose metabolism in, H817 myocardial acidic reperfusion in, H957 effects of propionate during recovery from, H2197 endothelial dysfunction after, H1634, H2094 norepinephrine kinetics during, H245 protective effect of anti-CD18 antibodies in, factors affecting, H53 P-selectin in, in dogs, H88 serpins and, H881 tricarboxylic acid cycle activity after, H72 sequential, contralateral skeletal muscle salvage and, H1407 tolerance, in rat heart, H1607  
**Ischemic preconditioning**  
 cardioprotection by, ecto-5'-nucleotidase activity in, H238 catecholamines and, in rabbit heart, H1078 comparative effects of, in baboons, pigs, and dogs, H1812 cytoprotective effect, contralateral skeletal muscle salvage and, H1407 lactate accumulation and, H38 mediated by ATP-sensitive potassium channels, activation of 5'-nucleotidase in, H1744 in rat heart, H1607  
**Islets of Langerhans**, *see* Pancreatic islets  
**Isoflurane** and rapid cooling contracture in skinned myocardium, H1662  
**Isoproterenol** effects on fibroblast-mediated collagen gel contraction, L829 effects on lipoprotein lipase in rat adipose cells, C1461 effects on protein phosphatase inhibitor-1 in ventricular cardiomyocytes, H1159  
**Ito cells**, *see* Lipocytes

## J

**Jejunum**  
 motility, 5-hydroxytryptamine-induced, G992  
 mucosal oxygenation in, effects of endotoxemia and dopamine on, G667 protein metabolism, in sepsis, E621 protein synthesis, postnatal, in mammals, E802 proximal, apolipoprotein A-IV synthesis in, G277 unstirred layer in celiac sprue, G487 normal, measurement of, G487

## K

**Kallikrein-kinin system** effects of salt loading on, F425  
**Ketoisocaprate** constant infusion method, in measurement of fractional synthetic rates of muscle protein, E67  
**Ketone bodies** effects on gluconeogenesis during fasting, E822 metabolism, in human brain, E746  
**Kidney** *see also* Renal sympathetic nerve activity acid secretion, F691 afferent arterioles chloride channels in, effects of blockade by DIDS, F718 endothelial calcium in, F170 amino acid compartmentation in, F154 angiotensin II receptors, regulation of, E810 arterioles calcium-activated potassium channels in, F69, R217, R228 20-hydroxyeicosatetraenoic acid formation and actions in, R217 stereospecific effects of epoxyeicosatrienoic acids on, F822 autosomal dominant polycystic kidney disease, cystic fibrosis transport regulator in, C389 blood flow angiotensin-(1-7) and, F141 angiotensin II and, F398, F945 cortical and medullary, during water restriction, R1257 dynamics, and spontaneous blood pressure fluctuations, F82 and effect of L-arginine on myoglobin-induced renal vasoconstriction, F784 endothelial calcium in afferent arterioles and, F170

## SUBJECT INDEX TO VOLUME 270

- medullary, autoregulation of, F833  
**cells, see Kidney cells**
- collecting ducts, active NaCl reabsorption, effects on renal concentrating mechanism, F904
- collecting ducts, cortical  
 ADH-stimulated osmotic water permeability in, inhibition by nitric oxide, F206
- ANP-stimulated cGMP release by cells in, C1051
- basolateral membrane potassium channels, regulation by nitric oxide, C1336
- differential expression of protein kinase C isoforms in, F766
- feedback regulation of sodium channels in, PKC activation and, F371
- M-1 mouse cells, sodium channels in, C998
- postnatal maturation of sodium transport in, F391
- transcellular sodium and calcium transport in, F53
- collecting ducts, inner medullary dual signaling pathways for  $V_2$  vasoressin receptor in, F623
- net acid secretion in, ammonium and, F432
- collecting tubule, regulation of  $H^+$  secretion by, C1571
- cortex  
 amylin binding in, F289
- meprin expression, in experimental hydronephrosis, F669
- corticosteroid receptor mRNA regulation in, C1343
- development, removal of intercalated cells during, F575
- diseases of, *see Kidney diseases*
- dissociated proximal tubule cells, maintenance of epithelial polarity in suspension, C1843
- embryonic, origin of glomerular endothelial and mesangial cells in, F890
- epithelial cells  
 $NH_4Cl$ -induced hypertrophy, C932
- osmotic regulation of CD9 antigen mRNA in, C253
- failure, *see Kidney failure*
- flounder, sodium-phosphate cotransporter, F937
- fluid conservation, and aging, R71
- function  
 adenosine and, F254
- angiotensin-(1-7) and, F141
- glomerular filtration rate, effects of systemic nitric oxide inhibition on, F845
- glomerulotubular balance, *see Glomerulotubular balance*
- glomerulus  
 compliance, in partially nephrectomized rat, F356
- immune injury, F179
- permselectivity, in pregnancy, F338
- volume regulation, F356
- glucose flux into and out of, regulation, G541
- hemodynamics  
 effects of adrenomedullin on, F200
- effects of antibody and complement on, F179
- in hypothyroidism, adenosine and, F254
- in pregnancy, F338
- stereospecific effects of epoxyeicosatrienoic acids on, F822
- during systemic nitric oxide inhibition, F845
- Henle's loop, calcium phosphate supersaturation in, F604
- Henle's loop, thick ascending limb apical membrane sodium/hydrogen exchange in, F691
- chloride absorption in, chloride channel mediating, F1066
- epithelial cells, sodium/calcium exchange in, F411, F953
- $HCO_3^-$  absorption in, F711
- medullary segment, bicarbonate absorption in, PKC and, F978
- osmotic regulation of sorbitol in, F275
- human  
 low-molecular-weight kininogen and bradykinin B<sub>2</sub> receptors, cellular localization of, F919
- PGE<sub>2</sub> receptor subtypes, differential localization of, F912
- injury, expression of basolateral transporters in, F245
- intercalated cells, plasticity in epithelial polarity of, C1571
- medulla  
 inner, anatomy, effects on renal concentrating mechanism, F904
- mathematical model of concentrating mechanism, F9, F904
- mesangium, and glomerular volume regulation, F356
- neonatal, response to blood volume expansion, during maturation in lambs, H1718
- nephron  
 distribution and regulation of guanylyl cyclase type B in, F311
- RT-PCR microlocalization of vitamin D receptor and calbindin D<sub>28k</sub> mRNAs in, F677
- sodium-potassium ATPase distribution along, after subtotal nephrectomy, effects of enalapril on, F997
- pelvis, variations in pacemaking and conduction in, F567
- plasma flow, effects of systemic nitric oxide inhibition on, F845
- potassium absorption in, regulation of, C679
- potassium conservation, effects of aldosterone on, E1003
- protein metabolism, in sepsis, E621
- proximal nephron cell, fractal analysis and imaging of, C953
- rainbow trout, electrodifusive transport of magnesium across membrane vesicles, F739
- rat  
 access to, R298
- chronic exposure of, R298
- remnant, glomerulosclerosis in, F356
- response to amino acids, in fetal sheep, R1226
- response to atrial natriuretic factor, in pregnant sheep, R1132
- response to postural change, ET-1 in, H1200
- sensory receptor activation, and prostaglandin-dependent release of substance P, R720
- shark, immunolocalization of sodium-potassium-chloride cotransporter in, F927
- sodium transporters, rapid redistribution and inhibition, during acute pressure natriuresis, F1004
- sympathetic nerve activity at birth, R86
- IL-1 $\beta$  and, R479
- transepithelial sodium transport in, regulation by rate of apical sodium entry, C600
- tubules, distal, thiazide-sensitive NaCl transport by, effects of corticosteroids on, F211
- tubules, postischemic expression of TGF- $\beta$ 1, F500
- tubules, proximal  
 $\alpha_1$ -adrenergic control of, in rat S1 proximal tubule, F1049
- $\alpha_2B$ -adrenergic receptors in, in rat, F1015
- angiotensin-(1-7) and, F141
- basolateral organic cation transport in snake, R1025
- cell differentiation in, regulation by phorbol ester, C332
- DA<sub>1</sub>/DA<sub>2</sub> dopamine receptor interactions in, spontaneously hypertensive rats, F90
- effects of nitric oxide in, F106
- expression of basolateral transporters in, gentamicin nephrotoxicity and, F245
- expression of Na-P<sub>i</sub> and Na-SO<sub>4</sub><sup>2-</sup> cotransporters, F220
- injury, F39
- intracellular calcium in, mechanism of increase by extracellular ATP, C1088
- luminal unstirred layer, F344
- purinergic receptors in, C1088
- tubuloglomerular feedback mechanism, *see Tubuloglomerular feedback mechanism*
- uninephrectomy, effects on potassium homeostasis in rats, R434
- vascular tone, stereospecific effects of epoxyeicosatrienoic acids on, F822
- vasoconstriction in  
 angiotensin II- and norepinephrine-dependent, in rat, R630
- effects of angiotensin II on, calcium signaling pathways in, F398
- muscle chemoreflex and, H951
- during nitric oxide synthesis inhibition in rats, R1203
- Kidney cells**
- of collecting duct  
 anion transport in, effects of cAMP on, F131
- cystic fibrosis transmembrane conductance regulator expression in, F237
- hydrogen-potassium ATPase, F116, F852
- pH in, effects of cAMP on, F131
- sodium-potassium ATPase expression in, effects of hyperosmolality on, F728
- of distal nephron, sodium channels, regulation by luminal adenosine receptors, F798
- epithelial

## SUBJECT INDEX TO VOLUME 270

### **Kidney cells (continued)**

adhesion of calcium oxalate monohydrate crystals to, F192  
cisplatin-induced apoptosis in, F700  
cortical thick ascending limb, F411, F953  
rescue from oxidative stress, F971  
sphingolipid-regulated proliferation, F476  
survival after ATP depletion, effects of prior heat stress, F1057  
TNF-induced apoptosis in, tissue remodeling during, F869  
glomerular endothelial, embryonic origin of, F890  
human embryonic kidney (HEK 293), ionic and gating current in, H1521  
intercalated, of cortical collecting duct apical hydrogen-potassium ATPase in, F518, F539  
apical insertion of studded membrane in, F649  
removal during development, F575  
**LLC-PK<sub>1</sub>**  
aquaporin-2 water channel recycling in, demonstration of, F548  
effects of upregulation of adenosine A<sub>1</sub> receptors in, F263  
expression of Na-P<sub>i</sub> and Na-SO<sub>4</sub> co-transporters, F220  
TNF-induced apoptosis in, tissue remodeling during, F869  
transepithelial sodium transport in, extracellular cGMP and, F283  
**Madin-Darby canine**  
expression of Na-P<sub>i</sub> and Na-SO<sub>4</sub> co-transporters, F220  
glycerophosphocholine degradation in, effects of betaine and inositol on, C200  
osmoregulation of system A in, F419  
polarity of thyrotropin-releasing hormone receptors in, C753  
polarized secretion of glycoprotein 2, G176  
**mesangial**  
ANP C-receptor protein in, effects of glucocorticoids on, F440  
collagen synthesis by, effects of IL-4 on, F447  
differentiation in culture, F614  
embryonic origin of, F890  
and glomerular volume regulation, F356  
heparan sulfate proteoglycan synthesis, TGF-β1 and, F812  
**JNK activity**, F634  
proliferation, type I collagen and, F960  
protein tyrosine kinase, activation by endothelin-1, F790  
stromelysin expression, induction by pyrrolidine dithiocarbamate, F806  
thrombin-induced signal transduction in, F295  
thromboxane A<sub>2</sub> receptors, F31  
transcriptional regulation of matrix metalloproteinase-9 in, F123  
**OK** (oppossum kidney)  
effects of upregulation of adenosine A<sub>1</sub> receptors in, F263  
NHE-3 transcription in, effects of glucocorticoids on, F164  
proliferation, sphingolipids and, F476  
of proximal tubules

apoptosis, F-actin and, F593  
cisplatin-induced apoptosis in, F700  
expression of Na-P<sub>i</sub> and Na-SO<sub>4</sub> co-transporters, F220

### **Kidney diseases**

diabetic nephropathy, pathophysiology of, F812  
glomerulonephritis, pathophysiology of, F447  
glomerulosclerosis, rat model of, F356  
nephrocalcinosis, pathogenesis of, F604  
nephrolithiasis, pathogenesis of, F192, F604

uremia, insulin in, effects of correction of anemia by erythropoietin, F839

### **Kidney failure, acute**

epidermal growth factor expression in, F21

myoglobin-induced, effect of L-arginine on, F784

### **Kininogen**

low-molecular-weight, human renal, cellular localization of, F919  
plasma levels, changes evoked by food intake or insulin administration, H1071

### **Knockout studies, in mice**

type I nitric oxide synthase, regional cerebral blood flow response to vibrissal stimulation in, H1085

### **Kupffer cells**

endotoxin-mediated NF-κB activation, in rat, G956  
gene expression, during endotoxemia, in rat, G660  
in liver regeneration, G909  
prostaglandin E<sub>2</sub> in, stimulation of parenchymal cell oxygen consumption, G574

## L

### **Lactate**

accumulation, and lethal ischemic injury, H38  
effects on hepatic insulin clearance, in perfused rat liver, R682  
effects on ischemia tolerance in rat heart, H1607

metabolic compartmentation of, in glucose-perfused rat heart, H224  
plasma levels, effects of cocaine and exercise on, E438  
production by adipocytes, and insulin sensitivity, C1061  
serum levels in rats, and dietary obesity, R489

### **Lactotrophs, see Pituitary gland, lactotrophs**

### **Lamellar bodies**

exocytosis from alveolar epithelial type II cells, annexin II in, L668  
expression and distribution of surfactant proteins and lysozyme in, effects of hyperpnea on, L320

### **Laminin**

effects on type II alveolar cell chemotaxis in vitro, L311  
on fetal rat lung cells, L459  
synthesis in type II pulmonary epithelial cells, L215

### **Lamprey**

chloride cells, apical surface changes after acclimation to seawater, R125  
osmoregulatory mechanism in seawater, R125

### **Laser confocal microscopy**

of cardiac calcium waves and ATP-sensitive potassium channel opener, H1384

### **Laser-Doppler flowmetry**

for continuous recordings of brain regional circulation during sleep/wake state transitions in rats, R855

### **Lean body mass**

associations with muscle strength and bone density, genetic factors and, E320

### **Leopard shark**

cardiac cycle in, H1766

### **Leucine**

constant infusion, in measurement of fractional synthetic rates of muscle protein, E67

### **kinetics**

effects of exercise on, E85

effects of IGF-I and growth hormone on, E552

during feeding, in healthy adults, E282

during growth hormone treatment in intrauterine growth-retarded preterm infants, E451

during puberty, E79

metabolism, in obesity, regulation of, E273

oxidation, effects of tumor necrosis factor on, E864

placental transport and fetal utilization, in fetal growth retardation, E491

### **Leukemia**

RBL-2H3 cells, calcium influx, effects on intracellular free calcium responses, C939

### **Leukocyte adherence**

tumor necrosis factor-α and, in NSAID-induced gastropathy, G42

### **Leukocyte adhesion**

in intestinal necrosis, G184

### **Leukocyte elastase**

human, inhibition by mineral dust particles, L761

### **Leukocytes**

adherent or emigrating, and endothelial cell barrier dysfunction induced by NSAIDs, G363

ATP-induced adherence to pulmonary artery endothelial cells, L695

rolling velocity, relation to leukocyte-endothelium adhesion and cell deformability, H1371

### **Leukostasis**

in hepatic sinusoids, G798

### **Leukotriene C<sub>4</sub>**

secretion, and bronchoconstriction, L587

### **Licking behavior**

deterministic and probabilistic control of, in rats ingesting liquid diets, R793

### **Liddle's disease, sodium channels in**

abnormal regulation of, C208

constitutively activated, peptide block of, C214

stretch-mediated regulation of, C224

### **Lipases**

see also Lipoprotein lipase

hormone-sensitive, after weight loss, in obesity, E739

pancreatic

## SUBJECT INDEX TO VOLUME 270

- regulation by dexamethasone, G746  
related proteins, regulation by dexamethasone, G746  
periprandial systemic and regional activity, E718
- Lipids**  
aggregation in lung, and surfactant injury, L273, L281  
intestinal infusion, effects on apolipoprotein A-IV synthesis in proximal jejunum, G277  
metabolism  
after marathon run, E336  
after weight loss, in obesity, E739  
in diabetic rats, effects of molybdate on, E344  
effects of IGF-I and growth hormone, E552  
intestinal, G203  
oxidation, E445  
processing, by developing human fetal colon, G813  
turnover of [<sup>13</sup>C]docosahexanoic acid in, in rat, R846  
uptake by pulmonary epithelial cells, modulation by surfactant proteins, L69
- Lipocortin-1**  
interaction with corticotrophin-releasing hormone, in vivo, R54
- Lipocytes**  
activation in alcoholic liver fibrosis, G581
- Lipolysis**  
in adipocytes, C562  
after weight loss, in obesity, E739  
effects of nicotine on, E215  
effects of tumor necrosis factor on, E864  
inhibition by acipimox, E822  
and visceral adiposity and metabolic complications in postmenopausal women, E72
- Lipoproteinsaccharide, see Endotoxin**
- Lipoprotein**  
synthesis by developing human fetal colon, G813
- Lipoprotein lipase**  
activity, effects of nicotine on, E215  
effects of insulin and isoproterenol on, C1461  
gene expression, in botulinum toxin-treated muscle, R238  
mRNA abundance, in VMH rats, E995  
periprandial activity, E718  
regulation, in GLUT-4 transgenic mice, R785
- Liposome aerosols**  
of IFN- $\gamma$  and muramyl tripeptide, activation of mouse alveolar macrophages by, L429
- 5-Lipoxygenase**  
eosinophil, activation, and bronchoconstriction, L587
- Lithium**  
clearance during systemic nitric oxide inhibition, F845
- Little skate**  
hepatocytes from, ATP receptors on, R561
- Liver**  
*see also Hepatocytes*  
abnormalities, total parenteral nutrition-induced, in weanling rats, G691  
adenylyl cyclase, age-related alterations in, E126  
aldehyde-derived peroxidation products, in rats with iron overload, vitamin E and, G376  
amino acid metabolism, during starvation, G298  
blood flow, restoration, for reversal of portacaval shunting, E1037  
cholesterol 7 $\alpha$ -hydroxylase expression in, G401  
citric acid cycle intermediates, noninvasive probing of, with phenylacetyl-glutamine, E882  
cysteine-rich intestinal protein expression in, and inflammation, G613  
dysfunction, with portacaval shunting, E1037  
energy metabolism, during exercise, R1005  
fatty acid metabolism, effects of extracellular ATP on, G701  
ferritin heavy and light subunit expression, during development and after dietary iron feeding, in rat, G498  
gene expression in, during exercise, R1005  
gluconeogenesis, hormonal regulation of, R365  
glucose flux into and out of, regulation, G541  
glucose output  
in adult rats, after early growth retardation, E946  
age-related changes in, in rats, E930  
altered regulation in male offspring of protein-malnourished rats, E552  
during early postprandial period, E186  
in infection, E580  
in streptozotocin diabetic rats, E752  
glutathione transport, G969  
hepatocellular dysfunction during sepsis, mechanism of, R927  
insulin clearance, lactate and, R682  
insulin resistance, age-related, in rats, E930  
ischemia/reperfusion, bidirectional effects on *E. coli*-induced TNF- $\alpha$  gene expression, R289  
local hypoglycemia, adrenomedullary counterregulatory response to, R1307  
oleate uptake, competitive inhibition by palmitate, G385  
pancreatitis-induced lung damage and, G6  
parasympathetic denervation, insulin resistance of skeletal muscle produced by, E858  
perinatal, 6-phosphofructo-2-kinase/fructose-2,6-biphosphatase expression in, E244  
postabsorptive glucose output, in streptozotocin diabetic rats, E752  
precursor pool for protein synthesis, in humans, E980  
protein metabolism, in sepsis, E621  
regeneration, in rats  
alterations in mRNA stability during, G763  
Kupffer cells and, after partial hepatectomy, G909  
reperfusion injury  
glycine and, G332  
leukocyte stasis in sinusoids and, G798  
sinusoids, leukostasis in, G798  
uptake of protein-bound ligands, G869
- Liver disease**  
alcoholic, G574  
Ito cell activation in, G581
- Locus ceruleus**  
*c-fos* expression in, after abdominal surgery, R888
- Long-chain triglycerides**  
metabolism of, E445
- Low-density lipoprotein receptors**  
and intestinal chylomicron remnant uptake, G203
- LPS (Lipopolysaccharide), see Endotoxin**
- Lung**  
*see also under Pulmonary*  
 $\alpha$ -adrenoceptor activation during exercise, reversal of pulmonary vasoconstriction induced by, H875  
allograft, acute rejection of, systemic vascular effects during, H2191  
development  
*see also Fetus, lung*  
effects of postnatal treatment with retinoic acid, L305  
epithelial cell proliferation/differentiation during, LAR-PTP2 and, L566  
expression of nitric oxide synthase isoforms during, in rat, L88  
glucocorticoid action on, L992  
LAR-PTP2 localization during, L566  
sodium-potassium ATPase regulation during, L619  
type I receptor serine-threonine kinase expression during, L547  
endothelium, water channels across, aquaporin-1 and, H416  
extracellular matrix biology in, L3  
fetal, *see Fetus, lung*  
gas-exchange region, sexual dimorphism, estrogen and, L110  
interstitial pressure, in development of pulmonary edema, H2000  
isolated perfused, pH-dependent pressor response in, endothelial modulation of, in rabbit, H252  
liquid secretory mechanisms, maturation in adrenalectomized fetal sheep, R33  
pancreatitis-induced damage, hepatic involvement in, G6  
perfusate  
hematocrit, effects on pulmonary vascular responsiveness to nitric oxide synthase inhibitors, H1757  
viscosity, effects on pulmonary vascular responsiveness to nitric oxide synthase inhibitors, H1757  
regeneration after acute lung injury, L1031  
surfactant-mediated uptake of antioxidant enzymes, L659  
tissue mechanics, and development of pulmonary edema, H2000  
transition from fetal to neonatal life, nitric oxide in, L88

caused by *Pseudomonas aeruginosa*, L232  
eosinophilic airway infiltration and, L368

**Lung injury**

acute

adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, H610  
epoxyicosatrienoic acid and, H1355  
lung regeneration after, L1031  
salt and water transport across alveolar and distal airway epithelia in, L487

endotoxin-induced, endothelial, attenuation by antithrombin III, L921  
epithelial repair after, L311  
and extracellular glutathione peroxidase in lung epithelial lining fluid and lung cells, L173  
extracellular matrix in, L3  
fluid reabsorption in, exotoxin A and, L232

hyperoxic

and EGF receptor network, L242  
lung  $\gamma$ -glutamyl transpeptidase and, L115

protection against, in preterm rabbits, L446

protein S-glutathiolation in, L115  
in rat pulmonary microvascular endothelial cells, L517

oxidant-mediated, endothelial, mechanisms of, L973

oxidative, protection against, in preterm rabbits, L446

ozone-induced, and vitamin A deficiency, L475

platelet-activating factor release in, and stimulation of lung pericyte growth, L298

protective effect of nordihydroguaiaretic acid, L266

surfactant aggregate conversion in, L152

**Lung volume**

and heart rate, age and autonomic effects on relationships between, H1825

**Lusitropism, myocardial**

$\alpha_1$ -adrenoceptor stimulation in cat papillary muscles and, H701  
new measure for, H2228

**Lymphatics**

$\beta$ -adrenergic hyperpolarization in, H1687  
initial flow velocity in, in humans, H358  
microscopic flow velocity in, H330  
transport physiology of, H324  
peritoneal, mapping, H1549  
pump function, in awake sheep, R486  
transport of tracer albumin from peritoneum to plasma, H1549

**Lymph flow**

in rat mesentery, bradykinin and, G752

**Lymphocytes**

B, mechanosensitive sodium channels in, C224

T, and epithelial function, C418

**Lysophosphatidic acid receptors**

multiple, expression in *Xenopus* oocytes, C772

**Lysosomal protein**

CD63, platelet surface, effects of nitric oxide on, H1640

**Lysozyme**

regulation and distribution after prolonged hyperpnea, L320

**M****Macrophages**

*see also Kupffer cells*

NF- $\kappa$ B activation, in rat, G956**Macrophages, alveolar**

activation by aerosolized liposomes of IFN- $\gamma$  and muramyl tripeptide, L429

antitumor properties of, L429

depletion, and neutrophil chemotaxis to *Pseudomonas* airspace infections, L819

extracellular glutathione peroxidase in, L173

modulation of epithelial cell response to coal dust, L123

phagocytosis by, stimulation by surfactant protein A, L677

**Magnesium ATPase**

cardiac myofibrillar calcium-activated, heart rate-related variation in activity of, C1271

**Magnesium ions**

antiarrhythmic action of, H907

effect on calcium waves and calcium transients in rat ventricular myocytes, H907

electrodiffusive transport in rainbow trout kidney, F739

**Magnesium sulfate**

reduction of intracellular calcium in airways, L469

**Magnetic resonance imaging**

calculating 3-D regional ventricular strains from, H281

**Magnetic resonance spectroscopy**

carbon-13, for study of hepatic carbohydrate metabolism, G14

**Maitotoxin**

nonselective cation channel activated by, in mouse L cells, C1145

**Major basic protein**

airway smooth muscle contraction and, in guinea pig trachealis, L133

**Malabsorption**

jejunal unstirred layer and, G487

**Males, see Gender****Malnutrition**

cow's milk allergy and, G442

IGF-I system response to, developmental differences in, E646

**Malonyl-CoA**

human skeletal muscle, at rest and during prolonged submaximal exercise, E541

**Manometry**

esophageal, G1022

**MAPK, see Mitogen-activated protein kinase****Mass isotopomer distributions**

of glucose, in metabolic studies, E709

of glutamate, in metabolic studies, E413

**Mast cells**

degranulation in rat trachea, substance P and, L985

histamine and thromboxane derived from, in inosine-induced vasoconstriction, H560

**Mathematical models**

of acid/base transport in proximal tubule brush border, F344

for assessment of insulin sensitivity, in NIDDM, E532

of baroreflex control of arterial pressure, H651

of calcium binding and cross-bridge kinetics, H338, H1101

for calculating 3-D regional ventricular strains from MRI tissue tagging, H281

of  $\beta$ -cell activity during oral glucose tolerance testing, E522

for coupling of heart and arterial system, H2050

of cytosolic calcium dynamics in human umbilical vein endothelial cells, C1556

of glucose transport and phosphorylation in muscle, E170

of light effects on human circadian rhythms, R271

of shear stress and vascular growth, H364

of urine concentrating mechanism, F9, F904

**Matrix metalloproteinases**

MMP-3, gene expression, transcriptional regulation in renal mesangial cells, F806

MMP-9, gene expression, transcriptional regulation in renal mesangial cells, F123

**Maturation**

*see also Development*

human colon, lipid processing and lipoprotein synthesis during, G813  
and integration of vascular, contractile, and metabolic responses to hypoxia, R895

rat duodenal and liver ferritin heavy and light subunit expression during, G498

renal and apical sodium conductance in principal cells, of rabbit, F391  
removal of intercalated cells during, F575

**Mechanical loading**

osteogenic response to, E419, E937, E955

**Melatonin**

circadian rhythm, light exposure and, R1073

neonatal injections, entrainment of Syrian hamster circadian activity rhythms by, R533

rhythms, magnetic field and, E816

**Membrane potential**

optical recordings of, H2216

**Membrane proteins**

sorting, role of membrane skeleton in, C1263

**Membranes, basolateral**

intestinal, dipeptide transport in teleosts, R948

of snake renal proximal tubule, organic cation transport across, R1025

**Membranes, brush-border**

dipeptide transport, in herbivorous and carnivorous teleosts, R939

fluidity, thermal modulation in channel catfish, R1037

P-glycoprotein overexpression in, F756 vesicles

electrodiffusive transport of magnesium across, F739

urate and *p*-aminohippurate transport in, F61

## SUBJECT INDEX TO VOLUME 270

- Ménière's disease**  
pathophysiology of, F1073
- Menkes gene**  
expression in placental cells, C1880
- Meprin**  
expression in experimental hydronephrosis, F669
- Mesangial cells**  
activation of phospholipase C-γ1 and chloride channels in, angiotensin II-induced, C1834
- contraction, large calcium-activated potassium channels and, C1773
- glomerular, long-term regulation of MEK-1 and p42 MAPK in, C40
- mannose receptors and apoptosis in, C1595
- mouse, P-glycoprotein expression in, C910
- Mesenteric circulation**  
arteries  
myogenic tone in, in spontaneously hypertensive rats, H1  
remodeling in response to locally altered blood pressure, indicial functions of, H1323
- microvascular beds, oxygen diffusivity in, in rat, H1390
- stress-induced vasoconstriction in, neuropeptide Y Y<sub>1</sub> receptors in, in rats, H796
- Mesentery**  
lymphatic pumping in, bradykinin and, in rat, G752
- Messenger RNA**  
*see also Gene expression*  
acyl-CoA synthetase, in VMH rats, E995
- bradykinin B<sub>2</sub> receptor, cellular localization in human kidney, F919
- cystic fibrosis transmembrane conductance regulator, expression in renal cortical collecting duct cells, F237
- ferritin, duodenal and liver, during development and after dietary iron feeding, in rat, G498
- GLUT-4, in VMH rats, E995
- kininogen, cellular localization in human kidney, F919
- lipoprotein lipase, in VMH rats, E995
- NHE-3, in OKP cells, effects of glucocorticoids on, F164
- nitric oxide synthase, renin, and angiotensinogen, coordinate regulation by dietary salt, F1027
- opioid peptide, levels in arcuate nucleus, and food restriction or deprivation, R1019
- parathyroid hormone  
effects of estrogen on, E158  
effects of progestins on, E158  
during rat estrous cycle, E158
- parathyroid hormone/parathyroid hormone-related peptide receptor, localization in kidney, F186
- stability  
alterations during liver regeneration, in rats, G763  
and glutamine synthetase expression in septic shock, L141
- tropoelastin mRNA, in neonatal rat pulmonary fibroblasts, serine proteinase inhibitors and, L376
- very low density lipoprotein receptor, in VMH rats, E995
- vitamin D receptor and calbindin D<sub>28k</sub>, RT-PCR microlocalization in murine nephron, F677
- in young and old human skeletal muscle, E224
- Metabolic rate**  
resting, of molting gray seals, R1051
- Metabolism**  
effects of 2,5-anhydro-D-mannitol on, comparison with effects of food deprivation, R1250
- in genetically obese rats, weight cycling and, R864
- Metabotropic receptors**  
presynaptic, glutamate and, H1557
- Metalloendopeptidase**  
expression in renal cortex, in experimental hydronephrosis, F669
- Metalloporphyrin**  
chloride ionophores, induction of anion permeability by, L386
- Metallothionein-1**  
gene expression, cold-induced, in brown adipose tissue of rats, R971
- Methionine**  
and hepatic glutathione transport, G969
- turnover, in response to intravenous glutathione infusion in adults, E209
- Methodologies**  
for analyzing differential expression of protein kinase C isoforms in fresh and cultured cortical collecting ducts, F766
- for analyzing exhaled air samples, L914
- for analyzing fluid transport in cystic fibrosis airway epithelia of bronchial xenografts *in vivo*, C1326
- for analyzing nitric oxide synthase, renin, and angiotensinogen mRNA in rat kidney, F1027
- for analyzing rat surfactant protein A gene expression *in vitro*, L504
- for antibody block of P-glycoprotein-associated chloride channels, C1370
- for applying cyclic strains on perfused vessel, H787
- for assessing aortic distensibility and compliance in rats, H780
- for assessing bone mineral status, E840
- for assessing cardiac pump function, H1509
- for assessing energy expenditure, R496
- for assessing left ventricular restoring forces, with left atrial pressure clamps, H1015
- for betaine transporter cDNA cloning, C650
- for cellular localization of human renal kininogen and bradykinin B<sub>2</sub> receptors, F919
- for characterization and distribution of neuronal glutamate transporter EAAC1 in rat brain, C67
- for characterizing baroreflex gain using autoregressive moving average analysis, H1240
- for cloning, expressing, and recovering biologically active IL-5, L1002
- for cloning and characterization of rat P<sub>2U</sub> receptor, C570
- for cloning and expression of rabbit prostaglandin EP<sub>4</sub> receptor, F485
- for cloning and expression of renal sodium-dicarboxylate cotransporter, F642
- for cloning of chloride channels, F1066
- for cloning of GRK<sub>2</sub> cDNA from S49 murine lymphoma cells, C885
- for cloning of rat glutamate transporter, C67
- for cloning of toad urinary bladder aquaporin, C372
- for coimmunoprecipitation of 24-kDa protein with NHE1, C1493
- for computational studies of ion-water flux coupling in airway epithelium, C1751, C1764
- for continuous measurement of mitochondrial pyruvate decarboxylation, C98
- for continuous recordings of brain regional circulation during sleep/wake state transitions in rats, R855
- for cortical collecting duct culture, F766
- for demonstrating aquaporin-2 water channel recycling, F548
- for deriving respiration from blood pressure pulse wave, H1672
- for determining exhaled nitric oxide, L914
- for determining leucine oxidation and FFA flux, E864
- for determining muscle protein synthesis, E67
- for determining triglyceride metabolism, E445
- for differential localization of human renal PGE<sub>2</sub> receptors, F912
- for digital imaging microscopy of mitochondrial enzymes, C488
- for direct measurement of transverse residual strains in aorta, H750
- for double-exponential curve-fitting of isometric relaxation, H2228
- for doubly labeled water analyses, for measuring energy expenditure, natural abundance variations in, E164
- for electrical mapping in renal pelvis, F567
- for *ex vivo* investigation of biochemical pathways in intact vascular tissue, H760
- for fluorescence determinations in epithelial cells of cortical thick ascending limb, F411, F953
- for fluorescence microlymphography, H324, H330
- for fluorescence microscopy of bile salt secretion in hepatocytes, G887
- for fluorescence photobleaching, H330
- for fluorescence ratio imaging, in outer medullary collecting duct cells, F116
- for fractal analysis and imaging of proximal nephron cell, C953
- for identification of prohormone convertases in rat stomach, G87
- for imaging endothelial calcium in afferent arterioles, F170
- for imaging ventral medullary surface activity in goats, R182
- for immortalizing epithelial cells, C1
- for immortalizing human bladder cell lines, F148

## SUBJECT INDEX TO VOLUME 270

### **Methodologies (continued)**

- for immortalizing pancreatic ductal cells, G676
- for immunocytochemical studies of Na-K-Cl cotransporter of shark kidney, F927
- for immunolocalization of  $\alpha_{2B}$ -adrenergic receptors in rat kidney, F1015
- for immunolocalization of mNa<sub>2</sub>,2.3 sodium channel in mouse heart, C688
- for *in situ* hybridization of water channel proteins, C67
- for intravital fluorescence microscopy, G798
- for intravital video microscopy, G363
- for islet constitutive nitric oxide synthase assay, C1634
- for isolating plasma membranes, T tubules, and internal membranes in skeletal muscle, E667
- for laser confocal microscopy of airway epithelium, L224
- for laser-Doppler flowmetry, in renal medulla, F833
- for localizing guanylyl cyclase type B in nephron, F311
- for macroscopic measurement of lymphatic capillary transport, H324
- for magnetic resonance imaging tissue tagging, H281
- for measuring bile acid uptake by hepatocytes, G339
- for measuring enteral glutamate metabolism, E413
- for measuring glucose metabolism, E353
- for measuring jejunal unstirred layer, G487
- for measuring leucine and glucose kinetics, E451
- for measuring leucine kinetics, E85, E451
- for measuring leukocyte rolling velocity along endothelium, H1371
- for measuring methionine and cysteine kinetics, E209
- for measuring muscle protein fractional breakdown *in vivo*, E759
- for measuring net hepatic glycogenolysis, E186
- for measuring N<sup>+</sup>-methylhistidine turnover in skeletal muscle, C1875
- for measuring pulmonary expression and distribution of surfactant proteins and lysozyme, L320
- for measuring surfactant in lambs *in vivo*, L273
- for measuring unloaded myocardial oxygen consumption, H1063
- for measuring water permeability in mammalian cells, C12
- for mechanical measurements from isolated cardiomyocytes using pipette attachment system, C697
- for microelectrode measurement of transepithelial conductance in *Necturus* gastric mucosa, G902
- for microfluorometry of ion transport systems in human labial acinar cells, G213
- for microscopic fluorometry of oxygen, H1390
- for microspectroscopy in exocrine pancreas, H1704

- for mobility shift assays, and *in vitro* analysis of rat surfactant protein A gene expression, L504
- for noninvasive probing of citric acid cycle intermediates in primate liver, E882
- for oatp cDNA expression in mammalian cells, F319
- for optical recordings of membrane potential, H2216
- for parathyroid hormone/parathyroid hormone-related peptide receptor mRNA localization in kidney, F186
- for patch clamp of type II cells cultured on Matrigel, L577
- for physiological studies of bile duct epithelium, G1
- for plasmid-mediated *in vivo* gene transfer to rat diaphragm, L1023
- for <sup>31</sup>P-NMR studies of cyclocreatine transport and toxicity, C160
- for ratiometric measurement of endothelial depolarization in arterioles, H2216
- for reconstitution of potassium-chloride cotransport, in dog erythrocyte ghosts, C898
- for reverse transcription-polymerase chain reaction analysis of myosin heavy chain expression, C1819
- of PKC mRNA in rabbit cortical collecting ducts, F766
- of renin mRNA in rat, F776
- of vitamin D receptor and calbindin D<sub>28k</sub> mRNAs in murine nephron, F677
- of V<sub>2</sub> receptor mRNA in rat collecting duct, F623
- for simultaneous measurement of pH<sub>i</sub> and Ca<sup>2+</sup> in insulin-secreting cells, C1438
- for studying arterial elasticity and left ventricular mass, H981
- for studying hepatic carbohydrate metabolism, G14
- for transfection of Na-P<sub>i</sub> and Na-SO<sub>4</sub> cotransporters in MDCK and LLC-PK<sub>1</sub> cells, F220
- for transfer function analysis of aortic baroreceptor reflex in rabbits, H1054
- for transgenic animals, E565
- for transimmortalization of mouse intestinal crypt cells, C1666
- for videofluoroscopy of swallowing, G347
- for videometric flow velocimetry, F461
- for *Xenopus* oocyte expression of sodium-glucose cotransporter isoforms, G919
- N-Methyl-d-aspartate**  
cerebrovascular responses to, effects of ischemia on, in piglets, H1225  
receptors, and mechanism of action of MK-801, C1398
- N-Methyl-d-aspartate receptors**  
lateral hypothalamic, and eating and weight control, R443  
in respiratory-sympathetic integration, R645
- spinal, blockade, reflex pressor response and, H500
- and spinal c-fos expression after lower urinary tract irritation, in rat, R990

### **3-O-Methyldopa**

- demethylation in kidney, as source for urinary dopamine, F862
- α,β-Methyleneadenosine 5'-diphosphate**  
and infarct size-limiting effect of ischemic preconditioning, H1744

### **N-Methylhistidine**

- turnover in skeletal muscle cells, measurement by GC-MS, C1875
- (3-Methylsulfonyl-4-piperidinobenzoyl)guanidine methanesulfonate**  
cardioprotective efficacy, extracellular buffer composition and, H692

### **Mice**

- see also Transgenic mice*  
aging, noninvasive indexes of cardiac systolic and diastolic function in, H2204
- cfr* knockout, intestinal sodium absorption in, G259
- endothelin-1-deficient, ventilatory response to hypoxia and hypercapnia in, R1279
- fetal, ventricular myocytes, delayed rectifier potassium currents, H2088
- gold thioglucose-treated, hypothalamic neuropeptide Y expression in, R1208
- grain dust-induced lung inflammation in, endotoxin in, L1052
- hyperthyroid, noninvasive indexes of cardiac systolic and diastolic function in, H2204
- lymphatic capillaries, transport and flow measurements in, H324, H330
- male X-linked hypophosphatemic, bone metabolism in  
effects of 1,25-dihydroxyvitamin D<sub>3</sub> on, E141
- 22-oxacalcitriol effects on, E141
- ozone-induced lung injury in, vitamin A and, L475
- transgenic, *see Transgenic mice*
- yellow obese, agouti protein regulation of fatty acid synthesis and desaturation in, E192

### **Microcirculation**

- see also Arterioles; Microvasculature; Venules*  
cerebral  
disturbance during hypoxia, in rats, H1441  
endothelium-dependent dilation, laser-dye impairment of, singlet oxygen and, H1258  
responses to N-methyl-D-aspartate, in piglets, effects of ischemia on, H1225
- coronary  
endothelium-dependent vasodilation, platelet-activating factor and, H2094
- flow-induced vasodilation in, H1878
- fetoplacental, effect of endothelin-1 on, in sheep, H16
- two-port analysis of, H376
- Microgravity**  
exercise in, regulation of blood pressure and heart rate during, H2132
- Microsomes**  
<sup>45</sup>Ca accumulation in, effects of calcium chelators on, C628

## SUBJECT INDEX TO VOLUME 270

*Microtus ochrogaster*, see **Voles**

### **Microvascular networks**

growth, shear stress and, H364  
structural and hemodynamic heterogeneity in, H545

### **Microvasculature**

see also **Arterioles; Microcirculation;**

#### **Venules**

constriction, mediation by  $\alpha$ -adrenoceptor subtypes, H710  
exocrine pancreatic, oxygen transport in, H1704  
permeability, effects of nonsteroidal anti-inflammatory drugs on, G363  
of rat cremaster muscle, oxygen saturation and pH changes in, H1453  
skeletal muscle  
  insulin and, H2120  
  oxygen saturation and pH changes in, in rats, H1453

### **Migrating myoelectric (motor, motility) complexes**

acid and alkaline outputs related to, mechanisms behind, G113

### **Milk proteins**

anaphylactic intestinal response to, during experimental malnutrition, G442

### **Mineral dust particles**

inhibition of human leukocyte elastase, L761

### **Mineralocorticoid receptors**

in osteoblasts, C1088  
progesterone binding to, E601

### **Mitochondria**

enterocyte, function and integrity of, ornithine decarboxylase and, G789  
enzymes

localization of, C488

transcriptional regulation of, C1413

hexokinase association with, in live smooth muscle cells, metabolic modulation of, C488

isolated from type I and type IIb skeletal muscle, characteristics of, C673

metabolism, substrate specificity of, in rat heart, H1398

pyruvate decarboxylation, C98

tricarboxylic acid cycle activity, after myocardial ischemia, H72

### **Mitochondrial respiration**

effects of calcium on, in rat heart, H1398

in ischemia/reperfusion, H72

### **Mitogen-activated protein kinase kinase**

in rat glomerular mesangial cells, C40

### **MK-801**

and respiratory modulation of sympathetic nerve activity, R645

### **Modeling in physiology**

of aortic endothelial injury, H1841  
of arterial remodeling in response to locally altered blood pressure, H1323

for biomedical studies, applications of segmented regression models, E723  
of blood volume restitution after hemorrhage, R1163

of calcium influx in RBL-2H3 cells, C939

of calcium loading and premature stimulations of cardiomyocytes, H447

of cardiomyocyte contraction, H769  
for computational studies of ion-water flux coupling in airway epithelium, C1751

of contractile efficiency as function of calcium and cross-bridge kinetics, H1101, H1501

double-exponential model for isometric relaxation, H2228

filled pore approximation, for solute-solvent coupling in narrow water channels, C1246

of glomerular hemodynamics and barrier function in pregnancy, F338  
for hepatic uptake of protein-bound ligands, G869

of inflammation, T cell-monocyte coculture for, C418

for kinetic mechanism of sodium-coupled L-alanine transport in LLC-PK<sub>1</sub> cells, C49

mathematical

of acid/base transport in proximal tubule brush border, F344

for assessment of insulin sensitivity, in NIDDM, E532

of baroreflex control of arterial pressure, H651

of calcium binding and cross-bridge kinetics, H338, H1101

for calculating 3-D regional ventricular strains from MRI tissue tagging, H281

of  $\beta$ -cell activity during oral glucose tolerance testing, E522

for coupling of heart and arterial system, H2050

of cytosolic calcium dynamics in human umbilical vein endothelial cells, C1556

of glucose transport and phosphorylation in muscle, E170

hot versus cold minimal model in NIDDM, for assessment of insulin sensitivity, E532

of light effects on human circadian rhythms, R271

of shear stress and vascular growth, H364

of urine concentrating mechanism, F9, F904

of mechanical determinants of myocardial oxygen consumption, H2229  
metabolic, of apolipoprotein B metabolism, using stable isotope-labeled amino acids, E1022

of myocardial oxygen kinetics, H1115  
of platelet dense-granule centralization and persistence of ADP secretion, H1131

of proximal tubule brush border, acid-base transport in, F344

pulse chemistry, of cardiac transient outward potassium current, H386

of regional wall mechanics in ischemic left ventricle, H398

of renal concentrating mechanism, F9, F904

segmented regression, applications for biomedical studies, E723

of short-term control of cardiovascular function in health humans, H651

for studying atrioventricular nodal conduction and triggered activity in vivo, H1850  
varying-elastance, for heart, H2050  
virtual work model of myocardial energetics, H2229

### **Molybdate**

effects in diabetic rats, E344

### **Monocarboxylate transporters**

of single rat heart cells, substrate and inhibitor specificities of, H476

### **Monoclonal antibodies**

anti-CD18, protective effect against myocardial perfusion injury, factors affecting, H53

anti-E-selectin, effects on inflammatory cells, H183

anti-P-selectin, effects in ischemia-reperfusion injury in dogs, H88

### **Monocyte chemotactic protein-1**

secretion in endothelial cells, cyclical strain and, H1462

### **Monocytes**

adhesion in hypertensive rats, H2125  
transendothelial migration, and smoking-induced adhesion molecules, H1624

### **N<sup>G</sup>-Monomethyl-L-arginine**

administration in hemorrhagic shock, in rats, H1616

effects on bone formation in rats, E955  
effects on postischemic hyperemia in human forearm, H1435

hypertension induced by, and insulin resistance, E1058

and nitric oxide secretion, effect on atrial natriuretic factor secretion, H306

### **Mononuclear cells**

stimulation of gastrin release from canine antral cells, G783

### **Monosodium urate crystals**

promotion of neutrophil adhesion, C31

### **Motilin**

in gastric phase III contraction, 5-hydroxytryptamine and, G20

### **Mucins**

gene expression during airway mucous differentiation, L846

secretion, cholera toxin-induced, in rat small intestine, role of 5-HT in, G1001

### **Mudpuppy**

red blood cells, potassium conductance activated during regulatory volume decrease in, R801

### **Multidrug resistance**

doxorubicin selection for, and reduction of swelling-activated currents in MES-SA cells, C1029

gene expression, and xenobiotic transport differences in mouse mesangial cells, C910

P-glycoprotein overexpression and, F756

### **Multidrug resistance 1 protein, see P-glycoprotein, MDR1**

### **Muscarinic receptors**

in asthmatic lung, L947

in modulation of airway cilia, L745

regulation of synaptic transmission in airway parasympathetic ganglia, L630

## SUBJECT INDEX TO VOLUME 270

- Muscarinic receptors (continued)**  
 reserve, for inhibition of cAMP accumulation in airway smooth muscle, L199
- Muscle, cardiac**  
*see also Cardiomyocytes; Heart, mechanics*  
 calcium sparks and waves in, C148  
 contractility, oxygen cost of, during hypocapnic alkalosis, H1905  
 cytochrome oxidase subunit VIa isoforms in, developmental regulation of, H567  
 excitation-contraction coupling, depression by BAY K 8644, C878  
 mechanics, analysis of, H338  
 oxidative modulation of tricarboxylic acid cycle in, C1735  
 protein turnover in, effects of cold exposure on, in rats, R1231  
 shortening deactivation in, H338, H1101  
 sodium-potassium balance in, cytoplasmic phosphates and, in rats, H1302
- Muscle, skeletal**  
 acetyl-CoA carboxylase in, during exercise, E299  
 $\beta$ -adrenergic-receptor function, and aging, in rats, R462  
 adult and aged, stretch overload-induced satellite cell activation in, C578  
 AMP deaminase activity, alteration by  $\beta$ -guanidinopropionic acid, C67  
 amphibian, charge movement repriming, effect of temperature on, C892  
 arterioles, insulin-induced dilation of, H2120  
 blood flow in, nutritive and nonnutritive, E689  
 botulinum toxin-treated fatigue recovery in, R238  
 metabolic gene expression in, R238  
 paralysis, R238  
 calcium-release mechanism, adaptation to weight-bearing condition, C1588  
 $\text{Ca}^{2+}$  loading and retention, in triads vs. terminal cisternae, C1602  
 capillaries, nitric oxide release in, H1696  
 chronically stimulated, gene expression in, C1413  
 collateral innervation, H500  
 contractile speed, activity-dependent changes in, C306, C313  
 cytochrome oxidase subunit VIa isoforms in, developmental regulation of, H567  
 effects of increased creatine kinase activity, in mouse, C1236  
 eIF-4E and PHAS-I association in, regulation by insulin and diabetes, C705  
 eukaryotic initiation factor 2B expression in, during sepsis, E43  
 fast-oxidative phenotype of histochemical and metabolic studies of, C313  
 induction by chronic muscle stimulation, C306, C313  
 mechanical and biochemical studies of, C306  
 fast troponin T in, amino-terminal isoforms of, C298  
 fiber types
- in dogs with moderate heart failure, effects of ACE inhibition and  $\beta$ -blockade on, H115  
 and insulin-stimulated glucose uptake, E905  
 fuel selection, effects of obesity and NIDDM, E463  
 functional vascular shunts in, E689  
 glucose transport, nitric oxide and, E1058  
 glucose transport and phosphorylation in, three-tracer study of, E170  
 GLUT-1 and GLUT-4 expression in effect of cross-reinnervation on, in rat, R1355  
 training-induced changes in, E457  
 glutamine synthetase expression in, effects of glutamine on, E912  
 glycogenolysis, during intense aerobic cycling, E116  
 hemodynamic response to mental stress, E393  
 histology, and insulin-stimulated glucose uptake, E905  
 hypertrophy  
 actin promoter in, C1624  
 transcriptional regulation during, C1111  
 insulin-induced translocation of  $\text{Na}^+$ - $\text{K}^+$ -ATPase subunits in, fiber type and, C1421  
 ischemia, humoral mediation of CD18 activity after, H1515  
 ischemic contraction, metabolic response to, in dogs, E400  
 malonyl-CoA, at rest and during prolonged submaximal exercise, E541  
 mammalian, shortening heat in, C293  
 metabolic adaptation after training, E265  
 metabolism, in exercise and recovery, in frog, R811, R821  
 microvessels, oxygen saturation and pH changes in, in rats, H1453  
 morphology  
 and insulin-stimulated limb blood flow, E905  
 relationships to insulin action and adiposity, R1332  
 myofiber differentiation, selective regulation by energy status, during postnatal development, R667  
 nerve-intact graft, regeneration and revascularization in spontaneously hypertensive rat, R153  
 nitric oxide production, TGF- $\beta$ 1 and, R145  
 $\text{N}^{\text{o}}$ -methylhistidine turnover in, measurement by GC-MS, C1875  
 oxidative phenotype  
 and GLUT-4 and GLUT-1 content, R1355  
 and pathogenesis of obesity and insulin resistance, R1332  
 performance, decreased, in reduced renal mass hypertensive rat, H661  
 phenotype, activity-dependent changes in, C306, C313  
 postexercise recovery of adenine nucleotides, C1067  
 protein kinetics, with chronic IL-1 infusion, E305  
 protein synthesis  
 bed rest and, E627  
 determination, E67
- effects of IGF-I on, E60  
 insulin and IGF-I in, E614  
 postnatal, in mammals, E802  
 in sepsis, E430  
 protein turnover in, effects of cold exposure on, in rats, R1231  
 proteolysis, effects of epinephrine on, E961  
 regeneration, and weight-bearing function, C763  
 relaxation, and sarcoplasmic reticulum calcium ATPase inhibition, C401, C411  
 resting  
 ammonia uptake in, during exercise, E101  
 oxygen supply to, H1933  
 sarcoplasmic reticulum vesicles from, calcium-activated chloride channels in, C1675  
 sequential ischemia/reperfusion in, contralateral skeletal muscle salvage and, H1407  
 shortening velocity and aging in, C352  
 static contraction and passive stretch, reflex pressor response to, in cat, H500  
 strength, associations with lean mass and bone density, genetic factors and, E320  
 subcellular fractionation procedure, for isolation of plasma membranes, T tubules, and internal membranes, E667  
 substrate metabolism, IGF-I and, E545  
 succinate dehydrogenase, regulation by nerve-mediated activity and ciliary neurotrophic factor, R80  
 thin filament activation in, H1008  
 type I and type IIb, characteristics of mitochondria isolated from, C673  
 vasodilation in  
 insulin-induced, H2120  
 in response to stimulation, ATP-sensitive potassium channels in, H1649  
 vertebrate, control of glycolysis in, during exercise, R821  
 vessel density decrease, in reduced renal mass hypertensive rat, H661  
 young and old, mRNA in, E224
- Muscle, smooth**  
 airway  
 calcium-activated potassium channels in, stimulation by sodium ni-troprusside, L338  
 cell growth response, phospholipase C and tyrosine kinase systems in, L795  
 contraction, cationic proteins and, L133  
 endothelin-1 in, L54  
 mitogenesis, PDGF receptors and, L415  
 muscarinic inhibition of adenylyl cyclase and regulation of intracellular calcium in, L208  
 muscarinic receptor reserve for inhibition of cAMP in, L199  
 phenotypic markers, L1040  
 aortic, force generation by single cells, effects of calponin on, H1858  
 arterial, endothelin-B receptors in, upregulation by chronic increases in blood flow, H65

## SUBJECT INDEX TO VOLUME 270

bladder, potassium channel activation in, C969  
bronchial chloride and potassium conductances in, effects of acetylcholine and caffeine on, L772  
PDGF isoform-induced proliferation and receptor expression in, L415  
canine gastric, effects of wortmannin on, C1405  
cerebrovascular prostaglandin production in, C1379  
prostanoid and cAMP production in, effects of hypercapnia on, C1503  
colonic, tyrosine kinase in, C1780  
coronary, ATP-sensitive potassium channels in, effects of arachidonic acid on, H1957  
endothelial, myogenic activity, F170  
esophageal, outward potassium currents, in opossum, G932  
gastric, diabetic myopathy in, G411  
G protein-regulated inositol triphosphate formation in, annexin II inhibition of, F682  
intestinal, contractility, effects of calponin on, C481  
live cells, dynamics of hexokinase distribution in, C488  
lymphatic, of guinea pig mesentery,  $\beta$ -adrenergic hyperpolarization in, H1687  
myosin heavy chain expression in, heterogeneity of, at single cell level, C1819  
pulmonary artery effects of cold preservation on, L435  
growth, differential effects of commercial preparations of heparin on, L260  
proliferation, in pulmonary hypertensive rats, L101  
serotonin-induced mitogenesis and tyrosine phosphorylation in, inhibition by nitroprusside, L362  
of rat vas deferens, calcium-dependent decline of  $^{45}\text{Ca}^{2+}$  influx in, C1461, C1468  
renal arteriolar, calcium-activated potassium channels in, F69  
telokin gene regulation in, C1656  
tracheal, length, contractile protein activation and, C243  
uterine force development and cross-brdge cycling in, E203  
responsiveness to oxytocin and vasoressin, chronic hypoxia and, E477  
vascular calcium-activated chloride currents, H1577  
calcium channel activity in, effects of plasma from ischemic hindlimb of rat, H1485  
cAMP and cGMP, and angiotensin II-induced vasoconstriction, H1914  
cell proliferation, C1642, H142  
cell volume regulation in, C1388  
contractile competence, effect of retinoic acid on, H1363  
contraction, vitamin D and, H230  
cultured cells, basal plasma membrane calcium flux in, H1972  
effects of angiotensin II on, protein kinase C in, F945

energy metabolism in, H1869  
20-hydroxyeicosatetraenoic acid formation and actions in, R217  
IGF-I modulation of FGFR-1 in, in rabbit, H1141  
myogenic tone, in spontaneously hypertensive rats, H1  
nitric oxide-mediated relaxation, and antenatal betamethasone therapy, H538  
phospholipase D activation by G protein in, H1031  
sarcolemmal reticulum calcium release, cyclic ADP-ribose and, H801  
sodium-potassium ATPase gene expression in, differential regulation by corticosteroids, C731  
stereospecific effects of epoxyeicosatrienoic acids on, F822  
substrate-dependent alteration in oxygen consumption in, H1869  
surface thrombomodulin and cellular responses to thrombin in, H603  
thrombin receptor agonist-induced contraction of, C1815  
tyrosine kinases and calcium responses in, C1825  
***Mycoplasma pulmonis***  
infection, exacerbation with sensory denervation by neonatal capsaicin treatment, L393  
**Myenteric plexus, neurons**  
ATP-evoked calcium signaling in, G587  
caffeine- and ryanodine-sensitive calcium stores in, G594  
in internal anal sphincter, nitric oxide release from, G492  
**Myocardial blood flow**  
after coronary artery occlusion, species differences in, H1312  
changes at birth, in lambs, H741  
and infarct size, in conscious baboons, pigs, and dogs, H1812  
microheterogeneity of, in normoxic and hypoxic states, H435  
**Myocardial depression**  
endotoxin-induced, TNF- $\alpha$  and, in rabbits, H485  
**Myocardial infarct/infarction**  
cerebral atrial natriuretic peptide changes after, H312  
in conscious baboons, pigs, and dogs, H1812  
effect of temperature on, in swine, H1189  
myocardial contractility after, angiotensin II and, H2060  
rat model, vascular endothelial growth factor and cardiac angiogenesis in, H1803  
**Myocardial ischemia**  
*see also Ischemia/reperfusion; Myocardium, stunning*  
adenosine formation in, 5'-nucleotidase activity and, H1493  
canine model, alkali therapy in, and myocardial contractility, R955  
cardioprotection in, glutamate in, H1825  
chronic, vascular endothelial growth factor administration in, H1791  
comparative cardioprotective effects of cromakalim and diltiazem in, H174  
coronary hemodynamics during, H1893  
lethal, lactate accumulation and, H38  
norepinephrine kinetics during, H245  
protection against, metabolic interventions for, H1607  
P-selectin in, in dogs, H88  
regional reperfusion arrhythmias after, H957  
ventriculoarterial coupling in, effect of dobutamine on, H1279  
tolerance, in rat heart, H1607  
tricarboxylic acid cycle activity after, H72  
**Myocardium**  
baboon, innate protection of, H1812  
contractility, H1568  
alkali therapy and, R955  
decreased, in sepsis, H1446  
in early pregnancy, in rats, H1779  
in infarcted and noninfarcted regions, angiotensin II and, H2060  
oxygen cost of, during hypocapnic alkalosis, H1905  
dysfunction, collateral function and, H1893  
energetics, H1501  
age-related changes in, in rat heart, H897  
alkalosis and, H1905  
and contractile reserve, H1207  
in rat ventricular slices, H1063  
virtual work model of, H2229  
hypoxia tolerance, effects of maturation and adenosine, R895  
inhomogeneous function, intracellular control in, H1101  
lusitropism  
 $\alpha_1$ -adrenoceptor stimulation in cat papillary muscles and, H701  
new measure for, H2228  
mammalian, regulation of NHE-1 promoter in, H259  
mechanically unloaded, oxygen consumption, measurement, H1063  
morphometric changes in sepsis, H1446  
oxygen consumption in ischemia/reperfusion of rat heart, H72  
mechanical determinants of, in conscious dogs, H2229  
and pressure-volume area, relation between, derived from thermodynamics, H730  
transients, after perfusion pressure changes, in goats, H492  
and ventricular wall vibration, H583  
oxygen kinetics, modeling, H1115  
reperfusion injury, attenuation by serpin, H881  
skinned, rapid cooling contracture in, H1662  
stunning  
in conscious pigs, dogs, and baboons, H1312  
recovery of regional mechanical function after, H2197  
regional, H509  
swelling, effect on residual strain in left ventricle of rat, H1736  
tissue stretching, effects on coronary artery resistance, H924  
ventricular, negative inotropic effect of cocaine on, in ferret, H678  
**Myocytes**  
*see also Muscle, smooth*  
cardiac, *see Cardiomyocytes*

## SUBJECT INDEX TO VOLUME 270

### **Myocytes (continued)**

pulmonary arterial, calcium-activated chloride currents, H1577  
skeletal muscle, nitric oxide synthesis by, TGF- $\beta$ 1 and, R145  
tracheal, growth response, role of phospholipase C and tyrosine kinase systems in, L795  
vascular, from rat pulmonary artery, angiotensin II-induced calcium oscillations in, L637

### **Myofibrillar proteins**

synthesis, in aging human skeletal muscle, E224

### **Myofilaments**

actin-myosin reaction, CGP-48506 and, H24

### **Myoglobin**

renal vasoconstriction caused by, effect of L-arginine on, F784

### **Myometrium**

contractility, mechanisms mediating, E203

immunolocalization of mNa<sub>2,3</sub> sodium channel in, during pregnancy, C688  
oxytocin-stimulated cross-bridge cycling in, E203

responsiveness to arginine vasopressin, chronic hypoxia and, E477

responsiveness to oxytocin, chronic hypoxia and, E477

### **Myosin**

cardiac, isoforms in infarcted and non-infarcted regions, H2060

isoforms

and age-related shortening velocity changes in single muscle fibers, C352

expression during skeletal muscle regeneration, and weight-bearing function, C763

in myofiber differentiation during postnatal development, R667

nonmuscle myosin II, in polyamine-dependent migration of intestinal epithelial cells, G355

### **Myosin heavy chain**

expression in smooth muscle, heterogeneity of, at single cell level, C1819  
transcriptional regulation during muscle hypertrophy, in transgenic mice, C1111

turnover, in cardiomyocytes, C1075

### **Myosin light chain**

phosphorylation, and length-dependent modulation of tracheal smooth muscle force, C243

slow, transcriptional regulation during muscle hypertrophy, in transgenic mice, C1111

### **Myristoylation**

of Ga<sub>1-3</sub> on Golgi membranes, C1362

## N

### **NADH oxidase**

superoxide derived from, and coronary artery oxygen-elicited responses, in calf, H1044

### **Naloxone**

effects on carbohydrate intake, in restricted and nonrestricted rats, R1183

### **L-NAME, see N<sup>G</sup>-Nitro-L-arginine methyl ester**

### **Natriuresis**

cerebral

after renal denervation, F510

in rat, F1073

postprandial, urodilatin and, F301

pressure-induced, and renal sodium transporters, F1004

in rats

after acute volume expansion in neonate, angiotensin II and, R393

dehydration, oxytocin and, R427

pressure, after nitric oxide synthase inhibition, R469

and renal response to adrenomedullin, F200

in response to gastric sodium monitor, angiotensin II and, F406

role of nitric oxide in, F200, F206

### **Natriuretic hormone**

production in inner ear, F1073

### **Natriuretic peptide**

atrial, *see Atrial natriuretic factor/ Atrial natriuretic peptide*

brain

bioactivity in sheep, R1324

response to acute and chronic ventricular pacing in sheep, H594

C-type

bioactivity in sheep, R1324

in mesangial cells, F440

in nephron, F311

response to acute and chronic ventricular pacing in sheep, H594

regulation of osteoblastic metabolism by, C1311

### **Nausea**

of pregnancy, gastric dysrhythmias in, mediators of, G506

### **Necturus maculosus, see Mudpuppy**

### **Nephrectomy**

circulating and intrarenal renin levels after uninephrectomy, F776

subtotal, sodium-potassium ATPase distribution along rat nephron after, effects of enalapril on, F997

### **Nephritis**

passive Heymann, albumin excretion in, effect of dietary protein and enalapril on, F986

### **Nephrocalcinosis**

pathogenesis of, F604

### **Nephrolithiasis**

pathogenesis of, F192, F604

### **Nephropathy**

diabetic, pathophysiology of, F812

### **Nephrotoxicity**

of gentamicin, F245, F531

### **Networks, vascular, see Microvascular networks**

### **Neuroblastoma cells**

NB-OK-1, role of phosphodiesterase II in cross-talk between cGMP and cAMP in, C286

osmotic regulation of Na<sub>+</sub>-myo-inositol cotransporter in, C990

### **Neuroendocrine system**

ultradian rhythmicity in humans, R873

### **Neurokinin-1 receptors**

on endothelial cells, at sites of plasma leakage, in rat tracheal mucosa, L404

### **Neurokinins**

atrial natriuretic peptide release stimulated by, in neonatal rat ventricular myocytes, H935

### **Neurons**

area postrema

effects of adrenomedullin on, R920  
paraventricular nucleus inputs to, R342

central catecholaminergic, in 10-Hz rhythm in sympathetic nervous system discharge, R333

cerebellar, cell volume regulation, chloride efflux and taurine in, C1703  
glutamate transporter EAAC1, in rat brain, C67

histaminergic, in intrinsic cardiac and intrathoracic extracardiac ganglia, R906

lateral parabrachial, in rats, glutamatergic input to, H1557

medullary

sympathoexcitatory, inhibition by activation of medial prefrontal cortex in rat, R713

vasomotor, in pentobarbital-anesthetized rats, R348

myenteric

ATP-evoked calcium signaling in, G587

caffeine- and ryanodine-sensitive calcium stores in, G594

in internal anal sphincter, nitric oxide release from, G492

of nucleus of solitary tract, effects of circulating angiotensin II and vasopressin on, R675

pancreatic ganglion, effect of cholecystokinin on neurotransmission in, G526

prevertebral sympathetic, electrophysiology of nitric oxide and, G324

sensory

calcitonin gene-related peptide-containing, in intestinal peristalsis, G778

in rat model of colitis, G79

serotonergic medullary raphe, and 10-Hz rhythm in sympathetic nerve discharge, R174

of suprachiasmatic nucleus, GABA<sub>A</sub> response in, in rats, C1726

trigeminal, nicotine and capsaicin receptors in, C1807

### **Neuropeptide Y**

effects on brown fat temperature, during hypothalamic stimulation in rat, R605

hypothalamic, dissociation from brown adipose tissue uncoupling protein, thermoneutrality and, R111

mRNA levels in mouse hypothalamus, effects of gold thioglucose on, R1208

prefeeding release in rat paraventricular nucleus

ascending noradrenergic neurons and, E596

effects of restricted daily feeding, E589

### **Neuropeptide Y<sub>1</sub> receptors**

in stress-induced vasoconstriction in rat mesentery, H796

## SUBJECT INDEX TO VOLUME 270

### **Neurophysin**

expression in dispersed hypothalamic cell cultures, stimulation by dopamine D<sub>1</sub> agonist, R404

### **Neurtumor**

rat peripheral, RT4-B8 cells from, expression of cardiac sodium channels in, C1522

### **Neutrophils**

adhesion

to bronchial epithelial cells, L80 to endothelial cells, L695 monosodium urate crystals and, C31 CD18, plasma activation of, after skeletal muscle ischemia, H1515 chemotaxis to *Pseudomonas* airspace infections, alveolar macrophage depletion and, L819

and coronary arteriolar endothelial dysfunction, H2094

microbicidal activity, exercise and, R838 migratory responses after intraperitoneal and intratracheal endotoxin administration, L836 recruitment in cholestasis, endogenous glucocorticoids and, G821

### **Newborn**

acute volume expansion in, angiotensin II and, in rat, R393

apical sodium conductance in principal cells, of rabbit, F391

blood volume expansion in, cardiovascular, renal, and endocrine responses to, H1718

brain injury in, and cerebrovascular effects of vasopressin, H1272

heart, ATP use during graded hypoxia and reoxygenation, in vivo, H216

intestinal growth in, orally administered IGF-I and, R1085

lamb model

catecholamine plasma levels, clearance, and spillover in, H668 cold-stimulated contraction of cerebral arteries in, H645 ventricular function, myocardial blood flow, and oxygen consumption in, H741

piglet model cGMP-mediated pial artery vasodilation in, ATP-sensitive potassium channels in, H423

hypoxia-induced pial artery vasodilation in, H869

IL-1 $\beta$ -induced cerebrovascular vasodilation in, R1044

plasma folates in, R99

preterm, see **Preterm newborn**

**NHE**, see **Sodium/hydrogen antiporter (sodium/hydrogen exchanger)**

### **Nicorandil**

and infarct size-limiting effect of ischemic preconditioning, H1744

### **Nicotine**

adipose metabolism and, E215

### **Nicotine receptors**

in rat trigeminal ganglion neurons, C1807

### **Niflumic acid**

effects on chloride and fluid transport, in bovine retinal pigment epithelium, C1175

### **Nitric oxide**

action on ovarian granulosa cells, C812

antimitogenic actions on smooth muscle cells, L362

in arterial vasodilation in cirrhosis, F494

in cholecystokinin-evoked gastric hyperemia, G253

and effect of L-arginine on myoglobin-induced renal vasoconstriction, F784

effects in renal proximal tubule, F106

effects on airway cilia, L745

effects on baroreflexes in conscious rabbits, R1361

effects on bone formation, E634, E840, E955

effects on cortical collecting duct potassium channels, C1336

effects on platelet surface glycoproteins, H1640

effects on pulmonary hemodynamics, at varied pH, H252

effects on renal vasoconstriction, in rat, R630

effects on thrombin receptor agonist-induced aortic contraction, C1815

electrophysiological effects in mouse superior mesenteric ganglion, G324

in endothelial permeability, C778

endothelial release of

acetylcholine- and flow-induced, in arteries and veins, H99

and flow-induced vasodilation in coronary arterioles, H1878

and postischemic vasodilation in human forearm, H1435

in regulation of coronary blood flow, H423

and esophageal neuromuscular function, G136

exhaled, factors affecting, L914

formation in pulmonary arterial relaxation caused by nitrogen dioxide, H1038

in gastrointestinal hyperemia of diabetic rats, G684

in hemorrhagic shock, in rats, H1616

inhaled

effects on surfactant system of lambs in vivo, L273

pulmonary microvascular response to, H974

inhibition

effects on atrial natriuretic factor secretion in isolated rat heart, H306

during ovine bacteremia, and regional hemodynamics, R207

inhibitory effects

on ADH-stimulated osmotic water permeability in cortical collecting ducts, F206

on alveolar type II cell metabolism, L898

in inhibitory innervation of urinary bladder in cod, R1380

inotropic effects of, H1568

in insulin-induced dilation of skeletal muscle arterioles, H2120

in intestinal barrier function and dysfunction, G225

mediation of vascular endothelial growth factor effect on coronary venular endothelium, H411

mitogenic effect of, in epithelial cells, C794

and opioids, in hypoxia-induced pial artery vasodilation, H869

and outward potassium currents in opossum esophageal smooth muscle, G332

and postischemic vasodilation in human forearm, H1435

prevention of hydrogen peroxide-induced endothelial cell injury, L931

production

by cardiomyocytes, regulation, H1864 flow- and bradykinin-induced, endothelial cell membrane potential and, C546

inhibition, renal effects, F845, R1203 in pregnancy, prostacyclin and, H1914

during reperfusion after focal cerebral ischemia, C748

in structural and functional effects of ACE inhibitors in injured arteries, H298

and prostaglandins, in pregnant rat uterus, E471

in pulmonary transition from fetal to neonatal life, L88

in regulation of coronary flow, in dogs, H423

release

in lung, L914

from myenteric neurons, VIP-induced increase in, G492

in rat skeletal muscle capillary, H1696

in renal response to adrenomedullin, F200

in renovascular hypertension, R118

reversal of pulmonary vasoconstriction induced by  $\alpha$ -adrenoceptor activation during exercise, H875

and skeletal muscle glucose transport, E1058

stimulation of sodium pump activity, in rabbit aorta, H1278

and vascular reactivity to acetylcholine, exercise training and, H2008

vasodilator effect

in anoxic pulmonary vasoconstriction, H974

flow-induced, H99, H442, H1878

### **Nitric oxide synthase**

activity in intestinal epithelial cells, G565

assay, C1634

constitutive

in aortas from cirrhotic rats, F494 and pulmonary arterial vasodilation after chronic hypoxia, H888

cytokine-mediated induction of, in intestinal epithelial cells, G565

endothelial

in aortas from cirrhotic rats, F494

expression in chronically hypoxic rat lung, L164

endotoxin-induced activation of, cytokines in, in cultured rat brain cells, R326

expression

regulation by dietary salt, F1027

upregulation by oxygen, in ovine fetal pulmonary artery endothelial cells, L643

## SUBJECT INDEX TO VOLUME 270

**Nitric oxide synthase (continued)**  
 inducible  
     antisense oligonucleotides to, in rescue of epithelial cells from oxidative stress, F971  
     in aortas from cirrhotic rats, F494  
     and colonic dilatation, in rat model of colitis, G425  
     expression by human islets, C1581  
     expression in chronically hypoxic rat lung, L164  
     expression in skeletal muscle cells, TGF- $\beta$ 1 and, R145  
     regulation in intestinal epithelial cells, G565  
     role in intestinal function, G225  
     inflammation, G225  
     inhibition  
         in brain, effects on colonic motor activity, G717  
         effects on bone formation in rats, E634, E840, E955  
         effects on cardiac function during endotoxemia, H1979  
         hemodynamic effects, R207  
         in hemorrhagic shock, in rats, H1616  
         insulin resistance and, E1058  
         pressure natriuresis after, in rats, R469  
     islet hormone release and, C1634  
     isoforms, expression in developing rat lung, L88  
     neuronal, and cerebellar blood flow, R914  
     type I, knockout in mice, and regional cerebral blood flow response to vibrissal stimulation, H1085

**Nitric oxide synthase inhibitors**  
 effects on cardiac function during endotoxemia, H1979  
 effects on postischemic hyperemia in human forearm, H1435  
 effects on pulmonary vasodilator response to adrenomedullin, L782  
 endogenous, in plasma from ischemic hindlimb of rat, H1485  
 and negative inotropic effect of acetylcholine in cardiomyocytes, H1178  
 pulmonary vascular responsiveness to, H1757

**Nitrogen dioxide**  
 effects on airway epithelial sodium-potassium ATPase activity, L266  
 enhancement of airway epithelial Na<sup>+</sup>-ATPase activity, L266  
 pulmonary arterial relaxation caused by, H1038

**Nitroglycerin**  
 and myocardial contractility, in *in situ* canine hearts, H1568  
 reversal of pulmonary vasoconstriction induced by  $\alpha$ -adrenoceptor activation during exercise, H875

**7-Nitroindazole**  
 selective inhibition of neuronal nitric oxide synthase, and cerebellar blood flow, R914

**N<sup>o</sup>-Nitro-L-arginine**  
 effects on cardiac function during endotoxemia, H1979

**N<sup>G</sup>-Nitro-L-arginine methyl ester**  
 effects on bone formation in rats, E634, E840

effects on coronary flow, in dogs, H423  
 and pressure natriuresis in rats, R469  
 as probe of nitric oxide release in rat skeletal muscle capillaries, H1696

**Nitroprusside, see Sodium nitroprusside**

**NMDA, see N-Methyl-D-aspartate receptors**

**L-NMMA, see N<sup>G</sup>-Monomethyl-L-arginine**

**Non-insulin-dependent diabetes mellitus (NIDDM), see Diabetes mellitus, non-insulin-dependent (NIDDM)**

**Nonsteroidal anti-inflammatory drugs**  
 effects on chloride and fluid transport, in bovine retinal pigment epithelium, C1175  
 gastropathy caused by, tumor necrosis factor- $\alpha$  and, G42  
 and microvascular leakage, G363

**Nordihydroguaiaretic acid**  
 and oxidant stress in airway epithelium, L266

**Norepinephrine**  
 in activation of phospholipase D in vascular smooth muscle, H1031  
 cardiovascular, R1244  
 cerebral arterial sensitivity to,  $\alpha_1$ -adrenoceptor-inositol phosphate coupling in, H915  
 effects on *Egr-1* and matrix gene expression in cardiac fibroblasts, H2100  
 myocardial  
     endogenous, and ischemic preconditioning, H1078  
     regional interstitial, kinetics during ischemia/reperfusion, H245  
 plasma levels  
     and clearance and spillover, in lambs, H668  
     effects of cocaine and exercise on, E438  
 reduced paraventricular nucleus responsiveness, in obesity-prone rats, R456  
 renal vasoconstriction due to, attenuation by nitric oxide, R630  
 trophic actions in mouse brown adipocytes, R1287  
 vascular reactivity to exercise training and, H2008  
     in rat hindlimb, E689

**Nuclear factor NF- $\kappa$ B**  
 activation by hemorrhage, in murine lung mononuclear cells *vivo*, L729  
 and cytokine-induced nitric oxide production by cardiomyocytes, H1864  
 endotoxin-mediated activation, in rat Kupffer cells, G956  
 and matrix metalloproteinase-9 expression in mesangial cells, F123

**Nuclear magnetic resonance spectroscopy**  
 carbon-13, measurements of net hepatic glycogenolysis, E186  
 of developmental changes in ATP use during graded hypoxia, in heart *in vivo*, H216  
 phosphorus-31, studies of cyclocreatine transport and toxicity, C160  
 study of lactate compartmentation in rat heart, H224

**5'-Nucleotidase**  
 ectosolic, activity in cardioprotection with ischemic preconditioning, H238  
 mediated by ATP-sensitive potassium channels, H1744  
 soluble forms in rat and human heart, H1493

**Nucleus of solitary tract**  
*c-fos* expression in, after abdominal surgery, R888  
 commissural subnucleus, and pressor response to glutamate, R1220  
 neurons  
     with carotid chemoreceptor inputs, projection through rostral ventrolateral medulla, R1273  
     effects of circulating angiotensin II and vasopressin on, R675

**Nurse shark**  
 cardiac cycle in, H1766

**Nutrients**  
 intestinal, postdigestive reinforcing actions of  
     capsaicin and, R1059  
     diet palatability and, R1122, R1197

**Nutrition**  
 IGF-I system response to, developmental differences in, E646

**O**

**Obesity**  
 dietary  
     adipose tissue distribution in, transgenic mouse model of, E768  
     physiology of, in *aP2-Ucp* transgenic mice, E768  
     pyruvate and hepatic pyruvate dehydrogenase levels in, in rats, R489  
     reduction of, in *aP2-Ucp* transgenic mice, E776  
     taste and palatability in, R1197  
 fuel selection in human skeletal muscle in, E463  
 genetic  
     hypertension with, effects of weight cycling in, R864  
     perinatal energy stores and fat deposition in, E700  
     rodent models of, hypothalamic neuropeptide Y expression in, R1208  
 leucine metabolism in, regulation, E273  
 lipolysis in, after weight loss, E739  
 metabolic characteristics of visceral fat in, E995  
 onset, in Zucker rats, E700  
 pathogenesis, R496  
     muscle oxidative capacity and fiber type and, R1332  
 postmenopausal, visceral adiposity and adipocyte lipolysis in, E72  
 reduced paraventricular nucleus norepinephrine responsiveness in, in rats, R456  
 yellow mouse, agouti protein regulation of fatty acid synthesis and desaturation in, E192

**1,25-(OH)<sub>2</sub>D<sub>3</sub>, see 1,25-Dihydroxyvitamin D**

**Okadaic acid**  
 effects on acid secretion in isolated gastric glands, G103  
 effects on Golgi structure and enzyme synthesis and secretion in rat pancreas, G939

## SUBJECT INDEX TO VOLUME 270

- permeability characteristics of erythrocyte membrane to, C449
- Oncogenes**  
*c-myc*, hepatoma cell apoptosis induced by, G60  
*ras* and polyoma middle T, Caco-2 cells transfected with, hexose transporters in, G314
- Oncorhynchus mykiss**, see Rainbow trout
- Oocytes**  
*Bufo arenarum*, progesterone-regulated water channels in, F880
- Xenopus**  
expression of inositol 1,4,5-trisphosphate receptors, and calcium signaling in, C1255  
expression of multiple lysophosphatidic acid receptors in, C772  
glutathione S-conjugate efflux mechanism in, R1156
- κ-Opiate receptors**  
in hypothalamus, osmotically induced vasopressin release and, E367
- Opioids**  
and aorta development, R22  
mRNA levels in arcuate nucleus, and food restriction or deprivation, R1019  
and nitric oxide, in hypoxia-induced pial artery vasodilation, H869  
and palatability-driven food intake, R1183
- Opossum kidney (OK, OKP) cells**, see Kidney cells, OK (opossum kidney)

volume-sensitive anion channels and, C57, C711  
volume-sensitive transport of, C1300  
volume-sensitive, C1029
- Osmoregulation**  
see also Cell volume, regulation of CD9 antigen mRNA in renal epithelial cells, C253  
in JS1 Schwann cells, polyol pathway and, F90  
mechanism controlling betaine accumulation and, C650  
in seawater, in lamprey, R125  
shrinkage-induced current regulation and, C179  
of sodium-myoinositol cotransporter, C990  
of syster: A amino acid transport, in M<sup>+</sup>CK cells, F419  
in thick ascending limb of Henle's loop, role of sorbitol in, F275  
volume-sensitive anion channels and, C711
- Osmotic stress**  
and relative changes in cardiomyocyte stiffness, H1414
- Osteoblasts**  
cytosolic pH in, modulation by pantoxin, C1277  
mineralocorticoid receptor in, C1088  
proliferation and differentiation, regulation by natriuretic peptide, C1311
- Osteoclasts**  
activity, regulation of, E840  
cytosolic calcium in, effects of ruthe-nium red and cADP ribose on, F469  
expression of B2 isoform of vacuolar H<sup>+</sup>-ATPase, C382
- Osteocytes**  
c-fos and IGF-I in, E937
- Osteogenesis**, see Bone, formation
- Oubain**  
effects on aldosterone release from bovine adrenal glomerulosa cells, E27  
effects on hypoxic cerebral blood flow, H45  
infusion, in sheep, E386  
sympathoexcitatory and pressor responses to, in brain, cerebral angiotensin II and, H275
- Ovary**  
function in goldfish, epidermal growth factor and, R1065  
removal, effects on energy balance, in rat, R199
- 22-Oxacalcitriol**  
effects on bone metabolism in X-linked hypophosphatemic male mice, E141
- Oxidant stress**  
in airway epithelium  
nordihydroguaiaretic acid and, L266  
sodium-potassium ATPase activity and, L266  
hepatitis, during total parenteral nutrition, in weanling rats, G691  
in rat small intestine, G725
- Oxidative phosphorylation**  
inhibition, induction of GLUT-1 mRNA in response to, C235  
and mitochondria isolated from type I and type IIb skeletal muscle, C673  
in vascular smooth muscle, H1869
- Oxidative stress**  
to endothelium, endogenous cytoprotection against, H107  
and glyceraldehyde-3-phosphate dehydrogenase expression in rabbit aorta, H81  
in lethal cell injury, C115  
renal epithelial cell rescue from, F971  
suppression of tricarboxylic acid cycle in cardiac muscle cell, C1735
- Oxygen**  
see also Hyperoxia; Hypoxia  
alveolar, at birth, and bioelectric properties of fetal distal lung epithelium, L1060  
availability, in resting skeletal muscle, H1933  
diffusion coefficient, in rat mesentery, measurement, H1390  
diffusive shunting, H1453  
diffusivity, in microvascular beds, H1390  
effects on nitric oxide synthase gene expression, in ovine fetal pulmonary artery endothelial cells, L643  
intraretinal distribution, in guinea pig retina, H965  
metabolism, alcohol and, G574  
partial pressure, systemic and microvascular, dissociation during hemorrhagic shock, H827  
singlet, and laser-dye impairment of endothelium-dependent responses of brain arterioles, H1258  
transport  
cerebral, cross-linked hemoglobin and, H466  
in exocrine pancreatic microvessels, H1704  
in rat mesentery, measurement, H1390
- Oxygenation**  
mucosal, in porcine jejunum, effects of endotoxemia and dopamine on, G667  
retinal, in guinea pig, H965  
tissue, effects of diffusive shunting of oxygen and counterdiffusion and accumulation of carbon dioxide on, H1453
- Oxygen consumption**  
changes at birth, in lambs, H741  
in embryonic cardiac myocytes, during hypoxia, L44  
estimation, modeling [<sup>15</sup>O]oxygen tracer data for, H1115  
fetal, effect of endothelin-1 on, in sheep, H16  
gas-exchange surface area in lung, L110  
myocardial  
age-related changes in, in rat heart, H897  
in ischemia/reperfusion of rat heart, H72  
mechanical determinants of, in conscious dogs, H2229  
and pressure-volume area, relation between, derived from thermodynamics, H730  
transients, after perfusion pressure changes, in goats, H492  
unloaded, measurement, H1063  
and ventricular wall vibration, H583

## SUBJECT INDEX TO VOLUME 270

- Oxygen consumption (continued)**  
in rat  
effect of neostigmine injection in hippocampus on, R1215  
mesenteric, measurement, H1390  
in vascular smooth muscle, H1869
- Oxygen-derived free radicals**  
*see also* Reactive oxygen species; Superoxide anion  
effects on pulmonary arteries, with long-term exposure, H2184  
in enhanced capillary fluid filtration induced by PAF, H127  
in vascular endothelial cell reoxygenation injury, H945
- Oxygen tension**  
arterial, and control of coronary vascular tone, H435
- Oxytocin**  
binding sites, in pregnant rat uterus, chronic hypoxia and, E477  
dehydration natriuresis in rats and, R427  
myometrial responsiveness to, chronic hypoxia and, E477
- Ozone**  
lung injury caused by, and vitamin A deficiency, L475
- P**
- Pacemaking**  
in renal pelvis, variations in, F567
- Pagothenia borchgrevinkii**  
nervous control of spleen in, R599
- Palmitate**  
metabolism, effects of propionate on, H2197
- Palmitoyl-CoA**  
effects on cyclic ADP-ribose-induced calcium release, C530
- Palytoxin**  
modulation of cytosolic pH in osteoblasts, C1277
- Pancreas**  
cell sensitivity, fasting and, E988  
bicarbonate secretion, inhibition by insulin, G163  
cancer of, growth, gastrin and, R1078  
 $\beta$ -cells  
activity during oral glucose tolerance testing, mathematical modeling of, E522  
dysfunction, predictive value of glucose challenge, E572  
effects of secretagogues on insulin biosynthesis and secretion in, C1105  
wild-type, model for, E846  
enzyme synthesis and secretion, effects of okadaic acid on, in rat, G939  
exocrine  
microvessels, oxygen transport in, H1704  
stimulation by cholecystokinin, in capsaicin-treated rats, G881  
stimulation by soybean lectin, via CCK-A receptors, in rats, G653  
ganglion neurons, effect of cholecystokinin on neurotransmission in, G526  
Golgi structure, effects of okadaic acid on, in rat, G939  
secretory response  
to intraduodenal fat, dietary adaptation and, G128
- postprandial, in humans, G844
- Pancreatic islets**  
constitutive nitric oxide synthase, C1634  
glucose-fatty acid cycle in, in fasted rats, E988
- Pancreatic lipase-related proteins**  
PLRP-1 and PLRP-2, regulation by dexamethasone, G746
- Pancreatitis**  
lung damage induced by, hepatic involvement in, G6
- Papillary muscles**  
 $\alpha_1$ -adrenoceptor stimulation in, negative lusitropic effect of, H701
- Papovaviridae**  
immortalizing genes and vectors, C1
- Paracellular permeability**, *see* Permeability, paracellular
- Parasympathetic nervous system**  
airway ganglia, neuromodulatory effect of muscarinic receptors on, L630
- Parathyroid hormone**  
mRNA levels  
effects of progestins on, E158  
during rat estrous cycle, E158  
secretion, regulation of, F454  
stimulation of 25-hydroxyvitamin D $\alpha$ -hydroxylase, E483
- Parathyroid hormone receptors**  
downregulation by vitamin D $_3$  in ROS 17/2.8 cells, E654  
mRNA, localization in kidney, F186
- Parathyroid hormone-related peptide receptors**  
downregulation by vitamin D $_3$  in ROS 17/2.8 cells, E654  
mRNA, localization in kidney, F186
- Parathyroid hormone-related protein**  
as autocrine regulatory factor in alveolar epithelial cells, L353
- Paraventricular nucleus**  
angiotensin AT<sub>1</sub> receptors, in salt-sensitive hypertension in mRen-2 transgenic rats, R1178  
c-fos expression in, after abdominal surgery, R888  
inputs to area postrema neurons, in rats, R342  
norepinephrine responsiveness, in obesity-prone rats, R456
- Parietal cells**, *see* Stomach, parietal cells
- Parturition**  
interaction between nitric oxide and cyclooxygenase products during, in rat uterus, E471
- Parvalbumin**  
and skeletal muscle relaxation, with inhibition of sarcoplasmic reticulum calcium ATPase, C401, C411
- Pentobarbital**  
and medullary vasomotor activity in rats, R348
- Pepsinogen**  
secretion by permeable gastric glands, effects of GTP $\gamma$ S on, G962
- Peptides**  
carrier-mediated transport in kidney, gentamicin and, F531  
intestinal transport, in herbivorous and carnivorous teleosts, R939, R948
- Peptide YY**  
effects on vagally stimulated acid secretion, G123
- Perfused vessels**  
device to apply cyclic strains on, H787
- Perfusion system**  
pulsatile, for ex vivo investigation of biochemical pathways in intact vascular tissue, H760
- Peripheral vascular resistance**  
in sleep, in swine, H723
- Peristalsis**  
intestinal, activation of sensory pathways by 5-HT in, G778  
secondary esophageal, in opossum and hydrochloric acid, G927  
slow fluid infusion-induced, G927
- Peritoneal cavity**  
fluid movement from, F377
- Peritoneal dialysis**  
fluid movement in, F377  
transport of tracer albumin from peritoneum to plasma during, H1549
- Permeability**  
alveolar-airway barrier, to glucose, L183, L191  
endothelial, hydrogen peroxide-induced increase in, L973  
glomerular, in pregnancy, F338  
ion, distal airway epithelium in adult lung, L487  
paracellular, and airspace liquid clearance, L183, L191  
vascular, and neurogenic airway inflammation, L393, L404  
water, distal airway epithelium in adult lung, L487
- Peroxynitrite**  
in inflammation, H1038  
modulation of calcium signaling in vascular endothelial cells, L954
- P-glycoprotein**  
doxorubicin selection for, and reduction of swelling currents in MES-SA cells, C1029  
expression  
and cell volume regulation, C1370  
in mouse mesangial cells, C910
- MDR1**, function  
effect of hypotonicity on chloride efflux and volume regulation, C1453  
rhodamine-123 exclusion as indicator of, C1447  
overexpression, induced by cyclosporin A, F756
- pH**  
*see also* Acidosis  
cytosolic, in human osteoblast-like Saos-2 cells, modulation by palytoxin, C1277  
effects on pulmonary circulation, endothelial modulation of, H252  
extracellular, effect on cardiomyocyte death during energy depletion, H2149  
intracellular  
angiotensin II and, C1687  
and colonic sodium absorption, C1799  
measurement in insulin-secreting cells, C1438  
NMDA-induced acidification, recovery from, C593  
in rat renal medullary thick ascending limb, F691  
regulation in cortical collecting duct B-type intercalated cell, F518  
in renal inner medullary collecting duct cells, F131, F852

## SUBJECT INDEX TO VOLUME 270

- in lethal cell injury**, C115  
**and myosin-induced thin filament activation in cardiac and skeletal muscle**, H1008
- Pharynx**  
 role in swallowing, G347
- Phenylacetylglutamine**  
 for noninvasive probing of citric acid cycle intermediates in primate liver, E882
- Phenylalanine**  
 splanchnic metabolism, during starvation, G298
- Phenylephrine**  
 effects on glucose transport in cardiomyocytes, C1204, C1211
- Phorbol esters**  
 decreased activity of phosphatidylinositol-3 kinase and, C619  
 and diacylglycerol, cell cycle arrest in  $G_2$  phase by, C170  
 inhibition of cardiac L-type calcium channels, H620  
 mitogenic inhibition by, and decreased phosphatidylinositol-3 kinase activation, C619  
 prostaglandin H synthase type 1 gene expression regulation by, C259  
 regulation of renal differentiation by, protein kinase C and, C332
- Phosphatases**  
 serine/threonine, in rat exocrine pancreas, G939
- Phosphates**  
 cytoplasmic, and sodium-potassium balance in rat heart, H1302  
 excretion, renal regulation of, F220  
 inorganic, transport in flounder, F937
- Phosphatidylinositol**  
 formation in growth response of human tracheal myocytes, L795
- Phosphatidylinositol-3 kinase**  
 decreased activity, phorbol esters and, C619
- Phosphocreatinine**  
 levels, during ischemic contraction of canine skeletal muscle, E400
- Phosphodiesterases**  
 isoenzymes, role in cross-talk between cAMP and cGMP in human NB-OK-1 cells, C286  
 PDE II, role in endothelial permeability, C778
- Phosphoenolpyruvate carboxykinase**  
 gene expression, during exercise, R1005
- 6-Phosphofructo-2-kinase/fructose-2,6-bisphosphatase**  
 expression in perinatal liver, E244
- Phospholamban**  
 in hypertrophied hearts, H2021  
 phosphorylation in rat cardiac muscle, in acidosis, C107
- Phospholipases**  
 activation, and exocytosis, C1153
- PLA<sub>2</sub>**  
 cytosolic, expression during retinoid-induced differentiation in tracheal epithelium, L854  
 cytosolic, UV-increased synthesis of, C1037  
 group II, endotoxin-induced, in rat lung, L752  
 role in action of general anesthetics, C636
- PLC**  
 in ATP-evoked calcium signaling in myenteric neurons, G587  
 G protein-regulated, annexin II inhibition of, F682  
 growth response of human airway smooth muscle cells and, L795
- PLC-γ1**, angiotensin II-induced activation of, in mesangial cells, C1834
- PLD**, activation by G protein in vascular smooth muscle, H1031
- Phosphorus**  
 metabolism, age-related changes in, in men, E483
- Phosphorylation**  
*see also Oxidative phosphorylation*  
 myosin light chain, and length-dependent modulation of tracheal smooth muscle force, C243  
 Na-K-ATPase, G protein-coupled receptors and, C125  
 of phospholamban and troponin I, in rat cardiac muscle, C107  
 regulatory, of Na-K-Cl cotransporter, cytoplasmic chloride and, C437  
 shrinkage-activated conductance and, C179
- Photoperiod**  
 and body mass regulation in voles, R1013  
 and fat pad mass in Siberian hamsters, R383  
 and population density, effects on reproductive and immune function in male voles, R571
- Photosensitivity**  
 of L-type calcium channel blockade by calphostin C, C1293
- Phrenic nerve**  
 activity, NMDA receptors and, R645  
 discharges, responses to hypoxia and hypercapnia, in endothelin-1-deficient mice, R1279
- Physical training**, *see Exercise training*
- Pial vasculature**, *see Brain*
- Pinacidil**  
 and  $\beta_1$ -adrenoceptor-induced coronary vasodilation in dogs, H2210
- Pioglitazone**  
 effect on vascular reactivity in vivo and in vitro, R660
- Pituitary gland**  
 lactotrophs, long-term effects of GABA<sub>A</sub> on, E793
- Placenta**  
 fluid circulation across, R984  
 growth, R1148
- Platelet-activating factor**  
 effects on endothelium-dependent coronary arteriolar vasodilation, H2094  
 enhanced capillary filtration induced by mechanisms, H127  
 shock and intestinal injury induced by, leukocyte  $\beta_2$ -integrin in, G184  
 stimulation of lung pericyte growth in vitro, L298
- Platelet-derived growth factor**  
 activation of sodium/hydrogen antiporter, inhibition by different heparin preparations, L260  
 isoforms, and differential proliferation in bronchial smooth muscle, L415  
 and vascular smooth muscle cell proliferation, C1642
- Platelet-derived growth factor receptors**  
 expression, PDGF isoform-induced, in bronchial smooth muscle, L415
- Platelet endothelial cell adhesion molecule-1**  
 phosphorylation, and transendothelial migration of monocytes, H1624
- Platelet 53-kDa activation antigen (CD63)**, *see Lysosomal protein, CD63*
- Platelets**  
 adherent, flow-induced detachment from fibrinogen-coated surface, H160  
 aggregation  
 in canine coronary arterial thrombosis, xanthine oxidase and, H1993  
 persistence of ADP secretion and, H1131  
 dense-granule centralization and persistence of ADP secretion, H1131  
 surface glycoproteins, effects of nitric oxide on, H1640
- Pneumococcosis**  
 pathophysiology, L761
- Pneumocytes, type II**, *see Alveolar cells, type II*
- Polyamines**  
 metabolism, and premature expression of sucrase-isomaltase, G54  
 and nonmuscle myosin II, in migration of intestinal epithelial cells, G355
- Poly cystic kidney disease**  
 autosomal dominant, cystic fibrosis transport regulator in, C389
- Polymorphonuclear cells**, *see Neutrophils*
- Polyol pathway**  
 and osmoregulation in JS1 Schwann cells, F90
- Porphyr manganese(III) chloride**  
 induction of anion permeability in lung epithelial cells, L386
- Portacaval shunt**  
 pancreatitis-induced lung damage and, G6  
 reversal of, E1037
- Portal vein**  
 contractile response to endothelin-1, endotoxin pretreatment and, H7
- Postischemic reperfusion**, *see Ischemia/reperfusion*
- Postmenopausal women**  
 visceral adiposity and lipolysis in, E72
- Potassium ATPase**  
 differential regulation by low-K<sup>+</sup> diet and corticosteroids, in rat colon and kidney, C679
- Potassium balance**  
 during exercise,  $\beta$ -adrenergic stimulation and, R1347  
 uninephrectomy and, in rats, R434
- Potassium channels**  
*see also Potassium currents; Sodium-potassium ATPase*  
 apamin-sensitive calcium-dependent, ATP-induced rise in, in adult rat hepatocytes, G307
- ATP-sensitive**  
 $\beta$ -adrenergic receptors and, in canine coronary circulation, H2210  
 cardioprotection mediated by, activation of 5'-nucleotidase in, H1744

## SUBJECT INDEX TO VOLUME 270

### Potassium channels (continued)

in cGMP-mediated pial artery vasodilation, H423  
in CGRP receptor-coupled cAMP production for dilation of pial arterioles, H317  
of coronary smooth muscle cells, effects of arachidonic acid on, H1957 and functional hyperemia in striated muscle, H1649  
and hypoxic response in rat pulmonary artery, L803  
openers, effects on calcium waves in cardiomyocytes, H1384  
openers, in ischemic hypertrophied rat hearts, H174  
atrial muscarinic, regulation by cytosolic protein, H526  
in basolateral membrane of cortical collecting duct, regulation by nitric oxide, C1336  
calcium-activated  
in bladder smooth muscle cells, C969  
in CGRP receptor-coupled cAMP production for dilation of pial arterioles, H317  
and chloride secretion in cultured human tracheal glands, L979  
electrophysiological characterization of, C964  
large, in regulation of mesangial contraction by nitroprusside and ANP, C1773  
in porcine tracheal smooth muscle cells, stimulation by sodium nitroprusside, L338  
in pulmonary artery myocytes, effects of mitochondrial uncoupler on, C321  
in renal arterioles, F69, R217, R228  
in corneal endothelium, C975  
in cultured human atrial myocytes, H1676  
in opossum esophageal smooth muscle, nitric oxide and, G932  
RAFTK1, electrophysiological characterization of, C964  
in rat gastric enterochromaffin-like cells, G739  
renal  
activity, stereospecific effects of epoxycosatrienoic acids on, F822  
calcium-activated, in arterioles, F69, R217, R228  
swelling-activated, in MES-SA cells, reduction by doxorubicin selection for MDR1/P-glycoprotein, C1029  
voltage-gated, in pulmonary artery myocytes, effects of mitochondrial uncoupler on, C321  
whole cell, in fetal rat alveolar type II cells, L577

### Potassium-chloride cotransport

in BXD-31 mouse erythrocytes, C866  
reconstitution of, in dog erythrocyte ghosts, C898  
in red blood cell inside-out vesicles, C1122

### Potassium currents

*see also Potassium channels*  
delayed rectifier  
in canine atrium, H2157  
in fetal mouse ventricular myocytes, H2088

potential-dependent block of, by intracellular  $\text{Na}^+$ , C1131  
rapidly activating component of, H2088

transient outward  
in canine atrium, H2157  
pulse chemistry model of, H386

### Potassium ions

colonic secretion, effects of gastrin-releasing peptide on, C848  
conductance  
activation during regulatory volume decrease, R61, R801  
in bronchial smooth muscle, effects of acetylcholine and caffeine on, L772  
in lymphatic smooth muscle of guinea pig mesentery, H1687  
in *Necturus* antral mucosa, G449  
conservation  
in cortical collecting duct, during potassium deprivation, F557  
in outer medullary collecting duct cells, F116  
depletion

and activation of apical membrane of type A intercalated cells, F649  
effects on  $\alpha_{2B}$ -adrenergic receptors in rat kidney, F1015  
effects on renal expression of gastric  $\text{H}^+/\text{K}^+$ -ATPase  $\alpha$ -subunit gene, F557

homeostasis, cytoplasmic phosphates and, in rat heart, H1302  
in regulation of hypoxic cerebral blood flow, H45  
renal conservation of, effects of aldosterone on, E1003  
transport  
in articular chondrocytes, C1300  
and blood volume restitution after large hemorrhage, R1163  
swelling-activated, pathways in eel erythrocytes, R61

### Pregnancy

*see also Fetus; Placenta*  
gastric dysrhythmias in, mediators of, G506  
glomerular hemodynamics and barrier function in, F338  
hemodynamic changes in, in rats, H1779  
interaction between nitric oxide and cyclooxygenase products during, in rat uterus, E471  
myometrial responsiveness in, effect of chronic hypoxia on, in rat, E477  
nitric oxide production in, prostacyclin and, H1914  
renal actions of atrial natriuretic factor in, in sheep, R1132

### Preservation fluids

efficacy during cold preservation of pulmonary arterial smooth muscle cells, L435

### Pressure-flow relationship

pulmonary, H1757

### Pressure-volume area

in acute regional myocardial ischemia in dogs, H1279  
calcium and cross-bridge kinetics and, H1101, H1501  
left ventricular  
mechanoenergetic relationships and, H1905  
systolic, H583, H1063

myocardial oxygen consumption and, relation between, derived from thermodynamics, H730

### Pressure-volume relationship, end-systolic

in acute regional myocardial ischemia in dogs, H1279  
and intracellular control of contraction, H338  
measurement, conductance catheter for rat and, H1509  
in sepsis, H1446

### Preterm newborn

coronary arterial relaxation, nitric oxide-mediated, and antenatal betamethasone therapy, H538  
oxidative lung injury in, protection against, L446

### Progesterone

binding to mineralocorticoid receptors, E601  
and gastric slow-wave dysrhythmias, in nausea of pregnancy, G506  
inhibition of water permeability, in *Bufo arenarum* oocytes and urinary bladder, F880

### Progestin receptors

neural, induction by estradiol, and food deprivation, in hamsters, R978

### Progrestins

effects on parathyroid hormone mRNA levels in rats, E158

### Prohormone convertases

PC1/3, in rat stomach, G87  
PC2, in rat stomach, G87

### Prolactin

serum, effects of verapamil on, E96

### Propionate

effects on acetate and palmitate metabolism, H2197

### Prostacyclin

biosynthesis, in endothelial cells, C259  
inhibition of ET-1 secretion from endothelial cells, by stimulation of guanylate cyclase, H1342  
and nitric oxide production in pregnancy, H1914

### Prostaglandin endoperoxide synthase

isoforms, G393

### Prostaglandin H synthase

expression during retinoid-induced differentiation in tracheal epithelium, L854

type 1 (PGHS-1), gene expression, regulation by phorbol ester, C259

### Prostaglandin receptors

E, subtypes, differential localization in human kidney, F912

EP<sub>4</sub>, from rabbit, cloning and expression of, F485

### Prostaglandins

in gastrointestinal hyperemia of diabetic rats, G684

and IL-1 $\beta$ -induced cerebrovascular vasodilation, in newborn pig, R1044

in intestinal epithelial restitution stimulated by growth factors, G757

in modulation of airway cilia, L745

in neurokinin-stimulated atrial natriuretic peptide release, in neonatal rat ventricular myocytes, H935

and nitric oxide, in pregnant rat uteri, E471

SUBJECT INDEX TO VOLUME 270

- PGE<sub>2</sub>**  
 adrenal, in cholestatic rats, G987  
 central action, and renal sympathetic outflow in rats, R479  
 epithelial response to, effects of gastrin-releasing peptide on, C859  
 EP<sub>4</sub> receptor, cloning and expression of, F485  
 inhibition of ET-1 secretion from endothelial cells, by stimulation of guanylate cyclase, H1342  
 Kupffer cell, stimulation of parenchymal cell oxygen consumption, G574 and nitroprusside-stimulated colonic secretion, C832  
 regulation of HCO<sub>3</sub><sup>-</sup> absorption in medullary thick ascending limb, F711  
 renal effects, mechanism of, F485  
 reversal of AVP inhibition of bicarbonate absorption, by activation of PKC, F978  
 signal transduction in medullary thick ascending limb, F978  
 synthesis in lung fibroblasts, effects of surfactant on, L159  
 UV-induced, in human skin, C1037  
 PGF<sub>2α</sub>, in regulation of endometrial ion transport, C663

**Protein phosphatase inhibitor-1**  
 in ventricular cardiomyocytes, H1159  
**Protein phosphatases**  
**PP1**  
 deactivation of CFTR-Cl<sup>-</sup> conductance, in native sweat duct, C474  
 in reconstitution of potassium-chloride cotransport, in dog erythrocyte ghosts, C898  
**PP2A**, deactivation of CFTR-Cl<sup>-</sup> conductance, in native sweat duct, C474  
**Protein tyrosine kinases**  
 activation by endothelin-1, calcium channels and, F790  
 attenuation of endothelin-1-induced calcium response in vascular smooth muscle cells, C1825  
 in colonic smooth muscle, C1780  
 focal adhesion-associated, activation by bradykinin, in fibroblasts, C1430  
 growth response of human airway smooth muscle cells and, L795  
 inhibitors, effects on inducible nitric oxide synthase and cyclooxygenase expression by human islets, C1581 and matrix metalloproteinase-3 expression in mesangial cells, F806  
 regulation of calcium influx into coronary endothelium, H267  
 signaling  
 in cold-stimulated contraction of newborn lamb cerebral arteries, H645 and flow-induced vasodilation in coronary arterioles, H1878  
**Proteoglycans**  
 pulmonary interstitial, in development of pulmonary edema, H2000  
**Proteolysis**  
*see also Protein, turnover*  
 gut, in exercise, E85  
 during puberty, E79

## SUBJECT INDEX TO VOLUME 270

**Proton ATPase, see Hydrogen ATPase**

**Protooncogenes**

- c-fos*, osteocytic expression of, in bone formation, E937
- c-src*, activation by bradykinin, in fibroblasts, C1430

**Pseudoaldosteronism**

- diagnosis, cellular phenotype for, C208

**Pseudomonas**

- airspace infections, neutrophil chemotaxis to, L819

**Pseudomonas aeruginosa**

- lung disease caused by, L232

**Pseudopleuronectes americanus**

- intestinal and renal sodium-phosphate cotransporters, F937

**Puberty**

- protein turnover during, E79

**Pulmonary artery**

- effects of long-term exposure to oxygen radicals, H2184
- effects of lung allograft rejection on, H2191

endothelial cells

- ATP-induced leukocyte adherence to, L695
- red blood cell adhesion to, endotoxin-induced, L28

- fetal, endothelial cells, nitric oxide synthase gene expression, L643

- hypoxic response, ATP-sensitive potassium channel and, L803

myocytes

- angiotensin II-induced calcium oscillations in, in rat, L637

- potassium channels in, effects of mitochondrial uncoupler on, C321

- relaxation, caused by nitrogen dioxide, H1038

smooth muscle

- calcium-activated chloride currents, H1577

- growth, differential effects of commercial preparations of heparin on, L260

- proliferation, in pulmonary hypertensive rats, L101

smooth muscle cells

- effects of cold preservation on, L435
- serotonin-induced mitogenesis and tyrosine phosphorylation in, inhibition by nitroprusside, L362

- vasodilation after chronic hypoxia, H888

**Pulmonary circulation**

- tone-dependent responses in, adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, H200

vasoconstriction in

- induced by  $\alpha$ -adrenoceptor activation during exercise, reversal of, H875
- and nitric oxide inhalation, in cat, H974

vasodilation in

- after chronic hypoxia, H888
- and nitric oxide inhalation, in cat, H974

**Pulmonary edema**

- adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, H610
- development of, interstitial pressure and proteoglycans in, H2000

- glucose uptake and kinetics and, L183, L191

- salt and water transport across alveolar and distal airway epithelia in, L487

**Pulmonary hypertension**

- adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, H610
- rat model, overexpression of endothelin-1 and pulmonary artery smooth muscle proliferation in, L101
- and stimulation of lung pericyte growth by platelet-activating factor, L298

**Pulmonary surfactant, see Surfactant**

**Pulmonary vasculature**

*see also* **Pulmonary artery**

- adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, pharmacological probes for, in cat, in vivo, H610

hypoxic vasoconstriction, L962

P<sub>2x</sub> purinoceptors in, L889

remodeling

- differential effects of commercial preparations of heparin on, L260
- and platelet-activating factor stimulation of lung pericyte growth, L298
- in pulmonary hypertensive rats, L101
- responsiveness to nitric oxide synthase inhibitors, effects of hematocrit and perfusate viscosity on, H1757
- vasodilator response to adrenomedullin, effects of nitric oxide synthase inhibitors, L782

**Purinergic receptors**

- activation by local nucleotides, in biliary epithelial cells, G246

- and ATP-induced outward current in adult rat hepatocytes, G307
- in hepatocytes, R561

P<sub>2u</sub>

- inhibition of sodium and calcium reabsorption, F53

- rat, cloning and characterization of, C570

- regulation of chloride secretion, in cultured human tracheal glands, L979

- and regulatory volume decrease, C86

- P<sub>2x</sub>, in pulmonary vascular bed, L889

- regulation of airway chloride channels, C1611

- in renal proximal tubules, C1088

- and sodium channel regulation in A6 distal nephron cells, F798

**Purines**

- degradation and replenishment, in skeletal muscle, C1067

**Purinoceptor pathway**

- in regulation of insulin secretion, in NIDDM, E504

**Pyruvate**

- mitochondrial decarboxylation of, C98
- protective effect against anoxic injury and free radical formation, in hepatocytes, G535

- serum levels in rats, and dietary obesity, R489

**Pyruvate dehydrogenase**

- activity in skeletal muscle, during ischemic contraction, E400
- hepatic levels in rats, and dietary obesity, R489

- regulation, C98

- during fasting, E988

## R

**Rab proteins**

- Rab11, in epithelial tissues, G515

**Rainbow trout**

- electrodifusive transport of magnesium across renal membrane vesicles of, F739

- hepatocytes, membrane function and energy metabolism in, R614

- zinc uptake in gills of, mechanism of, R141

*Raja erinacea*, *see* Little skate

*Rana catesbeiana*, *see* Bullfrog

*Rana temporaria*, *see* Frog

**Rarefaction**

- in skeletal muscle, of reduced renal mass hypertensive rat, H661

**Reactive blue 2**

- effect on outward current in isolated bladder smooth muscle cells, C969

**Reactive oxygen species**

- see also* Oxygen-derived free radicals; Superoxide anion

- formation in hepatocytes, effects of pyruvate on, G535

- generation of, during reperfusion after focal cerebral ischemia, C748

- in reperfusion injury after simulated ischemia, in cardiomyocytes, H1334
- suppression of tricarboxylic acid cycle in cardiac muscle cell, C1735

**Receptor serine-threonine kinase**

- type I, preferential expression in pulmonary blood vessels, L547

**Red blood cells, see Erythrocytes**

**Regulatory volume decrease**

- in apoptosis, C1190

- potassium in

- in eel erythrocytes, R61

- in mudpuppy erythrocytes, R801

- P<sub>2u</sub> purinoceptors and, C86

- in rat brain glial cells, C1319

- stretch-activated ion channels and, C1790

**Regulatory volume increase**

- and hyperosmolar inhibition of sodium/hydrogen exchangers NHE2 and NHE3, G431

**Renal, *see* Kidney**

**Renal artery**

- effects of lung allograft rejection on, H2191

**Renal nerve**

- activity, baroreflex control of, nitric oxide and, in conscious rabbits, R1361
- response to endotoxin, R264

**Renal sympathetic nerve activity**

- response to angiotensin II, H275

- response to aortic baroreceptor reflex, in rabbits, H1054

- response to graded volume expansion in lambs, during maturation, H1718

**Renin**

- circulating and intrarenal levels, after uninephrectomy, F776

- expression, regulation by dietary salt, F1027

- plasma activity, amylin and, F289

- release, regulation of, F718

**Renin-angiotensin system**

- see also* Angiotensin; Angiotensin II

- in cardiac hypertrophy, H2177

- cerebral, H275

- in *c-fos* gene activation, in adult rat hearts, H2177

- in orthostasis-induced changes in renal function, H1200

- in transgenic rat TGR(mREN2)27, E919

## SUBJECT INDEX TO VOLUME 270

- Reperfusion**  
*see also Ischemia/reperfusion*  
 after focal cerebral ischemia, generation of nitric oxide and superoxide during, C748
- Reperfusion injury, see Ischemia-reperfusion**
- Reproduction**  
 photoperiod control of, E816  
 seasonal, magnetic field and, E816
- Reproductive physiology**  
 nutritional effects on, E1
- Residence time distribution theory**  
 in macroscopic measurement of lymphatic capillary transport, H324
- Resistance arteries**  
 contraction, vitamin D and, H230
- Respiration**  
 age-related changes in, relationship to heart rate, H1825  
 derived from blood pressure pulse wave, H1672
- Respiratory quotient**  
 as index of whole-body metabolic rate, R1250
- Retina, see Eye, retina**
- Retinoic acid**  
 effects on cell differentiation in tracheal epithelium, L854  
 effects on contractile competence of vascular smooth muscle, H1363  
 postnatal treatment with, effects on lung development, L305  
 regulation of alveolar formation by, L171
- Retinol, see Vitamin A**
- Reverse transcription-polymerase chain reaction analysis**  
 of angiotensinogen mRNA in rat, F1027  
 of bradykinin B<sub>2</sub> receptor mRNA in human kidney, F919  
 cloning of S49 GRK<sub>2</sub> cDNA, C885  
 of epidermal growth factor receptor expression, in lacrimal gland, C1164  
 of low-molecular-weight kininogen mRNA in human kidney, F919  
 of myosin heavy chain expression, C1819  
 of nitric oxide synthase mRNA in rat, F1027  
 of PKC mRNA in rabbit cortical collecting ducts, F766  
 of renin mRNA in rat, F776, F1027  
 of V<sub>2</sub> receptor mRNA in rat collecting duct, F623
- Rhodamine-123**  
 cytoplasmic exclusion of, as indicator of MDR1/P-glycoprotein function, C1447
- Rickets**  
 vitamin D-resistant, X-linked hypophosphatemic mouse model, effects of 22-oxacalcitriol in, E141
- Rockfish**  
 gastrointestinal peptide transport in, R939
- Rodents**  
 seasonal adaptations in, regulation, R1013
- RU-486**  
 and IL-1 $\beta$ -induced decrease in plasma and liver IGF-I levels in rats, R621
- RU-28318**  
 effects on energy balance in ovariectomized rats, R199
- RU-38486**  
 effects on energy balance in ovariectomized rats, R199
- Ruthenium red**  
 cytosolic calcium response to, in osteoclasts, F469
- Ryanodine receptor**  
 osteoclast calcium receptor and, F469
- S**
- Saccin**  
 production, F1073
- Saliva**  
 epidermal growth factor, regulation of eosinophil-derived transforming growth factor- $\alpha$  expression in oral wounds, G191
- Salivary glands**  
 calcium mobilization in, IFN- $\gamma$  and, C514  
 fluid secretion, G213  
 regulatory volume decrease in, P<sub>2u</sub> purinoreceptors and, C86
- Salt, see Sodium chloride**  
*see also Sodium chloride*  
 appetite  
 in calcium-deprived rats, R11, R505  
 lateral parabrachial nucleus and, in rats, R162  
 low-protein diet and, R1189  
 peripheral angiotensin II and, in rats, R1092  
 serotonergic mechanisms and, in rats, R162  
 sensitivity, in mRen-2 transgenic rats, paraventricular AT<sub>1</sub> receptors in, R1178
- Sarcoma cells**  
 MES-SA, reduction of swelling-activated currents in, doxorubicin selection for MDR1/P-glycoprotein, C1029
- Sarcoplasmic reticulum**  
 calcium-activated chloride channels in, C1675  
 calcium ATPase  
 in hypertrophied hearts, H2021  
 inhibition, and muscle relaxation, C401, C411  
 in rapid cooling contracture in skinned myocardium, H1662  
 SERCA 2 gene, expression, effect of thyroid hormone on, H638  
 calcium channels, effects of BAY K 8644 on, C878  
 calcium release  
 adaptation to weight-bearing condition, C1588  
 during calcium waves in cardiac muscle, C148  
 in porcine coronary artery smooth muscle, cyclic ADP-ribose and, H801  
 role in modulating cardiac inotropy, H1662  
 calcium transients in embryonic chick heart and, H518
- Satellite cells**  
 stretch overload-induced activation, in adult and aged skeletal muscle, C578
- Satiety**  
*see also Food intake*  
 cholecystokinin and, in rat, R319  
 duration of, diet palatability and, R1122  
 fat-induced, R761  
 studies of, R688
- Sciatic nerve**  
 stimulation, effects on cerebral blood flow, H1712

 inhibitors, effects on stability of troponin mRNA in neonatal rat lung fibroblasts, L376
- Serotonergic activity**  
 in protein-restricted Zucker rats, E677

## SUBJECT INDEX TO VOLUME 270

- Serotonin**  
 and 10-Hz rhythm in sympathetic nerve discharge, R174  
 neuroendocrine and cardiovascular effects of, E513  
 vascular response to, in rat hindlimb, E689
- Serpins**  
 LEX-032, attenuation of myocardial reperfusion injury in cats, H881
- Serum response factor**  
 regulation of skeletal  $\alpha$ -actin gene during slow-muscle hypertrophy, C1624
- Sexual behavior**  
 nutritional effects on, E1
- Sexual dimorphism**  
 in urine concentrating ability, in rats, R550
- SGLT-1, see Sodium-glucose cotransporter**
- Shear rates**  
 leukocyte rolling velocity and, H1371  
 in pial arterioles, during sciatic nerve stimulation, H1712
- Shear stress**  
 and flow-induced detachment of adherent platelets from fibrinogen-coated surface, H160  
 in pulmonary vasoreactivity, H1757  
 and red blood cell aggregability, in  $\beta$ -thalassemia major, H1951  
 and vascular growth, H364
- Shock**  
*see also Heat stress*  
 circulatory, *see Shock, hemorrhagic*  
 hemorrhagic  
 beneficial effects of nonanticoagulant heparin after, H1294  
 nitric oxide in, in rats, H1616  
 systemic and microvascular  $Po_2$  dissociation during, H827  
 hypovolemic, resuscitated, fluid compartments in, F1  
 septic, cardiac function during, effects of nitric oxide synthase inhibition on, H1979
- Short-circuit current**  
 in alveolar epithelium, epidermal growth factor and, L559  
 in anion transport by rat inner medullary collecting duct cells, F131  
 in distal airway, L289  
 in induction of anion permeability by metalloporphyrin ionophores, L386  
 in renal tubular transepithelial sodium transport, F283
- Shortening deactivation**  
 in cardiac muscle, H338, H1101
- Shortening heat**  
 in mammalian skeletal muscle, C293
- Siberian hamsters**  
 daily torpor in, glucoprivation and, R398  
 photoperiod-dependent fat pad mass in, R383
- Signal transduction**  
 $\beta$ -adrenergic, in European hamster, rhythmicity in, R304  
 in bitter taste, C926  
 for gastric acid and pepsinogen secretion, G962
- in growth response of human airway smooth muscle cells, L795  
 in guinea pig gastric mucous epithelial cells, G604  
 in IL-1-induced nitric oxide production by cardiomyocytes, H1864  
 intracellular, in diabetic gastroparesis, G411  
 mechanisms  
 for ATP, in myenteric neurons, G587  
 modulating ciliary beat frequency in upper airway epithelium, L745  
 shrinkage-activated conductance and, C179
- Simian virus 40**  
 in immortalization of epithelial cells, C1  
 in immortalization of human bladder cell lines, F148
- Sinoatrial node**  
 pacemaker activity, stretch-induced increase of calcium mobilization in, H1726  
 chloride channels in, H1726  
 pacemaker cells, tetrodotoxin-sensitive sodium current in, H2108
- Sinus node**  
 automaticity, effects of ATP on, H1785
- Skin**  
 blood flow, during exercise, effects of cooling on, H208
- Sleep**  
 alteration in human immunodeficiency virus infection, R963  
 effects of GHRH on, in intact and hypophysectomized rats, E230  
 episodic cortisol release and, E608  
 homeostasis  
 during hibernation, temperature sensitivity of, in golden-mantled ground squirrel, R777  
 regulation, in short and long sleepers, R41  
 and IL-1 $\beta$ , in rats, R830  
 regional cerebral blood flow during, in rats, R855  
 vascular resistance changes in, in swine, H723
- Smoking**  
 and pathogenesis of atherosclerosis, H1624
- Snake**  
 renal basolateral organic cation transport in, R1025
- Sodium azide**  
 thermoregulatory effects in toad, R169
- Sodium-bicarbonate cotransport**  
 and biliary bicarbonate excretion, G418  
 in guinea pig ileal crypt cells, C786
- Sodium/calcium exchange**  
 in cortical thick ascending limb cells, F411, F953  
 in rabbit ventricular myocytes, C192
- Sodium/calcium exchanger**  
 activity in cardiomyocytes during metabolic inhibition, extracellular pH and, H2149  
 expression in renal tubules, gentamicin nephrotoxicity and, F245
- Sodium channels**  
 in A6 distal nephron cells, regulation by luminal adenosine receptors, F798  
 amiloride-insensitive, regulation of, role of CFTR in, C1326  
 amiloride-sensitive  
 in Liddle's disease, C208, C214, C224
- mechanosensitivity of, in human B lymphocytes, C224  
 in M-1 mouse cortical collecting duct cells, C998  
 regulation of, role of CFTR in, C1326  
 cardiac, expression in peripheral neurotumor-derived cell line, C1522  
 in cardiomyocytes, effects of sphingosine on, C645  
 in cultured human atrial myocytes, H1676  
 development, cAMP and, H194  
 in distal lung epithelium, and  $Po_2$  increase at birth, L1060  
 epithelial, inhibition by brefeldin A, C138  
 extracellular ATP-gated, in sperm, C1709  
 human cardiac  
 site-directed mutagenesis of, H2029  
 tetrodotoxin blockade of, gating-dependent, H2029  
 in Liddle's disease  
 abnormal regulation of, C208  
 constitutively activated, peptide block of, C214  
 stretch-mediated regulation of, C224  
 L-type, in guinea pig ventricular myocytes, H620  
 mNa<sub>2,3</sub>, immunolocalization in mouse heart and uterus, C688  
 in renal cortical collecting duct, feedback regulation, F371  
 tetrodotoxin-sensitive, in sinoatrial node pacemaker cells, H2108  
 voltage-gated, in cultured rat pituitary cells, growth hormone-releasing hormone and, C125
- Sodium chloride**  
*see also Salt*  
 active reabsorption in renal collecting ducts, effects on renal concentrating mechanism, F904  
 fetal administration of, effects on transplacental fluid circulation, R984  
 intake, effects on developmental expression of renal kallikrein and bradykinin B<sub>2</sub> receptors, F425  
 regulation of nitric oxide synthase, renin, and angiotensinogen mRNA by, F1027  
 thiazide-sensitive transport by rat renal distal tubules, effects of corticosteroids on, F211
- Sodium-coupled L-alanine transport**  
 in LLC-PK<sub>1</sub> cells, C49
- Sodium currents, see Sodium channels**
- Sodium-dicarboxylate cotransporter**  
 renal, cloning and functional expression of, F642
- Sodium-glucose cotransport**  
 pulmonary, L183, L191
- Sodium-glucose cotransporter**  
 in Caco-2 cells  
 regulation, G976  
 sugar transport modes and, G833  
 isoforms, functional differences among, G919
- Sodium/hydrogen antiporter (sodium/hydrogen exchanger)**  
 alkalosis induced by, in negative lusitropism of  $\alpha_1$ -adrenoceptor stimulation, H701

## SUBJECT INDEX TO VOLUME 270

- in hepatocytes, epidermal growth factor and, C841  
 in myocardial reperfusion, H957  
**NHE-1**  
 coimmunoprecipitation of 24-kDa protein with, C1493  
 promoter, regulation in mammalian myocardium, H259  
**NHE2 and NHE3**  
 human and rabbit, in intestinal brush-border, G29  
 hyperosmolar inhibition of, G431  
**NHE-3**  
 in acute pressure natriuresis, F1004  
 renal, isoforms of, C585  
 transcription in OKP cells, effects of glucocorticoids on, F164  
 in pulmonary artery, inhibition, differential effects of heparin preparations on, L260  
 in renal inner medullary collecting duct cells, F131  
 in renal proximal tubule, F106  
**Sodium/hydrogen exchange**  
 apical membrane, in renal medullary thick ascending limb, F691  
 and biliary bicarbonate excretion, G418  
 colonic, bulk cytoplasmic pH and, C1799  
 during myocardial ischemia-reperfusion, C608  
 renal, regulation by thyroid hormones, C585  
**Sodium/hydrogen exchanger inhibitors**  
 cardioprotective efficacy of, extracellular buffer composition and, H692  
**Sodium intake**  
 effect on midwall left ventricular mechanics in hypertensive rats, H628  
 effect on renin-angiotensin system, E810  
**Sodium ions**  
 absorption  
     in immortalized human bladder cell lines, F148  
     intestinal, in *cfr(-/-)* mice, G259  
     apical conductance, in maturing rabbit principal cell, F391  
     cerebral concentration, renal denervation and, F510  
     colonic secretion, effects of gastrin-releasing peptide on, C848  
     conductance, of surface epithelial cells of *Necturus* gastric fundus mucosa, G902  
     fetal supply, effects on transplacental fluid circulation, R984  
     homeostasis  
         angiotensin II in, F406  
         cytoplasmic phosphates and, in rat heart, H1302  
         in dehydration, in rats, R427  
         ouabain and, in sheep, E386  
     intracellular  
         in myocardial reperfusion, H957  
         potential-dependent block of delayed rectifier potassium channels by, C1131  
     mobility in human cervical epithelium, regulation of tight junctional permeability and, C1715  
     reabsorption, inhibition by P<sub>2u</sub> purinoreceptors, F53  
 renal transporters, rapid redistribution and inhibition, during acute pressure natriuresis, F1004  
**renal/urinary excretion**  
*see also Natriuresis*  
 effects of systemic nitric oxide inhibition on, F845  
 regulation of, F301  
**sympathoexcitatory and pressor responses to, in brain, cerebral angiotensin II and, H275**  
**transepithelial transport**  
 in LLC-PK<sub>1</sub> cells, extracellular cGMP and, F283  
 regulation by rate of apical sodium entry, C600  
**transport**  
 in alveolar epithelium, effects of epidermal growth factor on, L559  
 and blood volume restitution after large hemorrhage, R1163  
 in *cfr(-/-)* mice, G259  
 coupling of urate and *p*-aminohippurate transport to, in brush-border membrane vesicles, F61  
 during lung development, L619  
 postnatal maturation, in cortical collecting ducts, F391  
 renal, angiotensin-(1-7) and, F141  
 in renal proximal tubule, regulation by nitric oxide, F106  
**Sodium monitor**  
 gastric, angiotensin II and, F406  
**Sodium-myo-inositol cotransporter**  
 osmotic regulation of, C990  
**Sodium nitroprusside**  
 effects on calcium-activated potassium channels in porcine tracheal smooth muscle cells, L338  
 effects on renal tubular sodium reabsorption, F283  
 inhibition of serotonin-induced mitogenesis and tyrosine phosphorylation in vascular smooth muscle cells, L362  
 and myocardial contractility, in *in situ* canine hearts, H1568  
 regulation of mesangial contraction, mechanisms of, C1773  
**Sodium-phosphate cotransporter, renal**  
 in flounder, comparison with intestinal cotransporter, F937  
 in proximal tubule, F106  
 transfection in MDCK and LLC-PK<sub>1</sub> cells, F220  
**Sodium-potassium ATPase**  
 activity during acute pressure natriuresis, F1004  
 airway epithelial activity, enhancement by nitrogen dioxide, L266  
 basolateral membrane, and renal ammonium pathway, F432  
 and blood volume restitution after large hemorrhage, R1163  
 cytoplasmic phosphates and, and sodium-potassium balance in rat heart, H1302  
 developmental regulation in rat lung, L619  
 differential stimulation by insulin and nitric oxide, in rabbit aorta, H1278  
 distribution along rat nephron, after subtotal nephrectomy, effects of enalapril on, F997  
 expression  
 differential regulation by corticosteroids in vascular smooth muscle, C731  
 in inner medullary collecting duct cells, effects of hyperosmolarity on, F728  
 in porcine lens epithelium, C465  
 and hypoxic cerebral blood flow, H45  
 interaction with palytoxin, in modulation of cytosolic pH in osteoblast-like cells, C1277  
**isoforms**  
 $\alpha_1$ -isoform expression in heart and vascular endothelia, C361  
 $\alpha_1$ -subunit, expression in renal tubules, gentamicin nephrotoxicity and, F245  
 subunits, subcellular distribution in cardiomyocytes, C1221  
 in oxidative and glycolytic muscles, C1421  
 phosphorylation, G protein-coupled receptors and, C125  
 pump function, modulation by  $\alpha_1$ -subunit mutations, C457  
 in reperfusion ventricular fibrillation, H957  
**Sodium-potassium-chloride cotransporter**  
 colonic, effects of gastrin-releasing peptide on, C848, C859  
 in human labial acinar cells, G213  
 immunolocalization, in shark kidney, F927  
 inhibition, effects on myocardial Na and Ca during ischemia-reperfusion, C608  
 regulation by cytoplasmic chloride, C437  
**Sodium pump, see Sodium-potassium ATPase**  
**Sodium-pyrazinoate cotransport**  
 brush-border membrane vesicle studies, F61  
**Sodium-sulfate cotransporters, renal**  
 transfection in MDCK and LLC-PK<sub>1</sub> cells, F220  
**Somatostatin**  
 central trigeminal effects on adrenal and autonomic function in cat, R636  
 cholecystokinin-induced secretion, in gastric fundus, and intracellular calcium concentration in D cells, G897  
 effects on growth hormone secretion, E975  
 effects on pulsatile insulin secretion, E1043  
**Somatotrophs**  
 rat, voltage-gated sodium current in, growth hormone-releasing hormone and, C125  
**Sorbitol, osmotic regulation**  
 in JS1 Schwann cells, F90  
 in thick ascending limb of Henle's loop, F275  
**Soybean lectin**  
 stimulation of pancreatic secretion via CCK-A receptors, in rats, G653

## SUBJECT INDEX TO VOLUME 270

- Spaceflight, see Microgravity**
- Spectral analysis**
- auto- and cross-, in investigation of cardiovascular fluctuations during pentobarbital anesthesia, H575
  - of heart rate, in sleep, in swine, H723
  - in investigation of heart rate and blood pressure variability, H1672
  - in investigation of vagal cardiac electrophysiology, H1381
- Spectral imaging microscopy**
- for simultaneous measurement of intracellular pH and  $\text{Ca}^{2+}$ , C1438
- Spectrin-based membrane skeleton**
- membrane protein sorting and, C1263
- Sperm**
- human, ATP-dependent activation of, C1709
- Spermophilus lateralis*, see Golden-mantled ground squirrel**
- Sphingosine**
- effects on sodium and calcium currents in heart, C645
- Spiny dogfish**
- vascular system of, vasoactivity and immunoreactivity of fish tachykinins in, R585
- Splanchnic nerve**
- activity, NMDA receptors and, R645
  - afferent fibers, in postoperative gastric ileus, R888
  - stimulation, induction of cardiovascular reflexes by, H849
- Spleen**
- nervous control of, in red-blooded Antarctic fish, R599
  - protein metabolism, in sepsis, E621
- Splenic artery**
- remodeling, in response to locally altered blood pressure, indicial functions of, H1323
- Splenic nerve**
- response to endotoxin, R264
- Squalus acanthias*, see Spiny dogfish**
- Stable isotope tracers**
- see also Water, doubly labeled
  - for determining leucine oxidation and FFA flux, E864
  - for determining muscle protein synthesis, E67
  - of docosahexanoic acid turnover in rat lipids, R846
  - for enteral glutamate metabolism, E413
  - for glucose metabolism, E353
  - and hepatic precursor pool for protein synthesis, in humans, E980
  - for leucine and glucose kinetics, E451
  - for leucine kinetics, E85
  - for measuring lipolysis, E739
  - for measuring muscle protein fractional breakdown rate, in vivo, E759
  - for methionine and cysteine kinetics, E209
  - for noninvasive probing of citric acid cycle intermediates in primate liver, E882
  - for studying human apolipoprotein B metabolism, E1022
  - for triglyceride metabolism, E445
- Starvation, see Fasting**
- Steroid hormones**
- see also Glucocorticoids
  - binding to mineralocorticoid receptors, E601
  - gonadal, in regulation of photoperiod-induced body mass changes in voles, R1013
  - as oatp substrates, F319, F326
- Steroidogenesis**
- in goldfish, epidermal growth factor and, R1065
  - gonadal, and hibernation of golden-mantled ground squirrels, R1240
- Sterol 27-hydroxylase**
- hepatic, regulation by bile acids, G646
- Stomach**
- acid and pepsinogen secretion by permeable gastric glands, effects of GTP $\gamma$ S on, G962
  - acid secretion
    - cholecystokinin and, G253
    - duodenogastric motility and, G113
    - glycine-extended gastrin and, in rats, G220
    - phosphatase inhibitors and, G103
    - vagally stimulated, Y<sub>1</sub> receptors and, G123
  - antral distension, and postprandial pancreaticobiliary response in humans, G844
  - antrum, in regulation of pancreaticobiliary secretion in humans, G844
  - D cells, intracellular calcium, cholecystokinin and, G897
  - emptying
    - abdominal surgery-induced inhibition of, R556, R888
    - apolipoprotein A-IV and, G49
    - of ingested fat emulsion, in rats, R688
    - regulation of, G470
  - function, lipid-induced inhibition of, G49
  - G cells, stimulation by immunocells and cytokines, G783
  - hyperemia
    - cholecystokinin-evoked, G253
    - in response to luminal acid, impairment in cirrhotic rats, G71
  - mucosa
    - electrophysiological effects of cholinergic stimulation in, G449
    - gastrin stimulation of histamine synthesis in, G463
    - ornithine decarboxylase and histidine decarboxylase activity in, G476
    - surface cell conductance of, G902
    - mucosal blood flow, in cholecystokinin-evoked gastric hyperemia, G253
    - mucous cells, EGFTGF- $\alpha$  receptor, in guinea pig, G604
  - pacemaker potential frequency, and volume and site of distension, G470
  - parietal cells in OLETF rats, cholecystokinin sensitivity of, G730
  - phase III contraction, regulation by motilin, 5-hydroxytryptamine and, G20
  - postprandial secretory response in humans, G844
  - prohormone convertases, in rat, G87
- Stress**
- angiotensin and adrenergic interactions during, in spontaneously hypertensive rat, R1265
  - psychological, hemodynamic response to, in skeletal muscle, E393
  - sympathetic neural reactivity to, sex differences and, H340
- Stress protein**
- cytokine-induced expression of, in feline cardiomyocytes, H1231
- Stroke volume**
- determinants of, H2050
- Stromelysin**
- expression, induction by pyrrolidine dithiocarbamate, F806
- Substance P**
- atrial natriuretic peptide release stimulated by, in neonatal rat ventricular myocytes, H935
  - and chronic inflammatory response of *Mycoplasma pulmonis* infection in rats, L393
  - effects on brown fat temperature, during hypothalamic stimulation in rat, R605
  - effects on mast cell degranulation in rat trachea, L985
  - plasma leakage and, L393, L404
  - prostaglandin-dependent release, R720
- Substance P receptors**
- immunoreactivity on endothelial cells, in rat tracheal mucosa, L404
- Succinate dehydrogenase**
- of myofibers, regulation by nerve-mediated activity and ciliary neurotrophic factor, R80
- Sucrase-isomaltase**
- premature expression, polyamine metabolism and, G54
  - regulation in Caco-2 cells, G976
- Sucrose**
- intake, inhibition by celiac, superior mesenteric, and intravenous CCK-8 infusions, R319
- Sugar transport**
- heterogeneity in Caco-2 cells, G833
- Sulfate**
- excretion, renal regulation of, F220
- Superoxide anion**
- and cerebrovascular effects of vasopressin, after brain injury, H1272
  - and coronary artery oxygen-elicited responses, in calf, H1044
  - efflux, and reoxygenation injury of endothelial cells, H945
  - and esophageal neuromuscular function, G136
  - generation of, during reperfusion after focal cerebral ischemia, C748
- Superoxide dismutase**
- in intramural nerves of opossum esophagus, G136
  - surfactant-mediated uptake by type II cells and lung tissue, L659
- Suprachiasmatic nucleus**
- age-related changes in, E238
  - GABA<sub>A</sub> receptors, allosteric modulation, C1726
- Surfactant**
- aggregates, conversion in vivo, L152
  - effects on lung fibroblasts, L159
  - inhaled nitric oxide and, in lambs in vivo, L273
  - metabolism in transgenic mice, after granulocyte macrophage-colony stimulating factor ablation, L650

## SUBJECT INDEX TO VOLUME 270

- secretion**  
 annexin II and, L668  
 from fetal type II pneumocytes,  
 stimulation by gastrin-releasing  
 peptide, L331  
 synthesis by alveolar type II cells, inhibition by nitric oxide, L898
- Surfactant proteins**  
 regulation and distribution after prolonged hyperpnea, L320
- SP-A**  
 gene expression, in vitro analysis of, L504  
 measurement, in lambs in vivo, L273  
 nitration-induced injury to, L281  
 stimulation of phagocytosis by alveolar macrophages, L677
- SP-A, SP-B, and SP-C**, modulation of lipid uptake by pulmonary epithelial cells, L69
- SP-B**  
 gene, in rabbit, L601  
 gene promoter, functional characterization, L601  
 mRNA, TNF- $\alpha$ -induced decrease, in murine lung, L714
- Surfactometer**  
 captive bubble, L273  
 pulsating bubble, L273
- Swallowing**  
 pharyngeal, elicitation by fluid infusion, G347
- Swelling-activated transport**, *see Cell volume, regulation*
- Swimbladder**  
 gas gland cells, from European eel, analysis of metabolic control in, R578
- Sympathetic nervous system**  
*see also Renal sympathetic nerve activity*  
 activity  
 and abdominal obesity, E363  
 diet-related, in protein-restricted Zucker rats, E677  
 endotoxin-induced, R264  
 respiratory modulation of, R645  
 baroreflex-mediated inhibition, vasoressin and, H1963  
 in blood pressure response to stress, in spontaneously hypertensive rat, R1265  
 control of peripheral vascular resistance, in obese hypertensive dogs, R541  
 discharge, 10-Hz rhythm in central catecholaminergic neurons in, R333  
 serotonergic medullary raphe neurons and, R174  
 prevertebral neurons, nitric oxide and, G324
- Sympathoexcitation**  
 at birth, R86  
 hypoxic, in pentobarbital-anesthetized rats, R348  
 insulin-induced, in rats, R450
- Synaptosomes**  
 permeabilized,  $^{45}\text{Ca}$  accumulation in, effects of calcium chelators on, C628
- Syndrome X**  
 interactions of metabolic disorders in, E292  
 pathogenesis of, E946
- Syrian hamster**, *see Golden hamster*
- T**
- Tachykinins**  
 fish, vasoactivity and immunoreactivity in vascular system of spiny dogfish, R585
- Talin**  
 in airway epithelial cells, regulation by PKC- $\alpha$  and calpain II, L526
- Tannin**  
 stimulation of arachidonic acid release from bovine tracheal epithelial cells, L613
- Taste sense**  
 bitter, signal transduction in, C926  
 and dietary obesity, R1197  
 saline-induced recovery of, in sodium-restricted rats, R704
- Taurine**  
 transport, in rat astrocytes, regulation by protein kinase C, C1022  
 volume-activated efflux, in cultured neurons, C1703
- Taurocholate**  
 and bilirubin excretion, G1028  
 transport, in rat model of intestinal inflammation induced by indomethacin, G804
- Teleosts**  
 gastrointestinal peptide transport in, R939, R948
- Telokin**  
 gene expression, mediation by smooth muscle-specific promoter, C1656
- Temperature**  
 and cardiac calcium transport mechanisms, relative contributions to cardiomyocyte relaxation, H1772  
 effect on charge movement repriming in amphibian skeletal muscle, C892
- Temperature, body**  
*see also Fever; Thermogenesis*  
 circadian rhythm, in persistent vegetative state, R1109  
 effect of neostigmine injection in hippocampus of rat, R1215  
 effect on myocardial infarction, in swine, H1189  
 regulation  
 in cold, R971  
 in cold-exposed diabetic mice, R525 and daily torpor in Siberian hamsters, R398  
 in endotoxin shock, R693  
 energy balance in, R111  
 in guinea pigs, TNF- $\alpha$  infusions and, R749  
 in hypohydration, in rats, R652  
 during hypothalamic stimulation in rat, R605  
 in toad, effects of cyanide and azide on, R169
- Temperature, environmental**  
 and channel catfish intestinal dimensions, brush-border membrane fluidity, and glucose transport, R1037  
 effect on myofiber differentiation in skeletal muscle, R667  
 and renal sympathetic nerve activity after birth, R86  
 skeletal and cardiac muscle protein turnover and, R1231
- and sleep homeostasis during hibernation, in golden-mantled ground squirrel, R777
- Temperature, skin**  
 in control of skin blood flow during exercise, H208
- Testosterone**  
 regulation of renal oatp expression, F332
- 12-O-Tetradecanoylphorbol 13-acetate**  
 regulation of renal differentiation by, C332
- Tetrahydrofolate**  
 plasma distribution in pigs, high-affinity folate-binding protein and, R105 plasma levels, in gestating sows and newborn piglets, R99
- Tetrodotoxin**  
 gating-dependent blockade of human cardiac sodium channels, H2029
- Thalassemia**  
 $\beta$ -thalassemia major, enhanced red blood cell aggregability in, H1951
- Thamnophis species**, *see Garter snake*
- Thermodynamic analysis**  
 of relationship between pressure-volume area and myocardial oxygen consumption, H730
- Thermogenesis**  
 in aP2-Ucp transgenic mice, E768 effect of neostigmine injection in hippocampus on, R1215  
 regulation during hypothalamic stimulation in rat, R605  
 in skeletal muscle, and myofiber differentiation during postnatal development, R667
- Thermoregulation**, *see Temperature, body, regulation*
- Thiols**  
 nitrosation, in pulmonary arterial relaxation caused by nitrogen dioxide, H1038
- Thirst**  
 in rats, peripheral angiotensin II and, R1092  
 stimulation, exercise and, R3
- Thrombin**  
 stimulation of association of adaptor protein with cytoplasmic tyrosine kinase pp125<sup>FAK</sup>, F295  
 $\alpha$ -thrombin  
 effects on ventricular function, in isolated guinea pig heart, H1585  
 inotropic effects of, H1585
- Thrombin receptors**  
 activating peptide SFLLRN, H1585 and response to  $\alpha$ -thrombin in isolated guinea pig heart, H1585  
 vascular smooth muscle cell, surface thrombomodulin and, H603
- Thrombomodulin**  
 surface, modulation of thrombin receptor responses on vascular smooth muscle cells, H603
- Thromboxane**  
 derived from mast cells, in inosine-induced vasoconstriction, H560 and fetal ACTH response to acidemia, R594  
 and glomerular immune injury, F179
- Thromboxane A<sub>2</sub> receptors**  
 in rat mesangial cells, F31

## SUBJECT INDEX TO VOLUME 270

- Thyroid hormones**  
 effect on renal sodium/hydrogen exchanger isoforms, C585  
 effect on SERCA2 expression in chick embryo cardiomyocytes, H638  
 of molting gray seals, R1051  
 and thermogenic changes caused by neostigmine injection in hippocampus of rat, R1215  
 thyroxine, metabolism in acute renal failure, F21  
 triiodothyronine, effects on acyl-CoA synthetase gene transcription in adipocytes, E873
- Thyrotropin-releasing hormone receptors**  
 basolateral sorting of, in transfected MDCK cells, C753  
 ligand-induced endocytosis and G protein coupling, in transfected MDCK cells, C753  
 polarity of, in transfected MDCK cells, C753
- Thyroxine**  
 metabolism in acute renal failure, F21
- Tight junction protein**  
 ZO-1, in airway epithelium, L224
- Tight junctions**  
 of rabbit tracheal epithelium, effects of HOCl on, L224  
 regulation in cultured human cervical epithelium, C1715  
 in tissue remodeling, with TNF-induced apoptosis in renal epithelial cells, F869
- Tilapia**  
 gastrointestinal peptide transport, R939, R948
- Toad**  
*Bufo arenarium*, progesterone-regulated water channels, in oocytes and urinary bladder, F880  
*Bufo marinus*, thermoregulatory effects of cyanide and azide in, R169
- Total parenteral nutrition**  
 hepatic oxidant injury and glutathione depletion during, in weanling rats, G691
- Transcriptional enhancer factor**  
 TEF-1, regulation of skeletal  $\alpha$ -actin gene during slow-muscle hypertrophy, C1624
- Transcription factors**  
*see also* Nuclear factor NF- $\kappa$ B  
 C/EBP- $\beta$ , in stimulation of phosphoenol-pyruvate carboxykinase gene expression during exercise, R1005
- Transfection**  
 of Na-P<sub>i</sub> and Na-SO<sub>4</sub> cotransporters in MDCK and LLC-PK<sub>1</sub> cells, F220
- Transferrin**  
 receptor-mediated transcytosis through blood-brain barrier endothelial cells, H1149
- Transforming growth factor**  
 TGF- $\alpha$   
 effects on type II alveolar cell chemotaxis in vitro, L311  
 eosinophil-derived, expression, G191  
 gene transcription, stimulation by glucose and EGF, C803  
 TGF- $\beta$   
 cell-specific responses to, and type I receptor serine-threonine kinase expression, L547
- in phenotypic shift of glomerular mesangial cells in nodular culture, F614  
 TGF- $\beta$ 1  
 cell cycle arrest in G<sub>0</sub>/G<sub>1</sub> phase and, L879  
 effects on heparan sulfate proteoglycan synthesis, F812  
 effects on nitric oxide synthesis by C2C12 skeletal myocytes, R145  
 increased expression in renal tubules after ischemic injury, F500  
 regulation of apolipoprotein B secretion by Caco-2 cells, G94  
 TGF- $\beta$ 3, regulation of glucocorticoid-induced tropoelastin expression, L992
- Transforming growth factor receptor**  
 TGF- $\alpha$ , in guinea pig gastric mucous epithelial cells, G604
- Transgenic mice**  
*see also* Knockout studies, in mice with annexin VI overexpression in heart, cardiomyocyte function in, H1091  
 aP2-Ucp  
 physiology of dietary obesity in, E768  
 reduction of dietary obesity in, E776  
 GLUT-4, lipoprotein lipase regulation in, R785  
 in immortalization of epithelial cells, C1  
 in immortalization of intestinal crypt cells, C1666  
 insulin-like growth factor binding protein-1, hyperglycemia and impaired glucose tolerance in, E565  
 surfactant metabolism in, after granulocyte macrophage-colony stimulating factor ablation, L650  
 transcriptional regulation during muscle hypertrophy in, C1111
- Transgenic rat**  
 hypertensive TGR(mREN2)27, physiological characterization of, E919
- Translational regulator**  
 PHAS-I, binding to eIF-4E in muscle, regulation by insulin and diabetes, C705
- Transport, see specific substances**
- Triacylglycerol**  
 transport during absorption of glycerol trioleate vs. glycerol trielaidate, G268
- Triakis semifasciata, see Leopard shark**
- Tricarboxylic acid cycle**  
*see also* Citric acid cycle  
 activity after ischemia, H72  
 anaplerotic enrichment substrate, H2197  
 oxidative modulation of, in cardiac muscle cell, C1735  
 in vascular smooth muscle, H1869
- p-Trifluoromethoxyphenylhydrazone**  
 effects on potassium channels in pulmonary artery myocytes, C321
- Triglycerides**  
 metabolism, in humans, E445  
 plasma levels, elevation, effects on insulin action and insulin receptor auto-phosphorylation, E424
- Triiodothyronine**  
 effects on acyl-CoA synthetase gene transcription in adipocytes, E873
- Tropoelastin**  
 expression, glucocorticoid-induced, regulation by TGF- $\beta$ 3, L992  
 mRNA stability in neonatal rat lung fibroblasts, serine proteinase inhibitors and, L376
- Troponins**  
 fast troponin T  
 amino-terminal isoforms of, C298  
 RNA, alternative splicing of, C298  
 troponin I, phosphorylation in rat cardiac muscle, in acidosis, C107
- Trout, rainbow, see Rainbow trout**
- Tubuloglomerular feedback mechanism**  
 exaggerated activity in genetic hypertension, F749  
 homeostatic efficiency of, F461  
 resetting, tubular flow and, F461  
 and sodium transport in distal nephron, F798
- Tumor necrosis factor**  
 apoptosis induced by, in renal epithelial cells, tissue remodeling during, F869  
 gene, upregulation by adenovirus E1A  
 13S gene product, L535  
 in hepatocellular dysfunction during hyperdynamic sepsis, R927  
 pathophysiological concentrations in cerebrospinal fluid, anorexia induced by, R1394  
 stimulation of glucose uptake and leucine oxidation, E864  
 TNF- $\alpha$   
 and cardiac depression in rabbits, H485  
 effect on surfactant protein B mRNA in murine lung, L714  
 in endotoxin-induced activation of nitric oxide synthase, in cultured rat brain cells, R326  
 expression in rat lung, and endotoxin-induced group II PLA<sub>2</sub> activation, L752  
 gene expression, *E. coli*-induced, hepatic ischemia/reperfusion and, R289  
 heat shock protein 72 expression induced by, in feline cardiomyocytes, H1231  
 induction of mannose receptors and apoptosis in glomerular mesangial cells, C1595  
 infusions, and temperature regulation in guinea pigs, R749  
 and liver regeneration after partial hepatectomy, G909  
 mediation of NSAID-induced gastric damage, G42  
 regulation of apolipoprotein B secretion by Caco-2 cells, G94  
 release in hypertensive rats, H2125  
 response to endotoxin, in isolated lungs, L62  
 stimulation of gastrin release from canine antral cells, G783  
 stimulation of glucocorticoid secretion in cholestatic rats, G987  
 in stimulation of neutrophil adhesion to bronchial epithelial cells, L80

## SUBJECT INDEX TO VOLUME 270

- TNF- $\beta$ , infusions, response to, in guinea pigs, R749
- Twin studies**  
of associations among muscle strength, lean mass, and bone density, E320
- Tyrosine**  
efflux, in effects of epinephrine on muscle proteolysis, E961  
splanchnic metabolism, during starvation, G298
- Tyrosine kinases**, *see* Protein tyrosine kinases
- Tyrosine phosphatase**  
cellular effects of insulin and, E375
- U**
- Ultradian rhythms**  
autonomic, cardiovascular, and neuroendocrine, in humans, R873
- Ultrasound**  
*see also* Doppler ultrasound  
technique for assessing aortic distensibility and compliance in rats, H780
- Ultraviolet B**  
inflammation induced by, PGE<sub>2</sub> in, C1037
- Uncoupling proteins**  
brown adipose tissue  
gene expression in rats, thermoneutrality and, R111  
in protein-restricted Zucker rats, E677  
mitochondrial, in aP2-Ucp transgenic mice, E768, E776
- Unstirred layer**  
and hepatic uptake of protein-bound ligands, G869  
jejunal  
in celiac sprue, G487  
normal, measurement of, G487
- Urate**  
transport, by brush-border membranes, F61  
tubular reabsorption of, F61
- Urate/anion exchanger**  
brush-border membrane vesicle studies of, F61
- Urea transporters**  
molecular structure of, F554
- Uremia**  
insulin in, effects of correction of anemia by erythropoietin, F839
- Ureter**  
increased pressure in, renal sensory neuron response to, R720
- Urinary tract obstruction**  
bilateral, and postobstructive diuresis, F657  
in experimental hydronephrosis, F669
- Urinary bladder**, *see* Bladder, urinary
- Urinary tract**  
irritation, spinal c-fos expression after, R990
- Urine**  
concentrating ability  
during exercise, and aging, R71  
sexual dimorphism in, in rats with water deprivation, R550  
and vascular effect of vasopressin, R1257
- concentrating mechanism  
model of, F904  
renal inner medulla, mathematical model of, F9, F904
- dopamine in, source for, F862  
electrolyte excretion in, circadian rhythm of, in persistent vegetative state, R1109
- Urodilatin**  
and postprandial natriuresis, F301  
renal excretion, after renal denervation, F510
- Uroguanylin**  
in opossum colonic mucosa, G708
- Uterine artery**  
 $\alpha_1$ -adrenergic receptors in, effects of long-term high-altitude hypoxemia on, H1001
- Uterus**  
blood flow, prolonged reduction, effect on fetal growth in sheep, R246  
mNa<sub>v</sub>2.3 in, immunolocalization in mouse, C688
- V**
- Vagal reflex**  
ATP-triggered, in dog  
electrophysiological-anatomic correlates of, H1785  
role of cardiac afferents in, H1785
- Vagus nerve**  
abdominal, and vasopressin response to CRF and hypertonicity, R94  
cardiac activity, psychosocial influences upon, H1381  
stimulation, effects on heart rate variability, H2081, H2143
- Valleculae**  
role in swallowing, G347
- Vascular cell adhesion molecules**  
VCAM-1, expression in endothelial cells, H807
- Vascular endothelial growth factor**  
administration in chronic myocardial ischemia, H1791  
in cardiac angiogenesis, H1791, H1803  
*flk-1* and *flt-1* receptor binding, in rat myocardial infarction model of angiogenesis, H1803  
isoforms, H1803  
mitogenic effect on coronary venular endothelium, nitric oxide and, H411
- Vascular networks**, *see* Microvascular networks
- Vascular perfusion system**  
pulsatile, for ex vivo investigations, H760
- Vascular smooth muscle**, *see* Muscle, smooth, vascular
- Vascular tone**  
effects of thrombin receptor agonists on, modulation by endothelin and nitric oxide release, C1815  
and responses in feline pulmonary vascular bed, adenosine A<sub>1</sub> and A<sub>2a</sub> receptors in, H200
- Vasculogenesis**  
in embryonic kidney, F890  
in fetal heart, H33
- Vasoactive intestinal polypeptide**  
in control of circadian rhythms, R283  
effects on nitric oxide release from myenteric neurons, G492
- Vasoactive peptides**  
effects of systemic nitric oxide inhibition on, F845
- Vasoconstriction**  
*see also* Vasoreactivity
- angiotensin II-induced, vascular smooth muscle cAMP and cGMP in, H1914  
inosine-induced, secondary mast cell mediators in, H560  
microvascular, mediation by  $\alpha$ -adrenoceptor subtypes, H710  
pioglitazone and, R660  
pulmonary  
anoxic, vasodilator effect of nitric oxide in, H974  
induced by  $\alpha$ -adrenoceptor activation during exercise, reversal of, H875  
renal  
angiotensin II-induced, F398, F945  
muscle chemoreflex and, H951  
myoglobin-induced, effect of L-arginine on, F784  
stress-induced  
in rat mesentery, neuropeptide Y Y<sub>1</sub> receptors in, H796  
sex differences and, H340
- Vasodilation**  
*see also* Vasoreactivity; Vasorelaxation  
arterial, nitric oxide in, in cirrhosis, F494  
cerebral  
cGMP-mediated, ATP-sensitive potassium channels in, H423  
endothelium-dependent dilation, laser-dye impairment of, singlet oxygen and, H1258  
vasopressin-induced, effect of brain injury on, H1272  
coronary  
 $\beta_1$ -adrenoceptor-induced, pinacidil and, in dogs, H2210  
endothelium-dependent, platelet-activating factor and, H2094  
flow-induced, H1878  
metabolic, in dogs, H2210  
potential role of P<sub>2u</sub> receptor in, C570  
endothelium-dependent, hypoxia-reoxygenation and, R1126  
flow-induced  
in coronary arterioles, H1878  
nitric oxide-dependent, H99, H442, H1878  
forearm stress-induced, E393  
gastric, in cholecystokinin-evoked gastric hyperemia, G253  
insulin-induced, in skeletal muscle arterioles, H2120  
pial arteriolar, calcitonin gene-related peptide receptors and, H317  
pial artery  
ATP-sensitive potassium channels in, H423  
nitric oxide and opioids in, relationship between, H869  
vasopressin-induced, effect of brain injury on, H1272  
pioglitazone and, R660  
postischemic, in human forearm, nitric oxide and, H1435  
pulmonary  
after chronic hypoxia, H888  
and nitric oxide inhalation, in cat, H974  
in skeletal muscle  
insulin-induced, H2120  
in response to stimulation, ATP-sensitive potassium channels in, H1649  
venous, acetylcholine- and flow-induced, H99

## SUBJECT INDEX TO VOLUME 270

### Vasopressin

antidiuretic responsiveness to, gender differences in, in rats, R550  
and baroreflex control of vascular resistance, H1963  
in blood pressure regulation, in hypovolemia, R356  
and central pressor action of angiotensin II, H167  
cerebrovascular effects, effect of brain injury on, H1272  
circulating, effects on neurons of nucleus of solitary tract, R675  
and differential expression of protein kinase C isoforms in fresh and cultured cortical collecting ducts, F766  
in forearm vasodilation during mental stress, E393  
gene expression, regulation, R404  
inhibition of bicarbonate absorption, reversal by PGE<sub>2</sub>, by activation of PKC, F978  
inhibition of nitric oxide, and atrial natriuretic factor secretion in isolated rat heart, H306  
myometrial responsiveness to, chronic hypoxia and, E477  
plasma levels, and systemic nitric oxide inhibition, F845  
pulmonary arterial response to, after chronic hypoxia, H888  
in regulation of HCO<sub>3</sub><sup>-</sup> absorption in medullary thick ascending limb, F711  
release  
κ-opioid agonist inhibition of, E367  
osmotically stimulated, into hypothalamic nuclei, neural input and, E787  
in renal cortical and medullary blood flow during water restriction, R1257  
response to corticotropin-releasing factor and hypertonicity, R94  
serotonin-induced secretion of, mediation via brain angiotensin, E513

### Vasopressin receptors

V<sub>1</sub>, blockade during hypotension, R356  
V<sub>2</sub>, dual signaling pathways, in inner medullary collecting duct, F623

### Vasoreactivity

*see also* Vasoconstriction; Vasodilation; Vasorelaxation  
calcium-dependent, H1101  
cutaneous, effect of temperature on, H208  
endothelin-1 and, H7, H16  
endothelium-dependent  
after ischemia-reperfusion, H1634  
agonist- and flow-induced, H99  
arachidonic acid metabolites and, H1021  
in athletes, H2008  
hyperglycemia and, H2014  
insulin and, in skeletal muscle arterioles, H2120  
intracellular calcium and, H2038  
and long-term exposure to oxygen radicals, H2184  
and lung allograft rejection, H2191  
platelet-activating factor and, H2094  
singlet oxygen and, in cerebral arterioles, H1258  
load-dependent, H1101

in peripheral vascular bed, angiotensin and, H1172  
postischemic calcium channel activity in, H1484  
in forearm, H1435

pulmonary  
adenosine receptors and, H200, H610  
after chronic hypoxia, H888  
during exercise, H875  
with inhaled nitric oxide, H974  
nitrogen dioxide and, H1038  
at varied pH, endothelium-derived relaxing factor and, H252

### Vasorelaxation

*see also* Vasodilation; Vasoreactivity  
coronary artery  
cyclopiazonic acid-induced, in pigs, H2038  
nitric oxide-mediated, and antenatal betamethasone therapy, H538  
by endothelium-derived metabolite of arachidonic acid, H1021  
pulmonary arterial, caused by nitrogen dioxide, via thiol nitrosation and nitric oxide formation, H1038  
temperature and calcium transport mechanisms in cardiomyocytes and, H1772

### Vein

vasodilation, acetylcholine- and flow-induced, H99

### Ventilation

surfactant aggregate conversion in, L152

### Ventricles, *see* Heart ventricles

**Ventricular fibrillation**  
reperfusion, pathophysiology, H957

### Ventriculoarterial coupling

effect of dobutamine on, in regional myocardial ischemia in dogs, H1279  
mathematical models for, H2050

**Venules**  
constriction, mediation by α-adrenoceptor subtypes, H710

### Verapamil

effect on calcium waves and calcium transients in rat ventricular myocytes, H907  
mechanism of action, E96

**Very low density lipoprotein receptor**  
mRNA abundance, in VMH rats, E995

### Vesicle-associated membrane protein VAMP-2

exercise-induced translocation to plasma membrane of human muscle, E197

### Video image analysis

of bile salt secretion in hepatocytes, G887  
computer-assisted, for spatial characterization of contracting cardiomyocytes, H769

in intravital microscopy, G363  
in videofluoroscopy of swallowing, G347  
for videometric flow velocimetry, F461

### Vinculin

in airway epithelial cells, regulation by PKC-α and calpain II, L526

### Vitamin A

*see also* Retinoic acid  
deficiency, and ozone-induced lung injury, L475  
intracellular storage, and Ito cell activation in alcoholic liver fibrosis, G581

### Vitamin D, *see* 1,25-Dihydroxyvitamin D

**Vitamin D<sub>3</sub>, *see* 1,25-Dihydroxyvitamin D<sub>3</sub>**

### Vitamin E

effects on hepatic peroxidation products, G376

### Voles

body mass regulation in, R1013  
male, reproductive and immune function in, effects of photoperiod and population density on, R571

**Volume control, *see* Cell volume, regulation; Osmoregulation**

### Volume overload

cardiac output during, in *Xenopus laevis* tadpoles, R997

### Volume status

regulation of, F311

**VO<sub>2max</sub>, *see* Aerobic capacity, maximal**

## W

### Wakefulness

regional cerebral blood flow during, in rats, R855

### Water

deprivation, in rats  
heat stress after, cardiovascular and sympathoadrenal responses to, R652

sexual dimorphism in urine concentrating ability in, R550

excretion, *see* Diuresis

intake in rats, regulation, R162

restriction, renal cortical and medullary blood flow during, vasopressin in, R1257

### transport

across heterogeneous membranes, R984

and aquaporin-1 in lung endothelium, H416

peritoneal, F377

### Water, body

effects of corticosteroid receptor stimulation on, R1099

### Water, doubly labeled

for measuring energy expenditure, natural abundance variations in, E164

### Water balance

airway epithelial, computational studies of, C1751, C1764

### Water channels

*see also* Aquaporin

biochemistry of, C12

expression systems for, C12

mammalian, C12

narrow, filled pore model, C1246

physiological role of, C12

progesterone-regulated, in *Bufo arenarum* oocytes and urinary bladder, F880

proteins, cloning of, C372

structure of, C12

### Water permeability

distal airway epithelium, in adult lung, L487

of epithelial cell apical membrane, regulation of, C372

progesterone-regulated, in toad oocytes and urinary bladder, F880

SUBJECT INDEX TO VOLUME 270

of renal cortical collecting ducts, ADH-stimulated, F206  
of renal inner medullary collecting duct, effects on renal concentrating mechanism, F904

**Weightlessness, see Microgravity**

**Western blotting**

analysis of PKC isoforms, F766

**White blood cells, see Leukocytes**

**Windkessel model**

in arterial impedance study, H1597

five-element, H376

three-element, H2050

**Wortmannin**

effects on canine gastric smooth muscle, C1405

X

**Xanthine dehydrogenase**

regulation, and hypoxia, L941

**Xanthine oxidase**

and cyclic flow variations in canine coronary arterial thrombosis, H1993  
and NF- $\kappa$ B activation by hemorrhage, L729

and platelet aggregation in canine coronary arterial thrombosis, H1993  
regulation, and hypoxia, L941

**Xenopus laevis**

oocytes

expression of inositol 1,4,5-trisphosphate receptors, and calcium signaling in, C1255

expression of multiple lysophosphatidic acid receptors in, C772  
glutathione S-conjugate efflux mechanism in, R1156

tadpoles, cardiac output in, R997

Z

**Zinc ions**

transport in mammalian cells, C401  
uptake in gills of rainbow trout, mechanisms of, R1141

**Zucker rat**

diabetic

insulin secretory responses to P<sub>2</sub> purinoceptor agonists in, E504  
loss of  $\beta$ -cell L-type calcium channel activity in, E133

obese, diet-induced hypothalamic monoaminergic activity in, E677  
obesity onset in, E700

protein-restricted  
brown adipose tissue uncoupling protein in, E677  
serotonergic activity in, E677  
thermic effect of food in, E677
